Oldsmobile Quality.  Feel it.

“...to build one carriage  
in as nearly perfect a manner  
as possible...”

R.E. Olds, 1897

Every Oldsmobile that comes down the assembly line has our reputation riding on it. And we know it.

Car after car. Day after day. Since 1897. Over 27 million Oldsmobiles in all.

As America's oldest car company, our reputation means everything to us. We have a longstanding tradition to uphold.

So when you buy a new 1987 Oldsmobile, you can expect to find outstanding levels of quality—quality you know is built in, quality you can see and feel.

LET'S START FROM SCRATCH, AS WE FOLLOW AN  
OLDSMOBILE DOWN THE LINE.

First, technology goes to work, as robotic welders apply

thousands of precisely located welds to each body to ensure structural integrity. Strong and tough.

A computerized dimensional inspection system then verifies critical points for absolute accuracy, while robotic scanners measure dimensional exactness to 2/1,000 inch. Lasers and optic scanners inspect all body openings. Quality that's precise and accurate.

The body itself, of tough zincrometal and galvanized steel, is further protected by rust-resistant primers and hot melt wax clips. Quality that's lasting and durable.

Then, automatic sprayers apply a tough multicoat/high-gloss enamel finish to many models. It is so lustrous and has such a deep sheen, the quality comes shining through.

The interior takes on form and substance with the addition of the full-foam seats and elegant velour fabrics. Meticulous. Seam after seam, stitch after stitch. That's quality you can see.

Oldsmobile's impressive ride and handling also take shape with the addition of one of several driver-tailored suspension systems. Like the smooth, standard boulevard ride of the Level I system. The firm ride and handling of the Level II system. And the true sports touring suspension of Level III (FE3). That's quality you can feel.

Finally, a rugged, dependable engine. For 1987, some engines have been re-engineered to deliver smoother

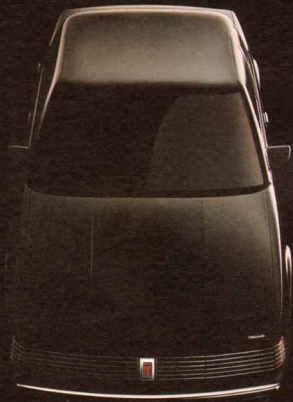

operation and more responsive performance. You'll feel the quality every time you turn the key.

TAKE THE WHEEL,  
AND GET THE QUALITY FEEL.

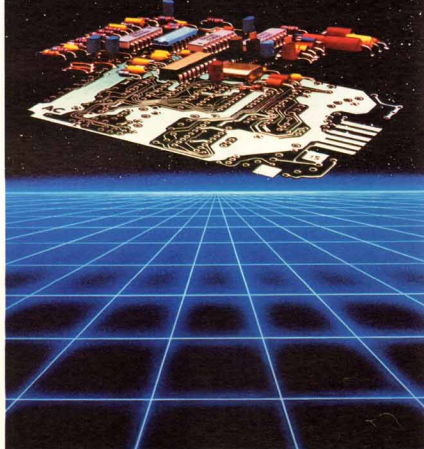

Choose the Oldsmobile model that is just right for you and your driving needs. That won't be a problem because Oldsmobile is offering 31 stylish models for 1987.

Then ask your Olds dealer for the keys, and take it for a test drive. In just a few blocks, you'll discover all the quality we've been describing here, quality you can see and feel and enjoy every mile you drive.

Nothing's as easy as it looks...

*and in this case, the preliminary efforts alone required skill, labor and knowledge of the sport. Then, once airborne, it became apparent that those who best understood navigation were destined to experience the most exciting of rides. It would seem that extraordinary forms of transportation have great similarities.*

**Oldsmobile Quality.  Feel it.**

Extra smart. Extra fun. Extraordinary. That's Calais.

