

1992 BUICK

# WHY SHOULD I CONSIDER A NEW BUICK?

A good many features separate Buick

from a lot of shiny metal blurring the highways,  
but two words go a long way toward answering  
your question . . . Buick Quality.

It is in the design. It lives in the engineering.  
It is found in the seamless flow of power, the  
seating material and the road feel. It is evident  
in the clarity of information from gage to eye, the  
comfortable proximity of controls and the  
rich detail throughout.

BUICK QUALITY  
IS DEEPSET AND LASTING;  
IT IS THE VERY ESSENCE AND  
SOUL OF BUICK.

The re-engineering of Buick over the

last four years started with a quality mandate and  
a blank sheet of paper. Goals were not only  
achieved, but exceeded.

Buick Quality is deepset and lasting; it is the  
very essence and soul of Buick.

It is why, if you are looking at a Buick, you  
are looking at the best that Buick has to offer.

For all these reasons, and more, we invite

you to consider a new Buick.

## PARK AVENUE ULTRA

Ultra: It means superiority.

Twenty-eight teams of designers and engineers made sure the word lost nothing in the translation when applied to this luxurious Buick. Park Avenue Ultra features as standard the more powerful, supercharged 3800 V-6 engine. And there's no mistaking the muscular grace of Park Avenue Ultra as it drives past the imports.

The 1992 Buick Park Avenue Ultra:  
American know-how at its best.

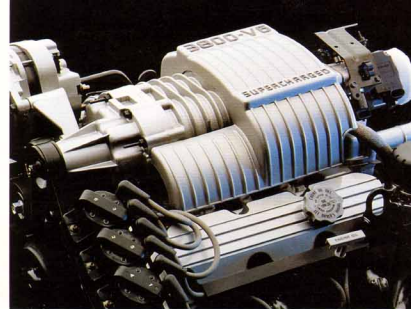

---

## PARK AVENUE ULTRA

Extraordinarily well-built, Park Avenue Ultra's one-piece body sides and solid construction add to the overall feeling of solidity.

The wraparound instrument panel continues into the door panels. Controls are clearly marked and nicely weighted. Gages provide an easy read of critical information.

Dual automatic ComforTemp climate control allows driver and right front-seat passenger to adjust their individual desired temperature setting. A pleasing veneer of simulated woodgrain joins luxuries like a leather-wrapped steering wheel and a premium sound system. It all adds up to Ultra luxurious. (SS)

▲ 205-horsepower, computer-controlled supercharged 3800 V-6 is torque axis mounted for a quiet ride. The broad torque band gives you great performance and effortless cruising.

▲ Comforting extras like dual swing-down lighted vanity mirrors are neatly integrated into the rear headliner.

◀ The smooth boulevard ride is enhanced by contoured leather in the seating areas.

## PARK AVENUE

The muscular elegance of Park Avenue's rounded body evades the wind with a low 0.32 drag coefficient. Its looks are refined and smooth, and so is the transfer of V-6 power to the road. You will also enjoy the smooth comfort that 4-wheel independent DynaRide® suspension provides.

The design philosophy behind this 1992 Park Avenue included a close look at 400 features of competitive luxury cars, with the goal of achieving "equal or better" engineering on all counts.

Count on Buick Quality in Park Avenue.

▲ The instrument panel offers you optional backlit analog gauges, well-placed switches and a steering wheel containing an air bag.

◀ Available dual automatic Comfortemp climate control has touch controls in the instrument panel and front passenger door.

◀ The advanced 3800 V-6 is combined with the electronically controlled 4-speed automatic transmission with overdrive for enjoyable driving.

## PARK AVENUE

The luxurious driving environment includes plush, supportive, 6-way adjustable driver's seat, easy-to-read gauges and convenient controls.

