

ZOOM-ZOOM. FOREVER.

2009 Mazda6

2009 MAZDA6

Stop. Take a listen. You'll hear it everywhere. The double beat. The one-two cadence that propels us all from deep within. Thump-Thump. Goes the heart. The boxer throws the powerful one-two-boxing's most feared combination. Two quick claps of the hands and dancers prepare for perfection. Snap your fingers two times and watch as everyone around gets ready to move. Why do rock legends tap the microphone twice before melting your face? What makes a thoroughbred's muscles respond to two clicks from a jockey's mouth? This is no mere coincidence. The double beat lives on a deeper level. An emotional level. It's a universal tribal-like connection. It's everywhere. And we've followed it for over 40 years. Always building to it. It's what drove us to make the MX-5 Miata, the best-selling roadster of all time. The *MAZDASPEED3*, one of the fastest front-wheel-drive cars on the planet. And the CX-9, 2008 North American Truck of the Year. It's what stirs our soul. And what has led us to its most refined and reimagined form yet. The totally, completely, 100% new MAZDA6. We'll never stop listening. Zoom-Zoom. Forever.

Before you see it, it sees 800 inspections. Fit and finish aren't merely priorities at Mazda. They're obsessions. Before an all-new MAZDA6 ever sees the light of day, it sees an innovative, 34-step, airless painting process. One that imparts a rich, virtually flawless finish. And protection from color fading designed to last a decade. It also sees the scrutiny of over 100 inspectors. Each empowered to reject any part or component that fails to measure up. In fact, by the time you see a new MAZDA6, it's already seen a grueling gauntlet of over 800 inspections. And reflects a caliber of quality that outshines expectations.

End Results: The roof line, rear window and trunk lid of the MAZDA6 all work together to help reduce wind noise and turbulence. Creating a much quieter cabin and greater fuel efficiency.

Brighter Idea: Xenon headlights, standard on Grand Touring and optional on Touring, project 2-3 times the light, last 3-5 times longer and use 30%-40% less energy than halogen headlights. It all adds up to greater safety and peace of mind.

Wind comes from every direction. Shouldn't thinking? Wind turbulence and drag. Unseen enemies that routinely reduce a car's responsiveness, stability and fuel economy. And disrupt a cabin's quiet calm. To help the all-new MAZDA6 turn these foes into friends, we subjected it to 360 degrees of exhaustive wind tunnel testing. Front to back. Side to side. Top to bottom. We even added an ingenious airflow management system with underbody shields and deflectors. The well-honed results: A performance-enhancing coefficient of drag (0.27 Cd) lower than Accord, Altima or Camry. Improved responsiveness, stability and fuel efficiency. Plus sophisticated styling that's beautiful from every angle.

Smooth Moves: Even the side mirrors and A-pillars of the MAZDA6 boast sleek, graceful shapes purposefully sculpted to reduce air turbulence and minimize both wind noise and drag.

Clear Advantage: The windshield of the MAZDA6 possesses a strikingly aerodynamic rake of 26 degrees—the result of extensive wind tunnel evaluations to optimize airflow management.

This ought to get you firing on all senses. True craftsmanship and attention to detail invigorate the senses. Reward the discerning driver. And find sophisticated sanctuary in the all-new MAZDA6 Grand Touring. Within its inviting cabin, electroluminescent gauges, with laser-etched markings, instantly transmit crucial data and help reduce eyestrain. The engine fires up at the touch of a button—thanks to Mazda's Advanced Keyless Entry & Push Button Start System. The center console's armrest thoughtfully adjusts to enhance your comfort. And the standard trip computer not only serves to remind you how much farther you have to go, but also how far you've come.

Let's talk cabin space...space...space...The cabin of the all-new MAZDA6 is

a huge departure from the typical sport sedan's. By virtually every meaningful measure.

With more passenger room than Altima, Camry or Malibu. And even more rear-seat

legroom than Accord. Fact is, Mazda designers "tuned" the dimensions of both the

headliner and rear-seat cushion to maximize rear-seat headroom. All to ensure that its

cabin is as compelling as its performance. The outcome is a remarkably comfortable,

quiet and accommodating interior for five. So whether you occupy the rear seat—

or the driver's seat—of a new MAZDA6, you'll find it easy to echo its praises.

Room Additions: Versatile 60/40 split fold-down rear seats, with remote releases, are standard on every MAZDA6. They provide a convenient, virtually flat cargo floor whenever you have to haul additional, longer or larger cargo.*

Accommodating Trunk: The cavernous trunk of the new MAZDA6 provides a whopping 16.6 cu ft of cargo space. Far bigger than Accord, Altima, Camry or Malibu, the MAZDA6 trunk can easily swallow four standard suitcases.

* Please remember to properly secure all cargo.

Driver's seat? Sensory stimulation chamber would be more accurate.

