

09 HYUNDAI_GENESIS

A MOVEMENT IS BORN

If you could build the perfect sports sedan, what would it be? Would it be breathtakingly powerful? *375 horsepower. 0-60mph in only 5.7 seconds!* Would it be magnificently luxurious? *Lexicon® audiophile sound. Heated and cooled driver's seat.* Would it be incredibly fun to drive? *5-link suspension with amplitude selective damping.* Would it be a technological marvel? *Parking assistance sensors. XM NavTraffic.®* Would it be a paragon of safety? *Electronic Stability Control. Eight airbags. Adaptive Front Lighting System.* Introducing Genesis. *The revolution begins now.*

GENESIS 4.6 IN BLACK NOIR PEARL

0-60 IN 5.7 SECONDS

That happens to be faster than BMW's flagship 750i! It begs the question: which driving machine would you rather drive?

¹AMCI-Certified testing, 2009 Hyundai Genesis 4.6 vs. 2008 BMW 750i.

AN EXTRAORDINARY 375-HP V8

What has greater horsepower than a Lexus GS 460, a BMW 750i, an Audi A8 and an Infiniti M45? The all-aluminum V8 engine in the Hyundai Genesis 4.6. This advanced powerplant propels the Genesis with 375 horsepower and 333 lb.-ft. of torque, thanks to variable valve timing and a variable-flow induction system, for exhilarating performance that's truly world class. What's more, it can safely run on both premium and regular fuel while still delivering a rush of adrenaline when you plant your right foot.

09 GENESIS _ PERFORMANCE

ADVANCED 6-SPEED TRANSMISSIONS

Both V6 and V8 Genesis models feature a 6-speed automatic transmission with SHIFTRONIC® and a lock-up torque converter for improved highway economy. The V6 has an Aisin® unit, while the V8 is mated to a ZF® model – two of the most respected brands in the world.

290-HP 3.8L V6 ENGINE

This all-aluminum engine boasts a robust 290 horsepower and 264 lb.-ft. of torque while incredibly achieving a ULEV emission classification. Its advanced design features Dual Continuously Variable Valve Timing, multi-point fuel injection and a variable intake system to optimize performance at low and high speeds. It also features a silent, maintenance-free timing chain for smooth, quiet power.

REAR-WHEEL DRIVE ARCHITECTURE

This all-new architecture gives Genesis a nearly ideal 52/48 weight distribution, and allowed the engineers to place the front wheels farther forward. That's why the Genesis exhibits exceptionally neutral handling characteristics and linear steering performance.

5-LINK FRONT AND REAR SUSPENSION

The front set-up has upper and lower control arms linked to the wheel that create a virtual kingpin axis to reduce unwanted kickback and improve steering response. The rear features a precisely tuned geometry optimized to deliver incredible ride and handling.

SACHS® ASD

Amplitude Selective Damping (ASD) is one of the most advanced suspension control systems available today.

This system uses a two-tier damper sensor on each wheel, literally “feeling” the road beneath it, reading the stimulations it receives and then using advanced hydraulic engineering within the damper to react in a dynamic and predictable way.

What this means to the Genesis driver is improved ride and driving comfort without sacrificing handling stability or control. ASD also optimizes road-surface contact to help maintain the best connection between the road and the tires for maximum grip.

No wonder Lexus, BMW and Mercedes-Benz use the same technology.

EXCEPTIONAL TORSIONAL RIGIDITY

With a body that offers 12-14% more torsional rigidity than a BMW 5 Series, Mercedes E-Class or a Lexus LS, the Genesis delivers precise steering and handling as it offers a quiet, refined and comfortable ride – two suspension goals that normally conflict.

SLICE THROUGH THE WIND

Thanks to extensive wind-tunnel testing, Genesis sports a spectacularly low drag coefficient of just 0.27, making it amazingly quiet and stable at high speed. We achieved this phenomenal number by using advanced airflow management techniques such as underbody cladding, the same method used by Formula One race cars to reduce drag along the undercarriage.

GENESIS 3.8 IN TITANIUM GRAY METALLIC

DESIGNED TO MOVE YOU

Powerful. Dynamic. Refined. These are just a few of the qualities our designers were striving for – and achieved – when they sculpted the shape of the Genesis. Its bold lines and strong, chiseled forms result in a striking design aesthetic. 18-inch Hyper Silver wheels produce an active sense of movement, even when standing still. A distinctive waterfall grille creates a powerful presence that marks its every arrival. The result is a progressive interpretation of the premium sports sedan that's as timeless as it is elegant.