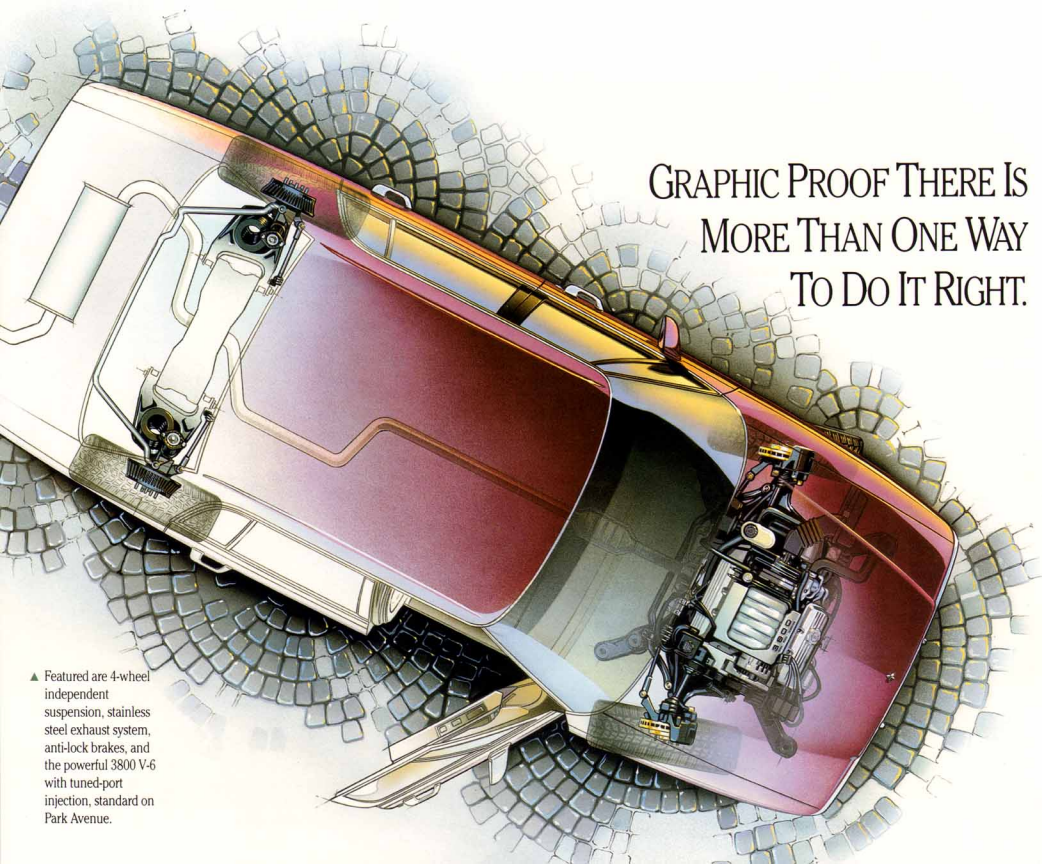

Innovative technology blends 3.8 litres of V-6 power with the electronically controlled 4-speed automatic transmission with overdrive to transfer power to pavement smoothly, quietly.

Interior luxury, control and elegance are all qualities that add up to Buick Quality in Park Avenue. Ⓢ

▶ Park Avenue interior in the available Sierra grain Ultra Soft leather and doeskin vinyl.

## GRAPHIC PROOF THERE IS MORE THAN ONE WAY TO DO IT RIGHT.

▲ Featured are 4-wheel independent suspension, stainless steel exhaust system, anti-lock brakes, and the powerful 3800 V-6 with tuned-port injection, standard on Park Avenue.

### PARK AVENUE ULTRA & PARK AVENUE

Park Avenue Ultra and Park Avenue share some important fine points. The electronically controlled 4-speed automatic transmission with overdrive features precise shifting for a seamless flow of power.

The torque axis engine mounting allows mounts to be tuned for vibration isolation and smooth road feel. The 4-wheel independent DynaRide suspension utilizes coil springs, struts and control arms all around, with anti-roll bars front and rear and an automatic load-leveling system. A Gran Touring Package is also available for aggressive handling.

The powerful 3800 V-6 with tuned-port

injection is standard on Park Avenue. The Park Avenue Ultra features, as standard, the new, more powerful supercharged 3800 V-6.

Both cars exhibit powerful reasons for ownership: Buick Quality. 

▼ Available new traction control system helps reduce wheel spin on slippery road surfaces.

▲ Driver-side air bag provides additional protection in event of a frontal impact, when used with safety belts.

▲ Included with Gran Touring Package, these alloy wheels add an aggressive look to the 16-inch Eagle GA touring all-season blackwalls.

## RIVIERA

The sleekly styled 1992 Riviera accelerates confidently with a 3800 V-6 tuned-port-injected engine. An electronically controlled 4-speed automatic transmission with overdrive smoothly paves the way.

Enjoyable handling is courtesy of the 4-wheel independent suspension with DynaRide—or available Gran Touring suspension. With either suspension, you have the luxury of automatic level control.

1992 Riviera: a beautiful reason to take the long way home.

## RESPONSIVE. REFINED. REMARKABLE. RIVIERA.

The 1992 Buick Riviera is far more than a head-turner. Security features like the PASS-Key® theft-deterrent system and optional remote keyless entry increase your confidence

level. So does the anti-lock braking system.

◀ Standard 4-wheel disc anti-lock braking system brings you to a confident halt on virtually any surface.

◀ Standard PASS-Key® theft-deterrent and optional keyless entry systems give you an extra measure of security and peace of mind.  
▶ A padded Landau top or aluminum wheels can be ordered.

Your enjoyment is boosted by the smooth shifting of the 4-speed electronically controlled automatic transmission. You're surrounded by 2-sided rust-resistant steel panels that are galvanized inside and out with zinc.

The 3800 V-6 provides the power you need for passing, or enjoying an all-day, effortless cruise.

1992 Riviera: a remarkable classic in the Buick Quality tradition.

## RIVIERA

Just turn the key and you are comfortably in command of a lot more than the 3800 V-6. Your driver's environment includes 6-way power seat, automatic climate control and power recliner, six Concert Sound speakers driven by a premium ETR® AM-FM stereo with seek and scan, and cassette. There is even a retained power feature that keeps the sound system, windows, wipers and optional sunroof operational for 10 minutes after the key is turned off, or until you open the door. 

► Sheer luxury inside the Riviera includes available Ultra Soft leather in seating areas.

▲ Digital and analog instrumentation provides important information quickly and clearly.

▲ Select the option of a compact disc player with graphic equalizer. The incredible Delco/Bose Gold Series Music System is also available.

## REGAL SEDAN

The 1992 Buick Regal is everything the competition hoped it wouldn't be. In fact, at its introduction last year, *Car and Driver* magazine hailed it as "Low, sleek and athletic . . . one of the best behaved American cars, ever." A few reasons, besides Regal Sedan's outstanding looks, are its standard 3.1-litre V-6, air conditioning, 4-wheel independent suspension, and a complete listing of selected standard and optional equipment.

Regal: built to take on all competition.

► Regal Limited Sedan, shown.

## BUILDING A STYLISH PERFORMANCE SPORT SEDAN IS NOT FOREIGN TO US.

Make the Regal choice. Gran Sport Sedan offers a 3800 V-6 with tuned-port injection. It

also features a Gran Touring Package, which includes Gran Touring suspension and large-surfaced touring tires on 16-inch aluminum wheels.