Yesterday's tired terminology doesn't do justice to a cockpit this ergonomic and driver-centric.

The MAZDA6 Grand Touring cradles you in an 8-way power-adjustable driver's seat that's heated, leather-trimmed and adjusts automatically to your preset driving position as you open the door. The leather-wrapped steering wheel features controls for audio and cruise control, as do most MAZDA6 trim levels, plus Bluetooth® functions. While its standard tilt and telescopic functions facilitate the perfect driving position. Naturally, rearview and outside mirrors are auto-dimming. And the headlights feature an auto on/off setting. Enabling you to better focus on all the fun at hand—a stimulating driving experience that's rare, even in more costly sport sedans.

Easy Directions: A voice-activated, in-dash navigation system is available on MAZDA6 Grand Touring. Its easy-to-use, multicommand audio memory and in-dash, 7-inch touch-screen LCD display make finding your way quick and simple.

Six Sense: An advanced, 6-speed Sport AT automatic transmission is standard on MAZDA6s models. It combines the ease of an automatic with the control, and fun, of a manual-shift mode. A 5-speed Sport AT is available on MAZDA6i models.

Control Center: Convenient steering-wheel-mounted controls for Bluetooth phone functions and audio capabilities, cruise control and the stereo system are all standard on MAZDA6 Grand Touring.

It's an exhilarating experience. No matter where you sit.

The interior of the all-new MAZDA6 Grand Touring is designed to stimulate both driver and passenger. From the first moment you open the door, the lights don't merely "come on." They greet you, as if alive. Sequentially encircling you. And ultimately illuminating the entire cabin in soft light. It's Mazda's Welcome Lighting System. And it sets the mood for other well-deserved and thoughtful touches. Like power-adjustable and heated front bucket seats. Automatic climate control with dual zones. The inviting feel of leather-trimmed seats. And the vaultlike quiet of a cabin featuring lightweight, fuel-saving Liquid Applied Sound Deadening material. And all before you've even shifted into drive.

Hands-free just about everything. The all-new MAZDA6 Grand Touring is your direct connection to real innovation. Like the available voice-activated in-dash navigation system. Thanks to its multicommand audio memory, it's as easy to use as talking. And its in-dash, 7-inch touch-screen LCD display doubles as a command center for the optional in-dash 6-disc CD changer. It's also the only car in its class with Bluetooth® audio.* And it's standard. So you can wirelessly enjoy stereo music from any compatible MP3 player or cell phone. And the first in its class to offer Bose® Centerpoint® Surround Sound.* Meanwhile, your hands are free to do the things hands would rather do. Like drive.

360 Degrees Better: The available Bose 333-watt, 10-speaker Centerpoint Surround Sound System creates stunning 360° synthesized surround sound music from regular CDs. Its neodymium speaker magnets and Nd® subwoofer optimize output while minimizing space and weight.

BOSE

Wireless Wizardry: MAZDA6 Grand Touring is the only car in its class with both Bluetooth hands-free phone and audio capabilities. Make calls, access voice mail, even listen to music—all hands-free—via your Bluetooth-compatible cell phone or MP3 player.

*2007 Automotive News Standard Mid-range cars.

Nature gave you eyes in the front of your head. We gave you a couple more

in the back. In traffic, as in nature, the fittest survive. So we made an ingenious, radar-based Blind Spot Monitoring System* standard on the all-new MAZDA6 Grand Touring.

And available on the Touring. It's such innovative technology, it's not even offered on Accord, Altima, Camry or Malibu. But it works like a charm on MAZDA6. Sensors in back detect trouble on the sides. A warning light in your mirror—mated to a chime in the cockpit—instantly alerts you. Danger is averted. And you journey on, significantly safer. It's blind spot detection made infinitely more reliable than "Honey, can I get over?"

Extra Eyes: Mazda's Blind Spot Monitoring System* is standard on the MAZDA6 Grand Touring.

A radar-based driver-warning system, it utilizes a pair of rear-facing sensors to detect other vehicles and objects that enter or occupy the driver's right and left blind spots.

Dual Alerts: When an object is detected in either side's blind spot, Mazda's Blind Spot Monitoring System* calculates its relative speed and distance. A warning light then appears in the side mirror. If the MAZDA6 driver signals a lane change into either occupied lane, the warning light begins blinking, and a warning chime sounds.

*Always check your mirrors. Be aware of the traffic around you.

For every action, a very safety-focused reaction. On the road, the best defense is often a good offense. As embodied by a car that helps you avoid trouble by instantly, almost intuitively, responding to your every input. A car like the all-new MAZDA 6. With a tight 35.4-ft turning circle to help make it amazingly agile—on the road or in the parking lot. With Traction Control System and Dynamic Stability Control** both standard. With fade-resistant 4-wheel disc brakes, ABS and Electronic Brakeforce Distribution to enhance driver confidence. And with a fully independent suspension system that, like the MAZDA 6, is engineered to optimize ride comfort and driver control.