Here, front-wheel drive, rack-and-pinion steering, MacPherson strut suspension, and a 5-speed transmission combine with the spirit of a 2.5-liter electronically

fuel-injected engine for exciting performance. There's even an available 3.0-liter multiport fuel-injected V6 and 3-speed automatic for an extra quick study of any road. Meanwhile, inside, Calais is a lesson in five-passenger comfort, with fully reclining front bucket seats. Plush, door-

to-door carpeting. And soft velour fabrics, plus available leather trim in the seating areas. There's also a long list of "extras," both standard and optional, that make Calais as much luxury as it is logic. Automatic

front safety belts (not shown) become standard equipment in January, 1987.

Still, beyond all that handling and elegance, there's also the "Calais fun." Fun that really begins with non-stop good looks. Computer-precise construction, contemporary design and a multicoat/

high-gloss enamel paint finish are part of it. But so are the details, like bold composite headlamps, dual patch mirrors and body side moldings that protect and enhance. What's more, there's a Calais GT that adds 14" wheels and low-ride aero-

rocker moldings for looks that are hotter than hot.

Let's face it, this is more than just ordinary. This is something extra. It's Calais. \*See your dealer for details.

*She was taught by renowned instructors...  
while attending the finest schools. And now, after practicing her art,  
she's developed a critical eye for line and color and execution. Not to mention  
a clear understanding of form and function. And she believes in making use  
of all that she's learned. Just look at the car she drives.*

## CALAIS SUPREME COUPE

# CALAIS

*Seems like just yesterday...  
it was only the two of you. Plenty of free time. And not much  
responsibility. Now you're a trio of third-year law school, sales quotas and  
little league. But you vowed that no matter how "grown-up" things got,  
you'd never let go of the fun. And even your car keeps the promise.*

*Her money is hard-earned...  
and so she invests some of it in herself. She figures  
a little extra effort means extra results. The kind of results she enjoys.  
It works here. And it works at the office, too. Some results you can  
see in the mirror. Some you can drive to the beach.*

*It wasn't LaScala...  
or even the Polo Lounge. But it was the best of nights.  
Dining on four-star friendship and talking 'til dawn. It was  
quality time spent. And they do all they can to make times like those  
last, like taking "the long way home" in a quality car.*

of Grand Prix and Indy. Instead, he opted for the time trials  
of Wall Street's pace. But he's never lost his fascination for handling and  
performance. So, whenever he can, this is where he goes. And in  
order to make his dreams more reality, this is what he drives.*

## CALAIS FEATURES

Calais Coupe and Sedan interiors feature Summit knit velour seating in five colors.

Standard Calais GT seating is Strata weave, Morocco grain leather in seating areas is also available (leather shown).

Front bucket seats are fully reclining, with lateral and lumbar supports. Front passenger seat slides forward (coupes only) for ease of entry and exit from the rear compartment.

Calais Supreme Coupe and Sedan bucket seats offer available Sierra grain leather in seating areas.

Calais instrument panel with deluxe steering wheel, trip odometer and easy-to-reach controls. Rallye gage cluster available, standard on Calais GT.

Standard header panel has courtesy lamp and integral storage compartment.

Function and good looks are featured with the available rear deck lid luggage carrier.

New automatic front safety belts will be standard on Calais and Calais Supreme, January 1987. See your dealer for details.

Convenient door pocket for map storage on Supreme models.

Sporty 5-speed manual transmission, standard.

Available leather-wrapped steering wheel.

Oldsmobile's Level III (FE3) Touring Car Ride and Handling Suspension is available on Calais and Calais Supreme. It includes special suspension components, aluminum-styled 14" wheels and steel-belted radial-ply, blackwall tires.

Available Electronic Instrument Cluster features multiple color crystal (LCD) display that's easy to read, day or night. Includes center-mounted digital speed readout, analog bar graph tachometer, animated warning lights and a selectable multifunction gage for voltmeter, oil pressure and temperature.