Regal Limited and Custom Sedans feature DynaRide 4-wheel independent suspension, which filters out annoying pavement irregularities, and handles curves gracefully.

1992 Buick Regal Sedans: Their elegant lines and responsive performance make an American statement of great import.

- ◀ DynaRide suspension uses the latest technology to provide a smooth ride with outstanding control.
- ▶ Foreground: Regal Gran Sport Sedan with standard 16-inch aluminum wheels. Background: Regal Custom Sedan with optional 15-inch aluminum wheels.

---

## REGAL SEDAN

Regal continues to deliver what its name promises. The interior is truly inviting, with

plush carpeting, rich cloth upholstery, a premium sound system which includes

ETR® AM-FM stereo radio with seek and scan, and a clock.

The instrument panel features user-friendly displays accented with handsome simulated

burled woodgrain. A TILFWHEEL™ adjustable steering column is also standard.

The 1992 Regal Sedan: Buick Quality crafted in a Regal manner. Ⓢ

- ▲ Available, easy-to-use, steering wheel radio controls are just a fingertip away.
- ▶ Driver-side power door locks and available power window controls bring added convenience.

## REGAL COUPE

Behind the distinctive Limited and Custom grille, a 140-horsepower 3.1-litre V-6 with multi-port fuel injection balances power and ease of operation. 4-wheel independent DynaRide suspension (not available on Gran Sport) carries you along smoothly while 4-wheel disc brakes stop you confidently.

Thanks to Regal's low 0.30 drag coefficient, the wind slips by very efficiently. So, whether you choose Custom, Limited or Gran Sport, you're in for a Regal experience.

► Regal Limited Coupe, shown.

## REGAL COUPE

# CHOICES, NOT COMPROMISES.

One choice is the Custom Coupe, shown below, with the lively 3.1-litre V-6 with patented fast-burn combustion chambers. The moving parts are highly polished to reduce friction, fit precisely and promote durability. Electronic sensors accurately meter fuel to fit your engine's specific needs.

▼ Regal Custom Coupe with available 15-inch aluminum wheels.

The Buick Gran Sport (shown on the facing page with the matching body-colored grille)

features a special touring suspension, larger tires on 16-inch aluminum wheels and the 3800 V-6 with tuned-port injection, which offers 170 horsepower.

So, no matter what your choice, Regal Custom or Gran Sport, it will be the right one.

## REGAL COUPE

There is more good news inside. Full instrumentation is standard in Limited and Gran Sport. Also standard are 4-wheel independent

- ▶ Optional dual ComforTemp climate control allows right front-seat passenger to select a temperature different than that of driver.

DynaRide suspension (Gran Touring on Gran Sport), 4-speed automatic transmission with overdrive and lockup torque converter. Plus, standard 4-wheel disc brakes, power steering, air conditioning, and plush reclining seats . . . all just part of a generous list.

The 1992 Regal: good news, indeed.

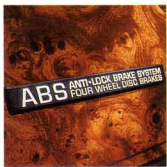

- ◀ Available CD player and Concert Sound speaker system deliver true-to-life performances. Steering wheel radio controls are also available and shown here on Limited.

- ▶ Regal Limited Coupe in standard cloth.

► An anti-lock brake system (ABS) increases steering and braking control on slick surfaces. Standard on Limited and Gran Sport, optional on Custom.

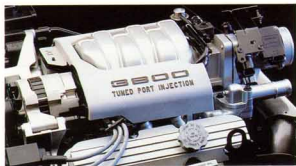

## ORDINARY STANDARDS DO NOT APPLY.

Regal's lengthy list of standard features is impressive, but start adding options like the Four-Seater Package (right), which includes glove-soft leather in the seating areas, and this Buick moves up to another class altogether. The Four-Seater Package includes supple bucket seats with ample thigh bolsters front and rear, rear-seat storage console, front- and rear-seat armrests and cupholders, rear-seat headrests, rear-seat pass-through to trunk, and front-seat

operating console with storage.

