1971 Valiant coming through

The new look of value. The 2-Door Valiant Scamp. A new hardtop model, with a look all its own. A sporty new way to go economically. Or choose the Valiant 4-Door Sedan for easy entry and quick exits. Both with the economy, solid construction, roominess and long life value that are a Valiant tradition.

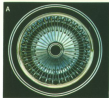

Duster 340 and Duster

Dusters, coming through and lookin' good. And in comparison with other economy cars they look even better. Big difference between the Duster and the Duster 340 is the size of the engine. And since that's a pretty big difference, we also gave the Duster 340 cloth-and-vinyl seats with a bucket-seat appearance, and special tape stripes. Standard.
