

1992 BUICK ROADMASTER SEDAN

THE REBIRTH OF A CLASSIC

The new Buick Roadmaster and Roadmaster Limited 6-passenger sedans combine modern technology with everything good from their ancestors. The result is a new level of excellence.

A proven 5.7-litre V-8 engine with electronic fuel injection delivers authoritative power. And

Roadmaster Limited Sedan.

a 4-speed automatic overdrive transmission puts that power into smooth motion. Anti-lock braking is standard, for improved steering control and stopping power in adverse conditions.

Big, spacious, comfortable and solid, Roadmaster continues the tradition of its well-equipped predecessors. For safety, there are front-seat lap and shoulder belts for driver and outboard passenger, plus a Supplemental Inflatable Restraint (air bag) for the driver. A tilt steering column, twin reading lights built into the rearview mirror, cruise control, power windows, power door locks and remote trunk release—all standard—add to the convenience you'll enjoy in Roadmaster Sedan.

Roadmaster's standard anti-lock braking system (ABS) helps maintain steering control and stopping power in adverse road conditions.

Complete information, quickly, is what the Roadmaster's analog instrument panel has to offer. It includes gauges for oil, coolant temperature, volts and a trip odometer.

Roadmaster offers room, luxury and all the modern conveniences. Shown in the Roadmaster Limited trim, is the available Ultra Soft leather in the seating areas with suede accents.