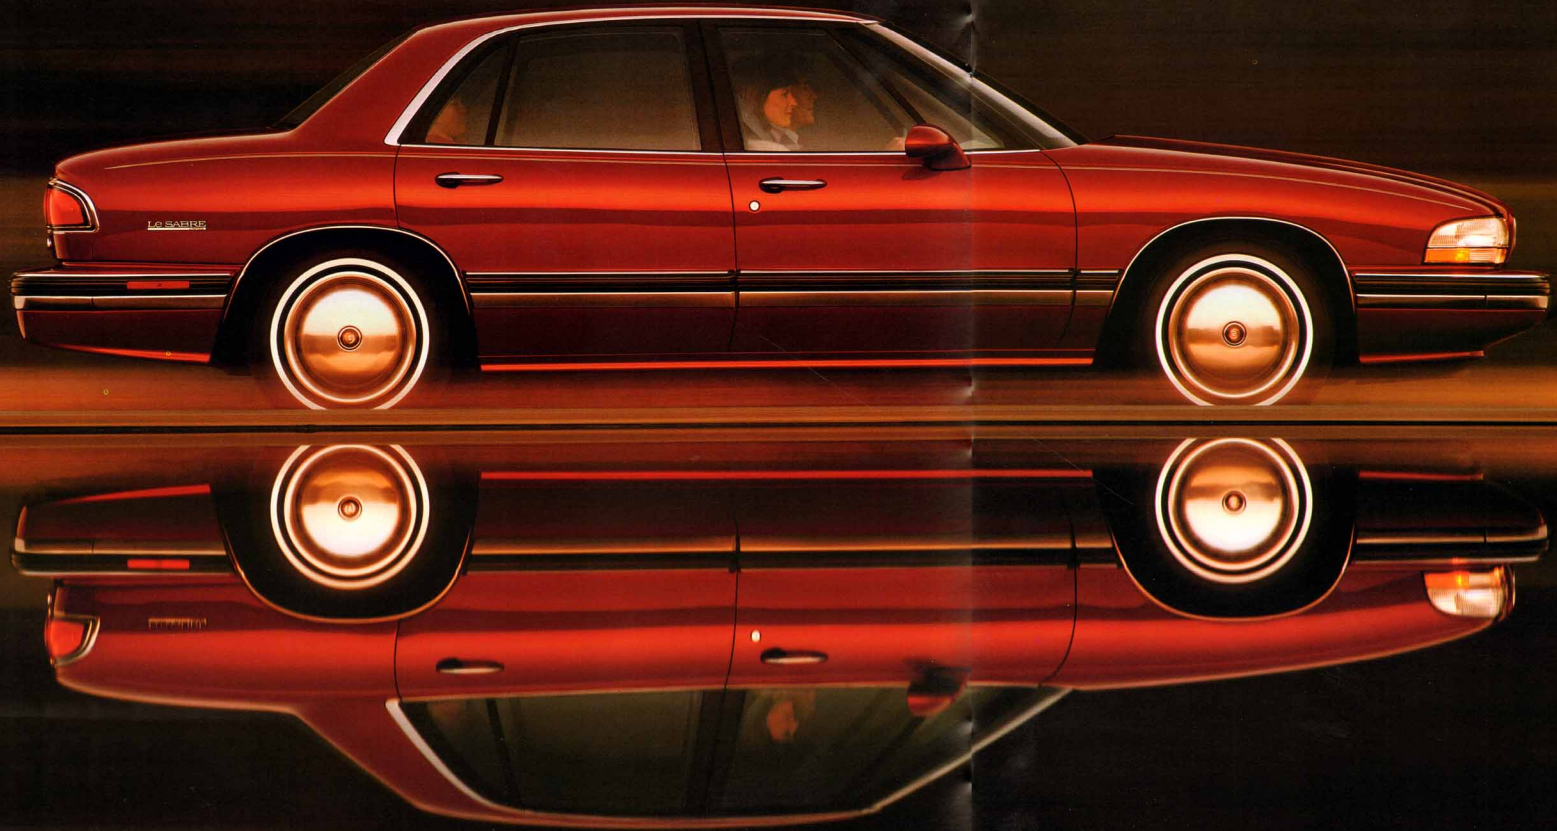

The available electric sliding Astrorof opens up to the great outdoors.

The 1992 Buick Regal Coupes: setting extraordinary standards. 

▲ Standard with Gran Sport, optional for Custom and Limited, the 3800 V-6 boasts 170 hp and 220 lbs-ft of torque.

## LESABRE

This all-new LeSabre, the most advanced ever, comes equipped with a sophisticated 170-horsepower 3800 V-6 engine with tuned-port injection, and an electronically controlled 4-speed automatic transmission. It features seamless precision due to a computerized shift control, and with DynaRide suspension, the miles flow by smoothly.

This full-size 6-passenger LeSabre offers elegant accommodations and a full measure of Buick Quality throughout.

◀ LeSabre Limited Sedan, shown.

## TWO ATTRACTIVE REASONS FOR OWNING A LESABRE: LIMITED AND CUSTOM.

▼ LeSabre features the 3800 V-6 with tuned-port injection and proven electronically controlled 4-speed automatic transmission with overdrive.

In addition to its attractive styling, there are many other reasons why LeSabre has been Buick's best-selling full-size car. Safety is one of them. For example, LeSabre features a brake/transmission interlock that prevents shifting out of Park unless the brake is applied, anti-lock brakes (optional on Custom), standard driver-side air bag, inside steel side-guard door

beams and substantial front brake rotors.

Security is another good reason for LeSabre's popularity. Reassuring examples are standard rear-door security locks, and a standard PASS-Key® theft-deterrent system.

And, it's safe to say LeSabre is loaded with Buick Quality. That is the best reason of all to consider LeSabre—or any other Buick.

► Foreground: LeSabre Limited Sedan with optional aluminum wheels. Background: LeSabre Custom Sedan with optional wire wheelcovers.

---

## LESABRE

From where you sit, it's easy to see why LeSabre is Buick's best seller. Just settle into LeSabre's comfortable seats and look around. The seats feature a front-seat storage armrest (standard on Limited) and adjustable headrests. Even at highway speeds the interior is quiet, thanks in part to testing.

Drive the 1992 LeSabre; we know you'll give it your stamp of approval.

◀ Dual automatic Comfortemp climate control is available on LeSabre Limited.

▶ Inside the Buick LeSabre Limited: full-size comfort with sophistication and luxury for your family.

▲ The wraparound instrument panel on the Limited features an optional backlit analog gauge cluster. Both models include AM-FM stereo radio with seek and scan, digital clock, and four extended-range speakers.

—  
LESABRE

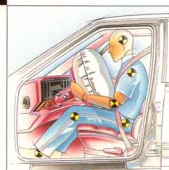

## REAL-WORLD CIRCUMSTANCES DEMAND REAL BUICK QUALITY AND ENGINEERING.

With LeSabre, backroad S-curves are welcome and a snowfall is beautiful rather than intimidating. Front-wheel drive pulls you through with poise, and DynaRide suspension smooths out rough roads. Anti-lock braking, standard on LeSabre Limited, controls brake pressure at each wheel to maximize traction on slippery surfaces and promote confident steering during hard braking. (SS)

▶ LeSabre Limited features standard anti-lock brakes and available traction control.

▲ Available rear-seat ComforTemp provides directionally controlled airflow to the passengers.

