SUPER DUTY®

ford.com

BETTER THAN EVER.

F-350 LARIAT Crew Cab 4x4 in Dark Blue Pearl/Sterling Gray Two-Tone with available equipment

Introducing the 2011 Super Duty.[®]

That's right. **AMERICA'S MOST CAPABLE PICKUP** is now even better. Tested-tough new powertrains – designed, engineered and built by Ford – give Super Duty class-leading fuel economy,¹ plus best-in-class diesel horsepower and torque.² Best-in-class maximum towing and payload capacities² get the job done when no one else can. Standard trailer sway control helps increase your towing confidence. It's no wonder F-Series has been America's best-selling truck for 33 years running. And this rugged workhorse is built to make it a whole lot more.

¹Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.

²Class is Full-Size Pickups over 8500 lbs. GVWR. Based on comparison of 2011 MY competitive models. GVWR and GCWR when properly equipped.

2011 SUPER DUTY[®]

ford.com

TESTED TOUGH

to **OUTWORK** all the rest.

F-350 LARIAT Crew Cab 4x4 in Golden Bronze/Pale Adobe Two-Tone with available equipment

Already proven – beyond any other.

The new 2011 Super Duty® endured more torture testing than any Ford Truck before it – including over 10 million cumulative miles on the **MOST TESTED POWER STROKE® DIESEL ENGINE EVER**. A world-class team put it through a groundbreaking battery of computer simulations, lab and real-world tests – running it for **THOUSANDS OF HOURS ON END**. In extreme conditions. Scorching heat. Bitter cold. Loaded to the max. Up the steepest grades. All to confirm that this truck is far more than the sum of its parts.

Super Duty is built to be the best – bringing you the **BEST DIESEL AND GAS FUEL ECONOMY** of any truck in its class¹ – plus lots of other capabilities and features only Ford can deliver.

BEST IN CLASS

- Max. Horsepower and Torque
- Max. Conventional Towing: 17,500 lbs^{2,3}
- Max. 5th-Wheel Towing: 24,400 lbs³
- Max. Payload: 7,070 lbs³
- Fuel Economy: Diesel and Gas

CLASS EXCLUSIVES

- Live-Drive Power TakeOff (PTO)⁴
- 5th-Wheel/Gooseneck Trailer Tow Prep Package⁴
- Standard trailer sway control on both SRW and DRW
- LCD Productivity Screen⁴
- Standard Safety Canopy® System
- Ford Work Solutions™⁴
- Tailgate Step⁴

¹Class is Full-Size Pickups over 8,500 lbs. GVWR. Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models. ²Available early 2011. ³When properly equipped. 17,500 on F-350 DRW and F-450. 24,400 on F-450 Pickup. 7,070 on F-350 DRW Regular Cab 4x2. ⁴Optional.

2011 SUPER DUTY®

ford.com

BEST DIESEL

fuel economy, power and torque IN THE CLASS.

Ford 6.7L Power Stroke® V8 Turbo Diesel.

Designed, engineered and built by Ford, this heavy-duty diesel helps Super Duty® deliver up to a **20% IMPROVEMENT IN FUEL ECONOMY** over the previous model, making it the best in its class! It also gives you best-in-class horsepower and torque. We're talking **400 HP** and a massive **800 LB.-FT. OF TORQUE**. That's a game-changing combination. And this **B20-CAPABLE** engine has already proven itself in over 10 million miles of cumulative testing. It's the **MOST TESTED POWER STROKE DIESEL ENGINE EVER**.

¹Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.

6.7L V8 DIESEL PERFORMANCE

14% MORE PEAK HP and **23% MORE PEAK TORQUE**, at lower rpm, than its predecessor.

- A ALUMINUM CYLINDER HEADS** with precision dual water jackets reduce weight and improve cooling.
- B CLASS-EXCLUSIVE INBOARD EXHAUST AND OUTBOARD AIR INDUCTION** architecture helps reduce turbo lag.
- C COMMON-RAIL FUEL INJECTION SYSTEM**, operating at nearly 30,000 psi, uses precise control to provide optimum power, efficiency and noise, vibration and harshness (NVH) performance.
- D CLASS-EXCLUSIVE SINGLE-SEQUENTIAL TURBOCHARGER** uses the compact, efficient design of a dual-sided compressor wheel to help deliver maximum power quickly.
- ENGINE-EXHAUST BRAKING** helps provide better grade descent control with less brake and transmission wear and tear. Fully integrated with tow/haul mode, it provides increased engine braking at higher engine speeds.
- LOWEST NVH IN THE CLASS** with a notably quieter, more refined sound than ever before – the result of meticulous attention paid to the designs of the combustion system, the engine block and the turbocharger.
- CLEANEST SUPER DUTY DIESEL EVER** reduces nitrogen oxide (NOx) levels by more than 80% compared to last year.