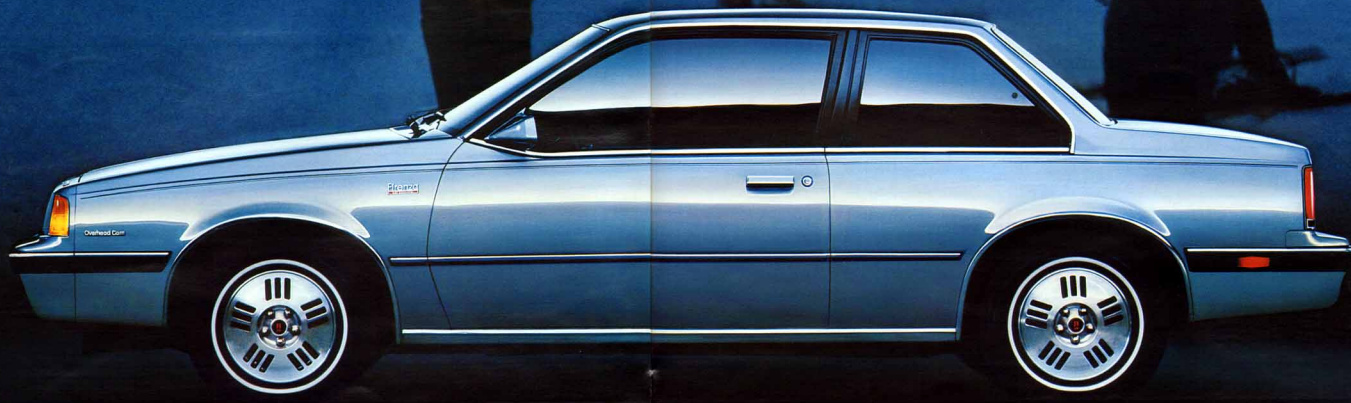

Available auto trip calculator performs like any calculator—plus features displays of time, date, trip distance, elapsed time, estimated travel time, E.T.A., mileage since fill-up and current fuel economy. Includes English/metric conversion switch.

*That last day at Aspen...  
was unforgettable. The runs were so fast. Everything sparkled.  
And there were times when you felt like you were flying. Then, as the  
sun went down on the winter festival, you saw there was beauty in the sport. Now  
you remember the feelings so clearly, whenever you turn the key.*

Rehearse, rehearse...

*until you get it right. And then, rehearse some more. Because getting it right just isn't enough. Getting it great is what counts. Putting it together may get you applause. But making it "sing" can make you a star. It's true in the theatre, and it's true in this car. To feel it, just take your seat... and let the performance begin.*

## FIRENZA LX SEDAN

This could be the start of a beautiful friendship...because once you meet Firenza, you're likely to stick with Olds forever.

Inside, soft, tailored velour fabrics. Contoured, reclining bucket seats. And every driver convenience make for a very comfortable beginning.

What's more, Firenza is fun to be with. A 2.0-liter I4 engine with electronic fuel injection and 4-speed manual transmission are standard. There's a 5-speed manual or an automatic transmission available. And the option of an overhead cam I4 or 2.8-liter multipoint fuel-injected V6, depend-

ing on which model you choose. You also get MacPherson strut front and semi-independent rear suspension, power rack-and-pinion steering and power front disc brakes.

Firenza. You'll be in good company at a very affordable price. And you'll start a friendship that's bound to last.

# FIRENZA

*From the shore, he was sure he could do it...  
but that first time out was as much a lesson in  
humility as it was in sailing. Now he's more than mastered  
the sport. He's built up his strength. His agility. And a responsive  
technique for riding the wind. Not too unlike his car.*

Of course, since then, they've also made it in The Workplace. Now there's the  
new-found freedom to make this The Car. Ooh, aah, independence.*

CRUISER

T.G.I.F., and they're off...

leaving the work week and the city behind. Cruising the lakeside sands, they can take out all their frustrations and take in hours of fun. Of course, that means taking along a car full of gear. But T.G.I.F.—thank goodness it's Firenza.

## FIRENZA CRUISER

With the rear seat down, there's 63.4 cubic feet of carpeted cargo area.

An available luggage rack adds extra carrying capacity.