▲ Driver-side air bag, when used with safety belts, gives you additional protection in case of a frontal impact—more evidence of Buick's commitment to safety.

▼ LeSabre features a low-liftover trunk rim for easy loading.

## SKYLARK

The expressively styled, all-new Skylark (limited availability until late fall, 1991) takes Buick to a new level of style and flair. Its departure from the ordinary serves to make your overall driving experience extraordinary. Skylark's styling divides the wind with a finely honed drag coefficient for minimal resistance. Power comes from engines that develop up to 160 horsepower.

The 1992 Skylark: bold styling backed up by Buick Quality and engineering.

► Skylark Gran Sport Coupe, shown.

---

SKYLARK

## SUBSTANCE, STYLE AND FUN ALL IN ONE.

Attracting a lot of notice are the newly designed Skylark, and the aggressively styled Skylark Gran Sport, both available in coupe and sedan. A new Quad OHC 2.3-litre engine powers

the Skylark Sedan. Gran Sport is powered by the 3300 V-6 with multi-port fuel injection.

Both all-new Skylarks are nine inches longer, and wind drag is minimal due to touches like low-profile, wraparound halogen headlamps, flush door handles and flush-mounted glass. Also standard on all Skylarks are anti-lock brakes, which minimize wheel lockup on virtually all road surfaces.

The 1992 Skylarks: Have fun in style.

◀ Skylark Gran Sport Coupe features 16-inch wheels and tires.

▶ Foreground: Skylark Sedan with optional 15-inch wheelcovers. Background: Skylark Gran Sport Sedan.

---

## SKYLARK

Safety, comfort, convenience and style share top priority in Skylark's inviting interior. A

▲ A full analog gage cluster includes ETR® AM-FM stereo with seek and scan, cassette, clock and controls — all placed conveniently within your reach.

partial rundown of standard features includes automatic power door locks, rear-seat ventilation ducts, split, folding rear-seat pass-through to trunk, power-assisted rack-and-pinion steering, front-seat header console with storage, assist handles and vanity mirrors.

The 1992 Skylark is built around the most important reason of all . . . you.

◀ The standard split, folding rear seat allows you to carry long, bulky items.

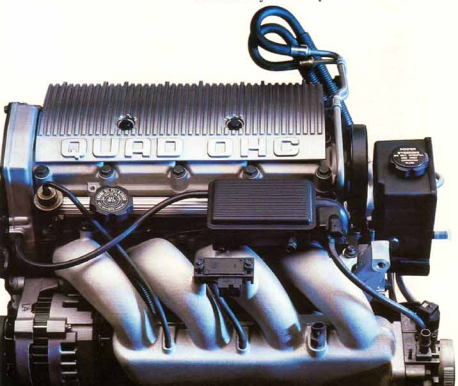

▶ Standard Gran Sport trim with cloth and leather in the seating areas.

## AN ACCELERATED VERSION OF OUR ALL-OUT COMMITMENT TO YOUR SATISFACTION.

A new, fuel-injected, more powerful 2.3-litre Quad OHC engine is the standard power source in both Skylark Coupe and Sedan. It delivers 120

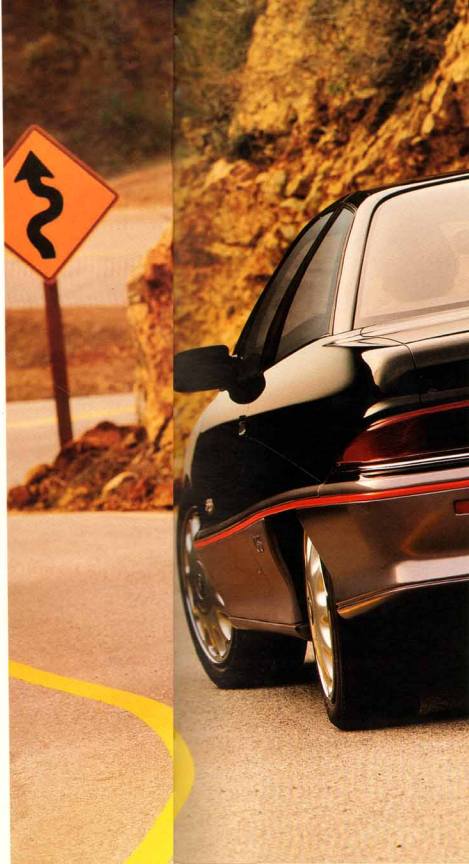

horsepower at 5200 rpm, which is 10 more horsepower, 5 more lbs-ft of torque than before.

The popular engine option, available in Skylark and standard in Gran Sport, is the 3.3-litre 3300 V-6, which develops 160 horsepower and uses multi-port injection as its fuel delivery system.

The Gran Touring suspension, featuring the Adjustable Ride Control system with automatic

▶ Adjustable Ride Control system gives the driver a choice of three settings.

setting, handles all roads with confidence.

Standard in Gran Sport, available in Skylark, the push-button ride control adjuster gives you the choice of Soft, Auto or Sport settings. The Soft setting provides for a smooth, comfortable ride.

The Sport setting provides more aggressive handling characteristics. The Auto setting automatically selects which ride is right for conditions.

Special front and rear shocks, stabilizer bars, fast-ratio power steering, and large-surface Eagle GA touring all-season blackwalls combine at every turn in the road to remind you of Gran Sport's superb handling. Ⓢ

▲ Skylark Coupe and Sedan feature handsome cloth-covered seating.

▼ A roomy 13.2-cu-ft trunk space features a low-liftover rim for easy loading and unloading.