2011 SUPER DUTY®

ford.com

6.2L V8 GAS PERFORMANCE

28% MORE STANDARD HP and **11% MORE STANDARD TORQUE** than its predecessor.

Certified to SAE J1349.

- A DUAL-EQUAL VARIABLE CAM TIMING** phases the intake- and exhaust-valve opening and closing events simultaneously to optimize fuel economy, low-end torque and peak horsepower.
- B 2 SPARK PLUGS PER CYLINDER** burn the fuel-air mixture more efficiently for better fuel economy and increased engine torque.
- C STIFF SOHC VALVETRAIN** with roller-rocker shafts and optimized camshaft-lift profiles produces significant low-rpm torque and enables an intake- and exhaust-port layout that leads to better breathing.
- D CYLINDER BLOCK DESIGN** is specifically engineered to optimize the efficiency of crankcase airflow, resulting in improved torque at higher engine speeds; cast-iron engine block and 4-bolt main bearing caps, with 2 additional cross bolts, provide extreme durability.
- PISTON-COOLING JETS** spray oil directly on the underside of the cast-aluminum pistons to keep them cool under extreme operating conditions; they also contribute to increased overall efficiency.

¹405 lb.-ft. of torque and 385 hp under 10K GVWR.
397 lb.-ft. of torque and 316 hp over 10K GVWR.

BEST GAS

**fuel economy,
power and torque
IN THE CLASS.**

Ford 6.2L V8 Gas Engine.

As the standard engine, this free-breathing Ford-built machine helps Super Duty® achieve up to **15% BETTER FUEL ECONOMY** than the previous base engine, making it the best in its class.² It also delivers best-in-class **385 HORSEPOWER** and **405 LB.-FT.¹ OF TORQUE**. The design features large valves and a large-bore, shorter-stroke approach – proven technologies inspired by Ford racing – that help improve its breathing.

And you can rest assured this all-new **E85-CAPABLE** engine is ready to get to work. The Ford powertrain team designed, engineered, built and torture-tested it themselves.

²Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.

2011 SUPER DUTY®

ford.com

- A REDESIGNED TORQUE CONVERTER** with low-speed lockup capability (down to 900 rpm) enables the engine to run efficiently at lower rpm for improved fuel economy.
- B EXCLUSIVE LIVE-DRIVE POWER TAKEOFF (PTO) PROVISION**, available on the 6.7L Power Stroke® diesel, is the only one in the class that uses an output gear linked directly to the engine crankshaft to power upfits anytime the engine's running, whether you're in motion or at a stop.
- C HIGH-ENERGY FRICTION PLATES** are engineered with fluid lube paths to help improve cooling and wear resistance while minimizing torque loss.
- D BIGGER AND STRONGER GEARS** have a lower 1st-gear ratio for improved launch performance and uncompromising durability.
- E NEW HIGH-CAPACITY, HIGH-EFFICIENCY FLUID FILTER** extends fluid- and filter-change intervals up to 150,000 miles.
- **PROVEN POWER FLOW** provides close-ratio gearing for seamless shifting and a double-overdrive to help keep you in the power sweet spot for optimum performance and fuel economy.
- **HIGH-STRENGTH SINTER-METAL CARRIER** with patented Ford rocker one-way clutch is designed to easily handle the enormous low-end torque of the diesel engine and the high speeds of the gas engine.

HEAVY-DUTY

to **HARNESS** all the power.

Ford TorqShift® 6-Speed SelectShift Automatic.™

Blending the control of a manual with the convenience of an automatic, the SelectShift Automatic allows you to use its **FULL MANUAL MODE** to lock the torque converter and hold your chosen gear. Or utilize the **PROGRESSIVE RANGE SELECT** mode to lock out upper gears when the truck is heavily loaded or when towing on grades. Your options are open.

Designed, engineered and built by Ford, this Heavy-Duty transmission is filled with innovations, including an **ENHANCED TOW/HAUL MODE** that provides better control while hauling heavy loads or towing trailers, especially when descending steep grades. And it's all been proven over **10 MILLION MILES OF CUMULATIVE TESTING**.

2011 SUPER DUTY®

ford.com

F-450 LARIAT Crew Cab 4x4 in White Platinum Tri-coat/Pale Adobe Two-Tone with available equipment

PULLS IT OFF

like **NO ONE ELSE** can.