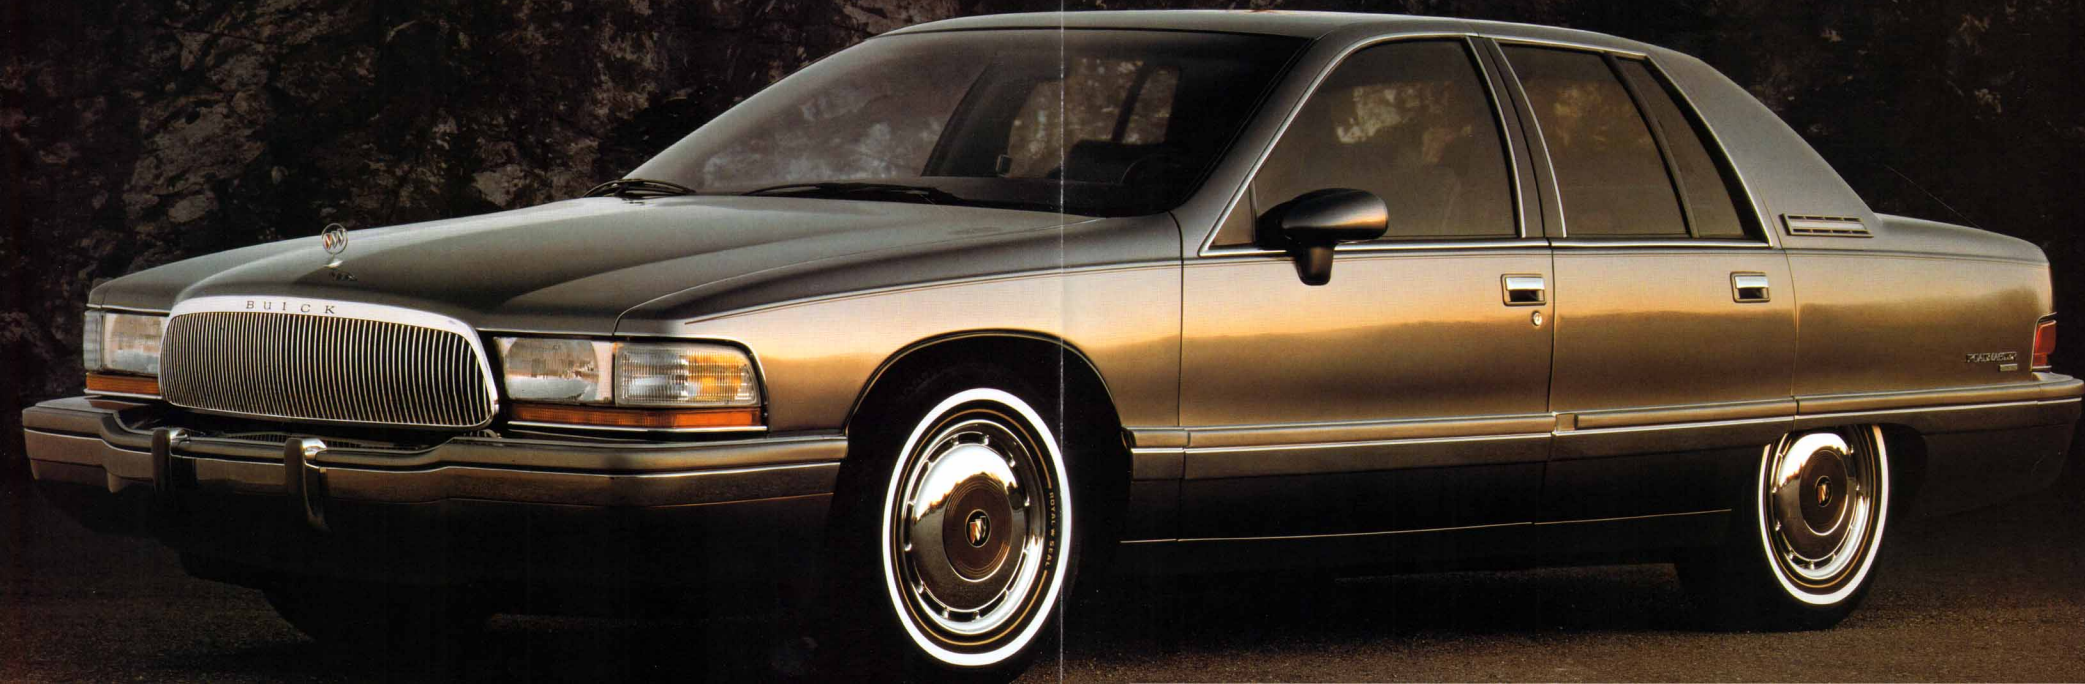

Roadmaster is everything you remember about the classic Buick of the same name, plus the benefits of today's technology. Luxury, comfort, style and pure Buick quality make the Roadmaster a pleasure to own and drive.

IT HAS A COMMAND OF THE HIGHWAY

The beauty of Roadmaster Sedan complements its high technology. Together they have found a way to subdue the highway. This premium American motorcar is what it says it is: master of the road.

ROADMASTER TOWING CAPACITY: 5,000 POUNDS*

The all-new 1992 Roadmaster and Roadmaster Limited sedans can tow up to 5,000 pounds in the comfort of a reborn classic Buick. With rear-wheel drive, solid V-8 power and all the room, ride and luxury of a Roadmaster, trailering is a simple pleasure.

Classifications and load specifications. Towing equipment requirements depend on the loaded weight of the trailer and tongue load—the amount of weight transferred to

the rear of the car by the hitch. Trailers for Roadmaster sedans are classified in the Heavyweight category.

Ask your dealer before you tow. For full information, please contact your Buick dealer. There are certain items or equipment required for maximum towing capacity with some models. In addition, there are laws, trailer-towing tips and safety information you should know.

Buick Trailer Towing Requirements

	Engine	Final Drive Ratio	Maximum Gross Trailer Weight (lbs.) ⁽¹⁾	HD Engine and Transmission Cooling	Automatic Control or Air-Lift Shocks
1992 Roadmaster Sedan	5.7L (L05)	3.08 ₍₂₎	5,000	Recommended ₍₂₎	Recommended ₍₂₎

(1) Trailer tongue load should be 10% of the maximum trailer weight but should not exceed the load rating specified for that vehicle, engine or hitch combination.

(2) Included in required V92 Trailer Towing Package.

For complete information and details, ask your dealer for the Trailer Towing Guide.

*When properly equipped. Includes weight of trailer, cargo, passengers and equipment.

BUICK

The New Symbol For Quality In America.