## CENTURY

Buick's longtime 6-passenger favorite rolls on comfortably with the solid, sure handling of DynaRide suspension. Power is readily supplied by a standard fuel-injected 2.5-litre, 110-horsepower engine — or the optional 3300 V-6 with multi-port fuel injection.

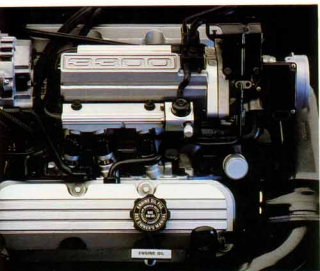

Standard features like air conditioning, power steering, power brakes, automatic transmission, plus much more, are typical of what Century has to offer. Buick Century: loaded with outstanding Buick value.

◀ Century Limited Sedan, shown.

## BUICK. QUALITY BEHIND THE WHEEL.

Century offers a certain relaxing quality behind the wheel, whether it is a sedan, coupe or wagon. For example, Century's standard,

◀ The 3300 V-6 engine, available on Century, provides smooth acceleration.

proven powerplant is a transverse-mounted electronically fuel-injected 2.5-litre engine. Or you can choose the available 3300 V-6 with multi-port fuel injection. Either one grants effortless cruising all day long.

And the following available equipment allows you to personalize your new Century: remote keyless entry system, steering wheel radio controls, CD player, and lighted vanity mirrors for driver and passenger.

1992 Century: It has that certain quality that transforms the ordinary road into something special.

▶ Century Limited Wagon and Custom Coupe.

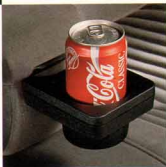

▲ The Century instrument panel is shown with available convenient steering wheel radio controls.

▲ Floodlit controls for available power windows are conveniently located in the driver-side door panel.

## CENTURY

Century is a well-crafted and generously appointed car, another smooth-rolling tribute to Buick value. It includes the standard features you have come to expect, like 6-passenger room, rich cloth seating, air conditioning, power steering, power brakes, Soft-Ray tinted glass, easy-to-read analog gages, plus much, much more.

1992 Century: Settle into Buick Quality. 

► Century Limited Sedan features rich cloth seating.

## ROADMASTER ESTATE WAGON

The concept was ambitious: to combine the versatility of a wagon with the comfort, safety and style of a fine luxury car.

The result is extraordinary. Here is an estate wagon that can carry many times the cargo of the average full-size sedan. Yet the richness of its 8-passenger cabin rivals that of any luxury car.

1992 Roadmaster: exciting new proof that big, spacious, comfortable American cars are still yours to enjoy.

## IT MAY BE THE MOST LUXURIOUS WAGON IN THE WORLD.

Here it is. Now you can experience full-frame security and solid V-8 power in an aerodynamic, premium American motorcar.

Roadmaster's long list of standard features includes air conditioning, power windows with

► Let the light in, but not the glare, with the Roadmaster Estate Wagon's standard tinted Vista roof.

◄ The powerful 5.7-litre engine provides ample torque for excellent acceleration and pulling power.

driver-side "express-down" feature, power steering, reclining split bench front seats and rear-door security latches.

The Vista roof provides a skylight look at the world above you. The 5.7-litre V-8 with throttle-body injection produces 180 horsepower.

1992 Roadmaster Estate Wagon: Now, discover what may be the most luxurious wagon in the world.

---

## ROADMASTER ESTATE WAGON

The Roadmaster Estate Wagon is the ultimate wagon. Comfort and substance are its hallmark. For example, you get room for up to

► Standard locking storage compartment keeps your valuables out of sight.

eight passengers, TILT-WHEEL™ adjustable steering column, and power steering, brakes, windows, door locks and more. Plus, an ETR® AM-FM stereo radio with seek and scan, and extended-range front and rear speakers are all standard.

Roadmaster Estate Wagon: extraordinary.

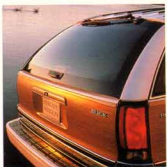

► Available Sierra grain leather and doeskin vinyl seating is practical and handsome.

◄ The analog instrument panel provides quick, easy reading, and includes oil pressure, coolant temperature, voltmeter and trip odometer.

# YOU NEEDN'T LEAVE ANYTHING OUT. BUICK DIDN'T.

As you can see, there is no trip beyond the Estate Wagon's impressive carrying capabilities. Fold down the rear seats (as shown at right) and open up to a full 92.4 cu ft of cargo space. Plus,

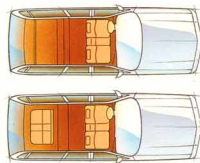

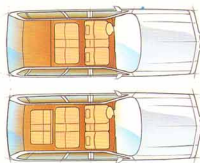

▶ The standard rear wiper/washer helps keep the rear window clean in inclement weather.

the tailgate opens two ways for easy loading and unloading. Bringing up the rear is a standard wiper/washer—and a convenient rear window defogger option.

Did we leave anything behind? Not likely—look in the Buyer's Guide on page 79; it is all there in the 1992 Estate Wagon. 

▶ Roadmaster Estate Wagon, shown with standard aluminum wheels.

## ROADMASTER SEDAN

The all-new Roadmaster Sedan displays a new level of dignity and style.

The classic name in premium Buicks is an unmistakably full-frame, rear-wheel-drive road sedan that offers a powerful 180-horsepower, 5.7-litre fuel-injected V-8 engine. For many drivers it is still a favorite way to put a lot of power on the pavement.

Roadmaster Sedan: 215.8 inches of Buick style and stateliness is yours to command.

## LUXURY ON A GRAND SCALE.

▼ Roadmaster's 5.7-litre V-8 provides smooth, proven power for this reborn American classic.

