

# LeMans

Pontiac's lowest priced mid-sized car.

LeMans is the lowest priced mid-sized car we Wide-Track people build. But it's so packed with Pontiac quality, it'll take you years to appreciate everything we built into it.

Sure, the new styling's sensational. But LeMans' sound design includes things far more substantial. Like a strong new frame for a better tuned ride. Effective new sound insulation. Improved body mounts to help keep that new car ride. A new improved front bumper system. The kinds of things that satisfy long after the new car smell is gone.

The seats are handsomely upholstered. But beneath the beauty are thick foam cushions with springs molded inside. They'll stay comfortable. The thick nylon-blend, loop-pile carpeting will take years of wear, too.

The standard 250-cu.-in. engine and 3-speed transmission are rugged units designed for dependable operation.

Now, LeMans comes pretty well equipped. But that doesn't mean you can't add more. The list of available gear is very complete.

For example. You can turn LeMans into Pontiac's legendary GTO. Just by ordering the GTO package. You get a scooped hood, blacked-out grille, firm suspension, wide tires and a lot of performance.

1973 LeMans. It's nice to know that a car with so much going for it is so affordable. Because we have a way with cars.

Cloth and Morrokide interior. Shown in green—also available in blue and beige.

LeMans 2-Door Colonnade Hardtop with available GTO package in Ascot Silver.
