

1972 DODGE WAGONS

1972 MONACO 4-DOOR WAGON

The Dodge way to look at wagons

A station wagon is more than a car with a larger trunk. It's a land yacht, a school bus, a partner in odd jobs around the house, a home away from home, the reason the dog doesn't have to be put in the kennel. And since some people prefer to take it to the club, while others

prefer a remote campground, just one kind of wagon really won't do. So Dodge builds three kinds of wagons, to make sure you get exactly what you're looking for. The features discussed at right refer to Coronet, Polara, and Monaco wagons. See separate catalog for a discussion of Sportsman features.

Coronet Crestwood.

CORONET We think you will find this a very pleasantly sized wagon, indeed. It is large enough to seat six adults comfortably or hold a four-by-eight sheet of plywood flat on the floor. It has a moderate 118-inch wheelbase that makes it easy to park, and it fits most garages easily. Coronet wagons are available with three different levels of trim. The standard Coronet is clean, simple, and utilitarian without being stark. Coronet Custom

gives you additional niceties without breaking your budget. The Crestwood shown above runs to elegant, yet liveable, luxury: color-coordinated simulated wood-grained trim on the sides, matching panel, and door inserts inside; cargo and passenger carpeting; wind deflector; and other niceties. A wide choice of engines is available, as is a complete selection of all popular options and accessories. See the Selected Options section for further details.

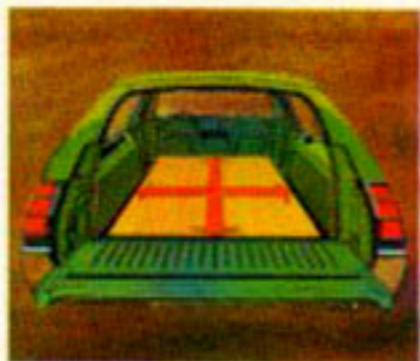

Useful innovations are plentiful—
 as you would expect from the
 company that
 introduced America's first all-metal station
 wagon. A two-way
 hardtop tailgate is standard on all
 models. Interesting
 innovations like the optional
 adjustable roof luggage rack and

an efficient rear
 window wind deflector
 are also available.
 Highly efficient V8
 engines all run on
 regular or low-lead gas,
 and all three wagons
 offer the
 electronic ignition system

that eliminates the major cause
 of engine misfirings and is virtually
 maintenance-free. This

is an extra-cost option
 in most
 cases, but one
 which is surprisingly
 low in cost.
 Both two- and
 three-seat models
 are available.

Three levels of trim are offered with
 an outstanding selection of options
 and

accessories. Your
 family's wagon
 is a reflection of the
 way you live
 your life. Whether
 your tastes run
 to the simple or the
 luxurious, Dodge has

just the wagon you're looking for.
 Your Dealer will be glad to
 assist you in your selection.

POLARA/MONACO Polara and Monaco are
 similar in size—but different in styling and appoint-
 ment levels. They are built for the family that wants
 an extra large amount of space and comfort. This
 year, both include the exclusive Torsion-Quiet Ride,
 an advanced suspension system that uses strategi-

cally placed rubber mounts to isolate road noise and
 vibration from the passenger compartment. Coupled
 with the advanced torsion-bar suspension system,
 the end result is a wagon that rides more like a
 limousine than a wagon, and gives outstanding
 silence to match.

Polara Custom 4-door wagon.

Separate Sportsman catalog available. Ask your Dealer.

SPORTSMAN Dodge builds the Sportsman for
 those of you who are interested in a new concept in
 station wagons.
 In brief, you'll find Sportsman has an independent
 front suspension for a greatly improved ride, a
 choice of seating arrangements no wagon of its

type can match, more room, and a greater choice
 of most-wanted options, including power steering,
 automatic transmission, power front disc brakes,
 and air conditioning. For campers, many different
 and exciting conversions are available. Consult
 your Dealer for complete Sportsman information.