The all-new 1992 Roadmaster Sedans embody luxury on a grand scale. They are powered by 5.7 litres of V-8 fuel-injected sophistication that develops 180 horsepower. Smooth, mannerly DynaRide suspension cushions the ride, and standard features like 4-speed automatic transmission with overdrive, variable-effort steering (Limited) and unconfining interior room add dimension to Buick's heritage of quality and luxury.

► Foreground:  
Roadmaster  
Limited Sedan.  
Background:  
Roadmaster with  
available Landau  
vinyl top.

## ROADMASTER SEDAN

Buick know-how has taken Roadmaster's premium values and blended them with proven automotive technology. Standard variable-effort

steering on the Limited makes parking and low-speed maneuvers easy. Both models feature anti-lock brakes, analog instrument panel with a

tachometer, comfortable cloth-covered split bench seats, power windows with driver-side "express-down" feature, driver-side air bag, air conditioning, cruise control

and TILF-WHEEL™ adjustable steering column.

The 1992 Roadmaster Sedan: a glorious all-new American automobile.

► Roadmaster Limited in available Ultra Soft leather.

- ▲ The analog instrument panel provides complete information quickly for oil, coolant temperature, volts and a trip odometer.
- The front-seat storage armrest features dual cup holders. Standard on Limited Sedan.

# EXTRA MEASURES OF BUICK QUALITY.

The new Roadmaster Sedans are measures of quality and convenience: a powerful engine up front, a large volume of roomy comfort in the middle, and a big 21 cubic feet of trunk space.

Passengers get more than 115.2 cubic feet to move around in. Legroom is 42.2 inches and headroom, a roomy 39.2 inches, in front.

How do you measure safety? The driver-side

air bag is standard, and so is the anti-lock braking system.

The 1992 Roadmaster Sedan: extra measures of value, extra measures of Buick Quality. 

▶ Driver-side air bag provides additional protection in event of a frontal impact, when used with safety belts.

# BUICK BUYER'S GUIDE

When the first handmade Buick was fueled and fired to life almost a century ago, a deep respect for quality was given. Today, that respect for quality continues. You're looking at a catalog filled with Buick automobiles, any one of which will meet your needs in terms of quality, design and engineering.

Options are grouped in special packages for your ordering convenience. Grouping the most popular options helps your Buick dealer provide better value to you. Check with your Buick dealer for all the latest ordering information, and professional help in making your final decisions.

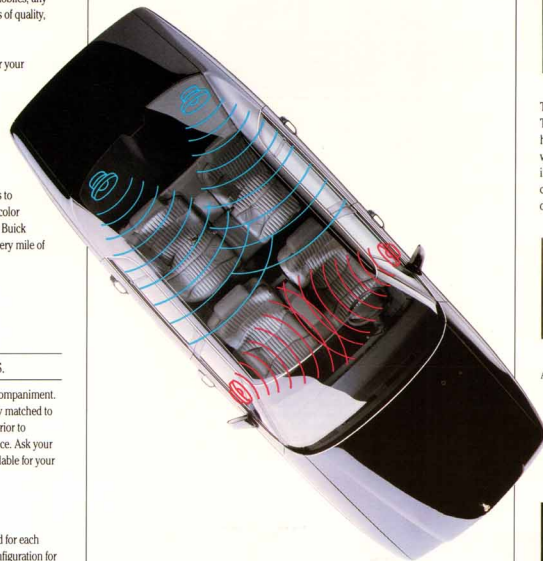

From personal preference of sound systems to suspension choices, from tire selections to color and trim levels, take your premium-quality Buick as far as you wish. Every inch of the car, every mile of your journey, will be Buick Quality.

## BUICK SOUND SYSTEMS.

Fill the hushed Buick interior with rich accompaniment. Buick premium sound systems are carefully matched to the acoustics and configuration of your interior to enhance the overall Buick driving experience. Ask your Buick dealer which sound systems are available for your particular Buick.

**CONCERT SOUND II SPEAKER SYSTEM.** This 6-speaker system is custom engineered for each Buick model, and built into each model configuration for the best possible balance and sound reproduction. High-sensitivity single and double cones are combined with magnet-driven coaxial speakers for the ultimate in resonant clarity.

# SOUND SYSTEMS

**DELCO/BOSE GOLD SERIES MUSIC SYSTEM.** Marvelous sound issues from cross-firing speakers in a "stereo everywhere" effect with this acoustically tailored, actively equalized music system. The equivalent of a 32-band custom equalizer is at work in Buick Park Avenue or Riviera to perfect the spectral and spatial equality and tonal balance.

**THE AVAILABLE COMPACT DISC PLAYER.** The Delco CD Player is to the human ear what high-definition television is to the eye: crisp and clean, with a dynamic range from 20 to 20,000 Hz. Features include a track scanner, advancer, repeater, and compression, which brings loud and soft music into more desirable ranges.

**AVAILABLE STEERING WHEEL CONTROLS.** This convenience feature places an easy-to-use horizontal line of radio controls right in the center of the wheel. Backlit rocker-type switches give you volume, on/off, AM-FM, seek up/down, preset program and tuning—all without removing your hands from the wheel.

# WHAT IS BEHIND BUICK QUALITY? PLENTY OF POWER.

Look behind you; quality pulls a lot of weight with Buick. Depending on the model you choose, the reservoir of smooth, uninterrupted power is deep enough to accommodate up to 5,000 lbs\* of trailering. No wonder Buicks have acquired such a satisfied following.

## SKYLARK

Capacity: 1,000 lbs\*

All Skylarks can easily handle lightweight-class trailer loads when properly equipped. You'll come to appreciate its muscle even more, when hauling a trailer.