Super Duty® reigns supreme with best-in-class towing capabilities,¹ class-exclusive features and available systems like trailer sway control for **ULTIMATE TOWING CONFIDENCE**. A single touch of the brake pedal in tow/haul mode activates the integrated diesel engine-exhaust braking to help improve control with less wear and tear on the brakes and transmission.

BEST-IN-CLASS MAX. TOWING
Conventional: 17,500 LBS.²
5th Wheel: 24,400 LBS.²

STANDARD TRAILER SWAY CONTROL² uses a yaw motion sensor to monitor the motions of your truck and detect trailer sway. When trailer sway is detected, the system can automatically react by selectively braking, helping you **MAINTAIN CONTROL** of both the truck and the trailer. Super Duty is the only truck in its class with this system standard on both SRW and DRW models.

¹When properly equipped. ²Available early 2011. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

2011 SUPER DUTY®

ford.com

F-450 KING RANCH® Crew Cab in Royal Red/Pale Adobe Two-Tone with available equipment

PURPOSE-BUILT

to tow like a PRO.

A FACTORY-INSTALLED 5TH-WHEEL/GOOSENECK TRAILER TOW PREP PACKAGE offers you the strength of an under-the-bed frame crossmember and maintains a flat cargo bed floor. This patent-pending system is fully covered by a Ford Warranty;¹ and is compatible with the Ford Custom Accessory 5th-Wheel and Gooseneck Hitch Kits by Reese.²

B FACTORY-INSTALLED 5TH-WHEEL AND GOOSENECK HITCH KITS² (Gooseneck shown) are available to get your new Super Duty[®] trailer-ready. See your Ford Dealer for complete details on these Ford Custom Accessories.

C CLASS-EXCLUSIVE POWERSCOPE[™] TRAILER TOW MIRRORS adjust, fold and telescope almost 3 inches at the touch of a switch; this option includes integrated clearance lights and turn signals, plus heated glass with manually adjustable spotter mirrors.

Ford has everything you need to make towing heavy loads easy including smart features like **HILL START ASSIST**, which helps prevent you from rolling back on a grade by momentarily maintaining brake pressure until the engine delivers enough torque to move the truck up the hill. Whether heading up an incline in Drive or in Reverse, you're covered.

CLASS-EXCLUSIVE IN-BED 7-PIN CONNECTOR, part of the optional 5th-Wheel/Gooseneck Trailer Tow Prep Package, makes connecting your trailer wiring quick and easy thanks to its convenient location.

Conventional trailer hookups are easy with the **REAR VIEW CAMERA** option. Just shift into reverse, and a full-color image from the tailgate-mounted camera is displayed in your rearview mirror or on the available Navigation System's 6.5-in. screen (shown).

The available factory-integrated **TRAILER BRAKE CONTROLLER** uses braking input, vehicle speed and ABS logic to balance the performance of the truck brakes and electric trailer brakes. Compatible with certain electric and electric-over-hydraulic trailer brake systems.³

¹See your dealer for Limited Warranty details. ²Available with 8-ft. box only. ³Trailer brake controller verified to be compatible with electrically actuated drum brakes and certain electric-over-hydraulic brake systems. See your Ford Dealer for details.

2011 SUPER DUTY®

ford.com

MOST EFFICIENT MOBILE OFFICE in its class.

Class-Leading Storage Solutions And Much More.

With its collection of available technologies, **BEST-IN-CLASS INTERIOR STORAGE** possibilities, including the **MOST LOCKABLE STORAGE** (up to 2.4 cu. ft.) and the most power access available in the class (up to 6 locations), Super Duty® is built to help you take care of business. A steadfast favorite of those determined to work regardless of the weather, the available **RAPID-HEAT SUPPLEMENTAL CAB HEATER**¹ helps raise the cabin temp so you and your crew can stay active even when it's downright frigid outside.

XLT Crew Cab in Steel Cloth with available equipment

A LOCKABLE UNDER-SEAT STORAGE includes a removable partition and a 12-volt powerpoint on the driver's side; included with the rear bench on XLT, LARIAT and KING RANCH® Crew Cab.

B BIG CENTER CONSOLE is a versatile option that provides lockable storage space you can configure in over 70 different ways – hang your files, stow your laptop, even charge your gadgets out of sight with one of its two 12-volt powerpoints.

FRONT LOCKABLE UNDER-SEAT STORAGE with a 12-volt powerpoint is included on the available 40/20/40 split front seat on XLT and LARIAT.

110-VOLT POWER INVERTER is conveniently located on the back of the available center console.

DUAL-ZONE ELECTRONIC AUTOMATIC TEMPERATURE CONTROL, standard on LARIAT and KING RANCH, combines with the available **HEATED AND COOLED FRONT SEATS** to help increase your comfort in all climates.