GENESIS 3.8 IN CASHMERE LEATHER

UNCOMMON COMFORT AND STYLE

The Genesis' interior is without question designed for those who take pleasure in driving. A perfect blend of advanced design and luxurious aesthetics, one is immediately impressed by the high-quality materials on every surface. The supple and inviting premium leather seats. The tailored dash which gracefully arcs beneath the windshield. The handsome woodgrain trim with metal accents. And the abundance of technology that brings it all together for a unique driving experience.

PROXIMITY KEY

With this key comfortably in your pocket, the doors lock and unlock with just the push of a button on the door handle, and the engine sparks to life with push-button start as well. What's more, it's standard on all models. The keys to the kingdom indeed.

REAR CAMERA WITH PARKING SENSORS

Parking becomes a refreshingly effortless experience thanks to Genesis' front and rear parking assistance sensors with a rear camera. A series of sensors in both the front and rear bumpers alerts you to the presence of objects, such as a pole or another car, and sounds an intermittent beep in the cabin that increases in frequency the closer you get to the object. The system's effectiveness is bolstered by the rear-view camera, which allows you to see below eye level, enabling you to back out safely.

ADAPTIVE FRONT LIGHTING SYSTEM

Driving at night on a lonely mountain road, it's difficult to predict what's coming up ahead. A pothole. A deer. A fallen rock. That's when our adaptive front headlights come into play. When maneuvering around a curve, this lighting system can adjust the headlight's beam to match the vehicle's steering angle. The result: superior illumination around turns and improved safety when driving at night, since drivers are alerted to objects or potential road hazards earlier.

INTEGRATED BLUETOOTH® When ordered with the available Technology Package, this system features integrated operation through the navigation and audio systems, as well as voice-activated calling.

COOLED DRIVER SEAT

Driver comfort is always a top priority in the Genesis. The driver's seat is a prime example. It's not only heated for those chilly winter mornings, it also boasts a cooling function to keep you comfortable on hot summer afternoons, or whenever the mercury heads north.

TAKE TOTAL CONTROL

The Multimedia Controller gives you unprecedented command of a wide variety of functions, including audio, navigation and telecommunications through the Driver Information System. You can also customize a myriad of settings to your liking, from instructing the seat and steering wheel to move back upon entry, to deciding whether the door locks “click” when they engage.

GENESIS 4.6 IN TITANIUM GRAY METALLIC

MORE SPACE THAN A BENTLEY ARNAGE

With an impressive total interior volume of 125.3 cubic feet, the Genesis' capacious cabin boasts more room than a Bentley Arnage and an Audi A8, and bests every competitor in its segment in front head room and leg room.

GENESIS 4.6 IN CASHMERE LEATHER

PREMIUM NAVIGATION

The state-of-the-art navigation system features an impressive 8-inch VGA screen, map data and points of interest stored on a 40 GB hard drive. A speech dialog system lets you enter addresses by speaking them and XM NavTraffic® satellite traffic information – available through a complimentary one-year subscription – provides real-time traffic updates right on your screen, to help you avoid delays and get to your destination faster.

HD RADIO™

Built-in HD Radio technology gives you crystal-clear, CD-quality sound from your local radio stations as well as extra local FM channels with more music, news and sports. You'll also enjoy on-screen text such as song titles and artists' names, all without a subscription.

LEXICON® DISCRETE AUDIO

A familiar name amongst audiophiles, the Lexicon 7.1 Discrete audio system in the Genesis features an 11-channel, 528-watt digital amplifier and 17 speakers to create one of the most immersive mobile audio experiences ever available.

LOGIC 7® SURROUND SOUND

Breathe new life into your old music collection. Now you can enjoy stunning surround sound from your conventional stereo CDs, thanks to advanced Lexicon Logic 7 processing, which envelops the cabin in rich, detailed and sonically accurate sound.

XM® SATELLITE RADIO Enjoy 170 digital channels from coast to coast, including commercial-free music, exclusive programming and the biggest names in news, sports and talk.

INPUT JACKS

Two auxiliary input jacks are available for connecting portable music players such as an iPod® to the audio system. There's a stereo mini jack and a USB port; the latter can transmit artist and track data on the VGA display when used with the available accessory cable.

¹See specification section for subscription details. iPod is a registered trademark of Apple, Inc.