## CENTURY AND REGAL

Capacity: 2,000 lbs\*

Muscular grace: The term becomes all the more descriptive when hitched to the trailering capacities of Century and Regal. Either of these Buicks will pull 1,000 to 2,000 lbs, depending on how they are equipped.

## BUYER'S GUIDE

# TRAILER TOWING

## 1992 Buick Trailer Towing Requirements

	Engine	Final Drive Ratio	Maximum Gross Trailer Weight (lbs)*	HD Engine and Transmission Cooling	Automatic Level Control or Air-Lift Shocks
Skylark	3.3L (L67) <sup>(1)</sup>	2.39	1,000 <sup>(1)(2)</sup>	—	—
Century	2.5L (LR8)** 3.3L (L67)	2.84 2.73	1,000 2,000 <sup>(1)</sup>	—	—
Regal	3.1L (LHO) 3.8L (L27)	3.33 3.06	1,000 <sup>(2)</sup> 2,000 <sup>(2)</sup>	—	—
LeSabre	3.8L (L27)	2.84 <sup>(4)</sup> 3.06 <sup>(4)</sup>	1,000 3,000 <sup>(2)</sup>	Required <sup>(4)</sup>	Required
Park Avenue	3.8L (L27)	2.84 <sup>(4)</sup> 3.06 <sup>(4)</sup>	1,000 3,000 <sup>(2)</sup>	—	Standard Standard
Park Avenue Ultra	3.8L (L67)	2.97	1,000 2,000 <sup>(2)</sup>	—	Standard Standard
Roadmaster Sedan	5.7L (L05)	3.08 <sup>(4)</sup>	5,000 <sup>(3)</sup>	Recommended <sup>(4)</sup>	Recommended <sup>(4)</sup>
Roadmaster Estate Wagon	5.7L (L05)	3.23 <sup>(4)</sup>	5,000 <sup>(3)</sup>	Recommended <sup>(4)</sup>	Recommended <sup>(4)</sup>

\*Trailer tongue load should be 10% of the maximum trailer weight but should not exceed the load rating specified for that vehicle, engine or hitch combination.  
\*\*Not recommended on Century Wagon.  
(1) Not recommended for trailer towing on long grades in unusually high temperatures.  
(2) Requires Class II frame-mounted trailer hitch.  
(3) Trailer towing in mountainous, high-temperature areas requires the installation of the Durham-Bush Auxiliary Cooler (dealer installed).  
(4) Included in required V92 Trailer Towing Package.  
(5) Requires Class III frame-mounted trailer hitch.  
Note: Riviera model not recommended for trailer towing.

## PARK AVENUE AND LESABRE

Capacity: 3,000 lbs\* (2,000 lbs\* on Ultra)  
How do these 6-passenger sedans haul? Luxuriously, with ease and a great deal of comfort. Standard 3800 V-6 power and automatic load-leveling (optional on LeSabre) coupled with a seamless transmission make a big load seem lighter.

## ROADMASTER

Capacity: 5,000 lbs\*  
This is trailering that takes a load off your mind: You're hauling 5,000 lbs with a 700-lb tongue weight, and instead of wrestling with the load, you're enjoying the smooth flow of the countryside passing by.

## HEAVY-DUTY COOLING AND COMPONENTS

Trailering, especially in hot climates, calls for a heavy-duty cooling system, which includes a radiator with higher cooling capacity for both engine and transmission coolants. Available on Park Avenue and LeSabre, the trailer towing option features powertrain cooling plus suspension and performance enhancements that handle loads up to 3,000 lbs (2,000 lbs on Ultra). Oil coolers are provided, plus heavier-duty suspension for improved highway stability and greater driver comfort.

Increased acceleration demands are met through a high-performance axle ratio. A heavy-duty battery is included to take care of trailer lighting requirements. Roadmaster Estate Wagon and Sedan, when so equipped, can tow 5,000 lbs.

**\*When properly equipped. Includes weight of trailer, cargo, passengers and equipment.**

**All towing recommendations are subject to change. Check with your Buick dealer for the latest information.**

- ▶ Brake/transmission shift interlock (Park Avenue, LeSabre, Roadmaster, Riviera, Skylark)

## Important: A word about this catalog.

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Buick dealer for complete details.

## A word about engines.

Buicks are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

## A word about assembly of Buicks.

Buicks are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Buicks incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buicks with different or differently sourced components than originally scheduled. All such components have been approved for use in Buicks and will provide the quality performance associated with the Buick name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

## A word about updated service information.

Buick regularly sends its dealers useful service bulletins about Buick products. Buick monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

## A word about corrosion protection.

Buicks are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage.

## The GM Protection Plan.

It offers service protection in addition to that provided by GM's new-vehicle limited warranty. Coverage is currently available only in the U.S.A. and Canada for the 1992 model year. See your Buick dealer for details.

## A word about warranty.

The GM 3-year/36,000-mile BUMPER TO BUMPER PLUS WARRANTY covers repairs for any new Buick, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (except tires, which are covered by their manufacturer) will be covered for 3 years or 36,000 miles, whichever comes first. Body sheet metal rust-through from corrosion is covered for 6 years or 100,000 miles, whichever comes first. See your Buick dealer for terms of this limited warranty. Supplemental Inflatable Restraint coverage is 3 years regardless of mileage.

## SMARTLEASE™

Many Buick dealers offer you the opportunity to buy or lease a Buick. Ask about SMARTLEASE™. It may be right for you.

## Buick Roadside Assistance.

It provides owners of 1992 Buicks with access to minor repairs or towing for disabled vehicles. It is reached through a toll-free telephone number and operates 24 hours a day, 365 days a year. Just call 1-800-252-1112. See your Buick dealer for details.
