

## 1976 SAFARI WAGONS

Full-sized. Mid-sized. Or small.  
Pontiac's got your wagon.

# GRAND SAFARI CATALINA SAFARI

Pontiac's full-sized wagons.

How do you give a full-sized wagon some excitement?

Pontiac does it with styling.

The kind of styling you'll find throughout this year's new top-of-the-line Grand Safari.

Here's a wagon that can take on expensive luxury sedans when it comes to comfort.

With rich, hand-fitted seats. Custom cushion steering wheel. Stylish instrument panel accented with a simulated rosewood applique. And plush, cut-pile carpeting — not just in the passenger area — but also on lower door panels and in the cargo compartment.

Here's a wagon that faces its available third seat forward to give every-one first-class accommodation.

And what an accommodating way to handle cargo. The disappearing Glide-away tailgate lets you load, even in the tightest parking spaces.

There's a huge 105.7 cubic feet of cargo space. Plenty of room for a den's worth of 4' x 8' wall panels. Plus an under-floor storage compartment for your secret stash.

Grand Safari Wagon.

Great performance is another part of Pontiac's style. And this year's Grand Safari has a 495 V-8, Turbo Hydraulic. Power steering. Power front disc brakes. All standard.

Combined with Pontiac's Radial Tuned Suspension, the result is one of the smoothest, most enjoyable rides Pontiac has ever offered in a wagon.

We could go on for pages about Grand Safari's new exterior style. But to summarize: It helps turn a hard-working day wagon into an elegant night coach with the blink of a tail lamp.

Catalina Safari shows another side of Pontiac's way with wagons.

The value side.

You get Grand Safari's huge cargo hold, Glide-away tailgate and hidden storage at a lower price.

You get that same great performance, too. Including High Energy Electronic ignition and catalytic converter which requires unleaded fuel.

Same rooey comfort. Same Pontiac prestige.

New Catalina Safari.

New Grand Safari.

They're both full-sized wagons with Pontiac's kind of excitement.

A. Sleek interiors come standard on Grand Safari. Like this rich, all-weather full-width seat with castor armrest. Shown in mahogany — also available in buckskin and blue.

B. Catalina Safari Wagon.

C. Catalina Safari's standard all-weather full-width seats are designed to keep a lot more than just concerns. Shown in buckskin — also available in blue and mahogany.

D. Available Cruise Control is great for highway travel. And it can contribute to efficient highway operation.

E. Loading space? If Grand Safari gave you any more, you'd have to join the truckers' union.

## GRAND LE MANS SAFARI LE MANS SAFARI

Pontiac's mid-sized station wagons.

Don't let their rich, good looks fool you.

Both of Pontiac's new mid-sized Safaris are rugged, dependable wagons.

It's just that they look so luxurious. Like our top-of-the-line Grand LeMans Safari. With its elegant contours. Stylish new grille with formal rectangular headlamps. Available simulated woodgrain side panels and body-colored Rally II wheels.

So comfortable looking, too. With a wraparound instrument panel that surrounds the driver with information and convenience. Rich, cut-pile carpet throughout. Added acoustical insulation for quietness.

It's easy to see why you might think Grand LeMans Safari is best suited for the country club set.

Grand LeMans Safari Wagon.

But the fact is, this is one tough wagon.

A wagon that can handle bumpy back roads with ease. With a strong perimeter frame. Computer-selected springs. And Pontiac's Famous Radial Tuned Suspension that includes steel-beelbed radial tires, special shocks and stabilizer bar.

A wagon that can take on hefty cargo loads, too. With a generous 85.1 cubic feet of usable space. And an easy-lift tailgate.

To help you move those loads, there's a responsive 400 V-8 Turbo Hydra-matic. Power steering. Power front disc brakes. And if you really need it, a 655 V-8 is available.

Our LeMans Safari Wagon is just as rugged and every bit as capable.

Every bit as spacious, too, with an available rear-facing third seat that lets you carry up to eight adults comfortably.

Yet LeMans Safari is our lowest priced mid-sized wagon. So you're not only getting a beautiful, hard working vehicle. You're getting a beautiful value.

The mid-sized Grand LeMans Safari and LeMans Safari wagons. As plush as they come. As Pontiac as they go.

- A. You better sit down for this. Grand LeMans Safari's available 60/40 all-Merckside motorcycle seats. Shown in buck skin—also available in blue and red/trim.
- B. No, it's not an Italian sports car interior. It's the all-Merckside bucket seats available on Grand LeMans Safari, shown in blue—also available in buckskin and red/trim.
- C. LeMans Safari Wagon.
- D. Grand LeMans Safari's new wraparound instrument panel.
- E. Open up what Pontiac's mid-sized wagons make it easy with this simple lift-up tailgate.

## ASTRE SAFARI

Pontiac's subcompact station wagons.

A wagon small enough (97-inch wheelbase) to breeze through tough city traffic. And take advantage of little spaces in crowded parking lots.

A wagon big enough to carry a young family in comfort. Or turn into a versatile 46.6 cubic foot cargo carrier with the flip of a back seat.

A wagon stylish enough—with its sporty Pontiac lines—to dress up any driveway.

And a wagon efficient enough to save you money for more important things...like a vacation.

If ever a subcompact station wagon was designed with growing families in mind, it's this one...the '76 Pontiac Astre Safari.

Take a look at Astre's easy-care cloth and Morrokide seats. Well organized instrument panel with new speedometer graduated in kilometers as well as miles per hour. Resilient nylon-blend carpet.

Astre Safari Wagon.

Look at the way Astre Safari is engineered. The 140-cu-in. 4-cyl. overhead cam engine is both efficient and responsive. And there's a standard 3-speed floor shift (4-speed in Calif.).

There's even an exciting new available 5-speed transmission that's fully synchronized.

It's a package young budget-minded families will really appreciate.

Of course, not every family's alike. And it could be you're looking for a little hettler performance in your wagon.

Check out our new Astre GT Safari. This special edition wagon offers a 140 overhead cam 4-cyl. 2-bbl. Four on the floor. BR7B-15 steel-belted radial tires. Front and rear stabilizer bars. Rally wheels with trim rings. Rally gauge cluster, including clock and tachometer. Sport mirrors. And more. Pretty moving stuff.

There's also a special Rally RTS Handling Package available when you order steel-belted radial tires.

Astre Safari. It's the little Pontiac wagon designed in a family way. See it soon.

A. Spoil your family a little by ordering these super supple all-Morrokide seats. Shown in white—also available in black, buckskin, freethorn and taupe.

B. 46.6 cubic feet. One of many big surprises in this exciting little package.

C. Astre GT Safari wagon.

D. Once you try our available new 5-speed transmission, you'll be impressed.

E. No growing pains for your family—not in these standard cloth and Morrokide seats. Shown in black—also available in buckskin and freethorn.
