RAM 2500/3500

LIVING LARGE

A heavy-duty truck needs to handle a tough, heavy-duty workload. You won't have to worry about the Dodge Ram 2500 and 3500 heavy-duty trucks living up to your expectations with their combination of horsepower, torque, towing, and payload capacity.

Check out the bold look and powerful performance of Dodge Ram 2500/3500.

- Interior and Exterior Features

- Design & Technology

**TOWING**

Whether you choose the short (6-foot, 4-inch) box or the long (8-foot) box, you can pull a whole haul of a lot with Ram heavy-duty trucks. How much? Try up to 5,110 pounds of payload when properly equipped.

SNOWPLOW

You need the most power possible when tackling those giant snowdrifts, icy driveways, snow-covered parking lots, and rugged back roads. So having the most powerful heavy-duty truck on the road makes perfect sense.

Call BusinessLink at 1-877-2-THE-LINK to learn more.

**HYDROFORMING**

We've limited traditional stamping and welding on our truck frames — hydroforming is here. This means that Ram's bones are molded with highly pressurized water, a revolutionary manufacturing process that's not only more cost-effective, but adds structural benefits that kick some competitor butt:

- Greater strength and impact absorption
- Fewer welds for even more durability
- Stronger and stiffer for a more solid feel
- Weighs less than stamped metal

**LONGEST LASTING**

How can a new truck be the longest lasting? Simple. Ram heavy-duty models are part of the long line of Ram trucks that, after twenty years, are still on the road. This next generation adds the longest-lasting brakes available and the ultradurable HEMI® and Cummins® turbo diesel engines to the family tree.

Interior shown: (A) Medium Slate Gray Royale Grain Leather w/Dark Slate Gray Perforated Preferred Suede® Inserts

FOUR REAL DOORS

Rear doors that open 85 degrees separate the all-new Ram Heavy Duty Quad Cab® from the pack. An opening that wide makes entry and exit much easier than most other trucks. The forward-hinged doors also feature high-strength beams for increased side-impact protection.

INTERIOR

If you're talking interior conveniences, you're talking a Ram heavy-duty truck. For instance, cargo that can't go in the bed stores easily in the rear of the cab with the available flat-load floor—and we mean easily: Quad Cab® doors open 85 degrees. Remember to properly secure all cargo.

There's more:

- Full-size bed
- Available business console for laptop, cell phone, and more
- Full-drop rear windows on Quad Cab
- Tie-down cleats in truck bed
- Optional power-adjustable pedals
- Power sunroof available on Quad Cab
- SIRIUS satellite radio available on Quad Cab

CAB SIZES

Loading up your gear is easy, thanks to the space in a Quad Cab® or Regular Cab Ram heavy-duty truck. The two rear doors open up to 85 degrees so you can easily store your gear in the rear of the Quad Cab. The Regular Cab offers ample storage space behind the front seats, too.

Remember to properly secure all cargo.

AIR BAGS

The Dodge Ram 2500 and 3500 heavy duty trucks feature optional supplemental side-curtain air bags* (the only heavy-duty pickups with this feature), child seat anchors, crush zones, and high-strength steel door beams for all four doors.

**Always sit properly in the seat with seat belt fastened.*

WORK SPECIAL PACKAGE — Includes Dark Gray grille surround, Dark Gray front fascia and rear bumper, 17"x7.0" argent painted wheels (1500 only)	O							

• = Included. P = Available within package noted in parentheses. O = optional. NA = Not available.

⁽¹⁾ Not compatible with all garage door openers. See your retailer for details.

⁽²⁾ Excludes ∞Infinity speakers.

⁽³⁾ Includes one-year subscription provided by SIRIUS.

⁽⁴⁾ Certified to the Federal Regulations that allow less forceful front air bags. Always use seat belts. Children 12 and under should only be in the front seat with the passenger air bag turned off, or in a backseat, correctly using an infant seat, child restraint system, or a seat belt positioned correctly for the child's age and weight.

AIR BAGS

The safety from standard front air bags is augmented by side-curtain air bags; available for all Ram models.

CRUMPLE ZONES

These proactive safety measures absorb energy in the event of a front collision. Standard on all Ram models.

POWER ADJUSTABLE PEDALS

To help improve driver control and comfort, available adjustable pedals allow brake and accelerator pedals to move toward or away from the driver.

OUTSTANDING BRAKES

Ride with the largest brakes in their class. Huge calipers and rotors (up to 15") contribute to stopping power and your peace of mind.

SAFETY. IT'S FIVE-STAR QUALITY ALL THE WAY.

Dodge Ram 1500 has been honored with the highest government frontal crash test rating for the driver and front passenger — the NHTSA (National Highway Traffic and Safety Administration) FIVE-STAR rating. But Ram also supports safety and security through assets like ultra-tough hydroformed frame sections with invaluable crumple zones; there's also protection through side-guard door beams. The available assets to promote safety and security include Security Alarm, Sentry Key® Immobilizer System, and Remote Keyless Entry System. Your safety and Ram travel hand-in-hand. Find out more. Check on the Safety/Security section at dodge.com.