Hidden under the floor, there's still more room for storage.

### Convenience, capacity and style.

Yes, this Cruiser has built-in convenience—like a one-piece tailgate that lifts up and out of the way for easy loading.

Sure, there's plenty of room—for five

### passengers or 63.4 cubic feet of cargo.

And of course, there's more than enough power to move you—with electronic fuel injection and front-wheel drive.

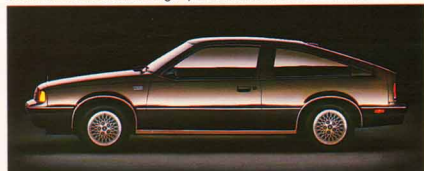

But Firenza Cruiser is meant for more than just hard work. It's got comfort and

good looks, too. From contoured reclining seats inside to a sportier-than-your-average-wagon look on the outside, the Firenza is built in the Cruiser tradition... first it's an Olds, then it's a wagon.

# CALIS/FIRENZA FEATURES

Firenza Hatchback features a sleek, sporty look and a full 36.2 cubic feet of cargo space with the rear seat folded.

Sporty rear window louvers are available on Hatchback and GT.

Available Tilt/Wheel Steering offers six positions.

GM

Protection Plan

Why drive without it?

GM's Protection Plan offers service protection in addition to that provided by GM's New Vehicle Limited Warranty. Ask your dealer for details. Coverage available only in U.S.A. and Canada.

**Important—A word about this catalog:** We have tried to make this catalog as comprehensive and factual as possible, and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this Olds catalog is available at extra cost. Your dealer has details, before ordering, you should be brought up-to-date. The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Olds dealer for complete information.

**A word about engines:** Oldsmobiles are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide. See your dealer for details. Please refer to the "Fuel Economy Estimate Sheet" provided to your dealer for engine source and EPA mileage estimates.

Let's get it together... buckle up.

**A word about assembly components and optional equipment in these Oldsmobile products:** The Oldsmobiles described in this catalog are assembled at facilities operated by General Motors or GM of Canada. These vehicles incorporate thousands of different components produced by car groups or various component divisions of General Motors and by various suppliers worldwide to GM. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Oldsmobile products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Oldsmobile products and will provide the quality performance associated with the Oldsmobile name. With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if the option you ordered is unavailable. We suggest that you verify that your car includes the optional equipment you ordered, or if there are changes, that they are acceptable to you.

**Standard occupant protection features:** Manual lap/shoulder safety belts for driver and right front passenger, (driver side includes visual and audible warning system) are standard. • Automatic safety belt system for driver and right front passenger is standard on Calais January 1987. • Manual lap safety belts at each rear seat position (and center front, when applicable). • Energy-absorbing steering column. • Energy-absorbing instrument panel. • Energy-absorbing front seat back. • Laminated safety windshield glass and tempered safety side and rear window glass. • Safety interlocking door latches. • Passenger-guest inside door lock handles. • Inertia-locking, folding front seat backs on two-door models. • Safety armrests. • Adjustable head restraints, driver and right front passenger.

**Standard accident avoidance features:** Side marker lights and reflectors. • Parking lamps that illuminate with headlamps. • Four-way hazard warning flasher. • Back-up lights. • Center high-mounted stop lamp. • Directional signal control with lane change feature. • Windshield defroster, washer and dual speed wipers. • Inside rearview mirror with vinyl-bonded glass. • Outside left rearview mirror. • Brake system with dual master cylinder and warning light. • Starter safety switch. • Dual action hood latch system. • Low-glare finish on instrument panel top, inside windshield moldings, wiper arms/blades, metallic steering wheel surfaces. • Illuminated heater and defroster controls. • Tires with built-in tread-wear indicators.

**Standard theft deterrence features:** Audible reminder for ignition key removal. • Theft-deterrent steering column lock. • Visible vehicle identification number.

**A word about updated service information:** Oldsmobile regularly sends its dealers useful service bulletins about Oldsmobile products. Oldsmobile monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.