¹Optional on models equipped with the 6.7L Power Stroke® V8 Turbo Diesel engine.

2011 SUPER DUTY®

ford.com

A DUAL ALTERNATORS WITH 357-AMP RATING are optional with the 6.7L Turbo Diesel engine; they provide 11.5% more peak amperage than the previous generation.

B COIL-SPRING FRONT SUSPENSION is part of a heavy-duty, independent Twin I-Beam setup on 4x2s and a rugged twin-coil monobeam setup on 4x4s.

C REVISED STEERING SYSTEM on F-250 and F-350 4x2s is symmetrical left to right for more precise response with better on-center steering and control.

D SOLID FRONT AXLE WITH MANUAL LOCKING HUBS is a tried-and-true 4x4 design that delivers excellent articulation, dynamic ground clearance and rugged reliability.

E DURABLE TRANSFER CASE SKID PLATE utilizes high-strength steel for better off-road protection with less weight; part of the optional FX4 OFF-ROAD Package.

F STANDARD 4-WHEEL ANTI-LOCK BRAKE SYSTEM (ABS) uses vented rotors and dual-piston calipers for consistent stops, even with the heaviest loads.

G RIDE AND HANDLING IMPROVEMENTS include optimized rear leaf springs and spring rates, plus adjustments to the internal valving in all pickup shock absorbers, offering a more refined ride experience with best-in-class towing and payload capability.

■ An available **ELECTRONIC-LOCKING REAR DIFFERENTIAL** uses a true mechanical dog-clutch mechanism to lock both rear axle shafts together so they turn at the same speed for maximum traction.

■ Monitor pitch angle, bank angle and wheel direction with the **CLASS-EXCLUSIVE OFF-ROAD DISPLAY** in the available LCD productivity screen.

TOUGHNESS

you can **TRUST.**

F-250 XLT SuperCab 4x4 in Dark Blue Pearl with available equipment

Enhanced Off-Road Capability.

An indisputable fact: There are more F-Series trucks on the road with 250,000+ miles than any other brand. So you can rest assured the new 2011 Super Duty® is built on a solid foundation, one that's designed to meet most any challenge and conquer most any terrain. At the push of a button, available **HILL DESCENT CONTROL™¹** helps maintain the speed of the truck on steep declines. It allows you to concentrate on driving rather than modulating the brakes, increasing your off-road confidence.

¹SRW models with optional FX4 OFF-ROAD Package only.

New Vehicle Limited Warranty. We want your Ford F-Series Super Duty® ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/50,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. The Power Stroke diesel engine gets 5-year/100,000-mile Warranty Coverage. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships.

Insurance Services. Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

Comparisons based on 2011 competitive models (class is Full-Size Pickups over 8,500 lbs. GVWR), publicly available information and Ford certification data at time of release. Some features discussed may be optional. Vehicles throughout this PDF are shown with optional and aftermarket equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions and capacity ratings shown may vary due to optional features and/or production variability. Following publication of the catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your Ford Dealer is the best source for up-to-date information. Ford Division reserves the right to change product specifications at any time without incurring obligations. Body manufacturers are responsible for compliance certification of the completed vehicle. The Ford New Vehicle Limited Warranty and any government certification made by Ford shall cover only the vehicle as manufactured by Ford and shall not extend to any addition, modification or change of or to the vehicle by the Ford Authorized Pool Account.

CLEANEST SUPER DUTY® DIESEL EVER

The Ford 6.7L Power Stroke® V8 Turbo Diesel engine uses industry-proven technology and innovative Ford strategies to meet the latest federal emissions standards to reduce nitrogen oxide (NOx) levels by more than 80% compared to previous regulations.

COMBUSTION EFFICIENCY: The process begins in the engine, where combustion is optimized to help reduce emissions from the start.

CLEANING AND HEATING: When the exhaust stream enters the diesel oxidation catalyst (DOC), the hydrocarbons in it are converted and oxidized into water and carbon dioxide. Then things start heating up.

KNOCKING OUT THE NOx: Next, the exhaust stream is dosed with diesel exhaust fluid (DEF), a mixture of urea and water. In the process, the NOx in the exhaust stream is converted into inert nitrogen and water.

SCRUBBING AWAY THE SOOT: Finally, the diesel particulate filter (DPF) traps any remaining soot, which is then periodically burned away.

DOING YOUR PART: The fluid in the 5-gallon DEF reservoir is approximately consumed over the course of each oil change interval. To help make it easy for you to refill, the blue DEF fill cap is located right next to your green diesel fuel cap. The message center alerts you when there's about 800 miles worth of DEF remaining. Ford-approved DEF can be purchased from your Ford Dealer or other authorized retailers.