Hidden Strengths: Mazda's "Triple H" construction adds steel reinforcements to critical body areas—from floorpan to roof—enhancing the MAZDA 6's structural integrity, handling and impact protection. Front and rear crumple zones also help absorb energy during a collision.

Air Force: Dual front air bags, front side-impact air bags and side-impact air curtains,** with coverage for front and rear seats, are standard on MAZDA 6.

Ground Control: A Traction Control System, standard on MAZDA 6, provides enhanced acceleration and improved traction in difficult driving conditions. Dynamic Stability Control,** also standard, provides predictable, stable handling by managing engine torque and braking forces.

*DSC is not a substitute for safe driving practices.

**Always wear your seat belt and secure children in the rear seats in appropriate child restraints.

Six speeds at your fingertips, 272 horses at your toe tips. Two of

the biggest reasons to test-drive an all-new MAZDA6 are no small wonders. The first,

a potent, new 272-hp 3.7-liter DOHC V6 that propels all MAZDA6s models,

utilizes variable valve timing to optimize both performance and fuel efficiency.

Translation: More power—and more torque—than Accord, Altima, Camry or Malibu.

Plus impressive fuel economy. The second, a spirited, yet fuel-efficient, new 170-hp*

2.5-liter DOHC 4-cylinder—also with variable valve timing—powers all MAZDA6i models.

And with the available automatic, delivers a remarkable 30 mpg highway/21 mpg city.**

So take your pick. Get the power and fuel efficiency you demand to have.

And the Zoom-Zoom you deserve to feel. Right down to the tips of your toes.

Automatic Exhilaration: An advanced, 6-speed Sport AT automatic transmission is standard on MAZDA6s models. While a 5-speed Sport AT is available on MAZDA6i models. Both combine the convenience of an automatic plus the extra control, and fun, of a manual-shift mode.

Performance Manual: A slick-shifting, 6-speed, manual gearbox is standard on MAZDA6i models. Multiple-cone synchronizers in the first four gears, plus hydraulic clutch control, ensure smooth, precise performance.

Start Here: A convenient Push Button Start System is standard on both the MAZDA6 Touring and Grand Touring. It works with Mazda's Advanced Keyless Entry & Start System and enables you to fire up the engine with the touch of a button. No more ignition key hassles.

* 168 hp for automatic transmission-equipped vehicles in CA, CT, MA, ME, NJ, NY, OR, PA, RI, VT and WA.

** Automatic transmission. EPA-estimated mileage. Actual results may vary.

Thump-Thump goes the heart. Maybe you should follow yours. Zoom-Zoom. Forever.

Zoom-Zoom and peace of mind go hand in hand.

We want your new MAZDA 6 to be a source of pride, exhilaration and peace of mind for years to come. Which is why every new 2009 Mazda sold in the U.S. is protected by all of the following:

- A 3-year/36,000-mile* "bumper-to-bumper" limited warranty
- A 3-year/36,000-mile* 24/7 Emergency Roadside Assistance program
- A 5-year/60,000-mile* limited powertrain warranty
- A 5-year/unlimited-mileage warranty against body rust-through

For details, please see your Mazda Dealer, visit MazdaUSA.com, or call toll-free 800-639-1000.

*Whichever comes first.

Making the Zoom-Zoom connection easier to make.

Whether you're buying or leasing a new Mazda, a Certified Pre-Owned Mazda or a used vehicle, Mazda American Credit (MAC) can make the financing process a more convenient and more satisfying experience. It all starts with first-class customer service and competitive rates.

To find out which MAC purchase or lease plan best meets your needs, talk to your Mazda Dealer. Or for more information, visit www.MazdaCredit.com.

Accessories guaranteed to go the distance.

One of the most enjoyable aspects of buying a new MAZDA 6 is being able to enhance its appearance and performance with Genuine Mazda Accessories. What's more, all Genuine Mazda Accessories installed by your Mazda Dealer, prior to or at initial vehicle retail delivery, carry the same new-vehicle limited warranty as your new Mazda. See your dealer for details.

A. Compass Auto-Dimming Mirror with HomeLink: Features a bright LED compass readout. Automatically dims to reduce glare from headlights of cars behind you. Also provides the added security and convenience of a HomeLink controller. Replaces standard interior rearview mirror. **B. Fog Lights.** These foul-weather friends provide extra visibility whenever you need it—plus a factory-installed look. **C. Rear Wing Spoiler.** Nothing else finishes off the sporty look of a new MAZDA 6 sport sedan like a racing-inspired rear wing spoiler. **D. Illuminated Doorsill Trim Plates.** Dress up your new MAZDA 6 with stylish illuminated doorsill trim plates that light your way, every time you step in or out of the car. **E. Front & Rear Splash Guards.** Give your new MAZDA 6 extra protection from dirt, mud, rocks and other road debris.