GENESIS 4.6 IN PLATINUM METALLIC

STATE-OF-THE-ART SAFETY

Genesis has been engineered with some of the most advanced safety technologies available, all of which come standard. From eight airbags,¹ to an ultra-high-strength steel body, to passive safety systems that help protect you in the event of an accident, to active systems that help you avoid them in the first place, we built Genesis as if lives depended on it. Because they do.

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

22,000 LIVES SAVED

The NHTSA estimates that, thanks to airbags, over 22,000 people who were involved in automobile accidents are living today.

ESC SAVES LIVES

You never know when an emergency situation is around the bend. That's why every Genesis comes equipped with Electronic Stability Control. It monitors such things as wheel speed, steering angle and lateral g-forces. When it senses a skid is imminent, it adjusts brake and throttle inputs to help keep you on your intended path. In fact, it's so effective, the NHTSA estimates that if every car were equipped with ESC, 35% of all single-vehicle accidents could be avoided!

ANTI-LOCK BRAKES WITH EBD

Slippery roads and sudden stops are an unavoidable part of driving. ABS helps you maintain steering control during emergency braking situations. Electronic Brake-force Distribution maximizes the brake pressure at each wheel to further improve braking performance.

TRACTION CONTROL

Wet pavement may have met its match. Genesis' advanced Traction Control System senses unexpected wheelspin during acceleration, then automatically applies the appropriate combination of brakes and throttle to route power to the tire with the most traction, helping you maintain control in treacherous driving conditions.²

ELECTRONIC ACTIVE HEAD RESTRAINTS

Studies have shown that whiplash is one of the most common injuries in a rear-end collision. This system includes sensors at the rear of the vehicle that instantly cause the front head restraints to move forward in a rear impact, reducing the likelihood of a severe neck injury. And because they are electronic, they react faster than mechanical systems, increasing their effectiveness.

HID XENON HEADLIGHTS They're auto-leveling and significantly brighter than conventional lamps for better visibility.

BRAKE ASSIST

Statistics show that drivers frequently don't brake hard enough in emergency situations. Brake Assist senses a panic stop and immediately applies the maximum braking pressure to help you stop faster. Because sometimes a few extra feet can make all the difference.

¹Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. ²The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

GENESIS 4.6 IN TITANIUM GRAY METALLIC

AMERICA'S BEST WARRANTY

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality, so much so that we're willing to stand behind our vehicles long after you've driven off the dealer's lot. Think about our 10-year, 100,000-mile powertrain warranty.¹ Ten years ago, people thought the Internet was a passing fad. That's a pretty long time.

GENESIS 3.8

STANDARD FEATURES INCLUDE:

- 290hp, 3.8-liter DOHC V6 engine with dual CVVT
- Aisin® 6-speed automatic transmission with SHIFTRONIC®
- Chrome-tipped dual exhaust
- Electronic Stability Control
- Traction Control System
- 4-wheel Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist
- Advanced dual front airbags with Occupant Classification System, front and rear side-impact airbags, front and rear side-curtain airbags
- Electronic active front head restraints
- Tire Pressure Monitoring System
- 17-inch Euroflange alloy wheels
- Automatic headlights
- Front fog lights
- Heated power side mirrors with turn signal indicators
- Proximity Key entry and electronic push button start
- Dual front automatic climate control
- Acoustic laminated windshield / front side windows
- AM/FM/CD/MP3 audio system with seven speakers
- XM® Satellite Radio¹
- iPod®/USB and auxiliary input jacks
- Steering-wheel-mounted audio controls
- Leather seating surfaces
- Heated power front seats
- Electroluminescent gauges
- Electrochromic rearview mirror with compass
- HomeLink® integrated transceiver

OPTIONAL GENESIS 3.8 PACKAGES:

- Premium Package (P): Leather-wrapped dash and door trim, power tilt-and-slide sunroof, Lexicon 14-speaker surround sound audio, in-dash 6-disc CD changer, integrated memory system, power tilt-and-telescopic steering wheel, power rear sunshade, rain-sensing windshield wipers, auto-defogging windshield
- Premium Plus Package (PP): Premium Package, 18-inch Hyper Silver Euroflange alloy wheels
- Technology Package (T): Premium Plus Package, Lexicon 7.1 Discrete 17-speaker surround sound audio, in-dash navigation system, in-dash 6-disc CD/DVD changer, multimedia controller, Driver Information System, XM NavTraffic® with 1-year complimentary subscription, HID auto-leveling headlights, Adaptive Front Lighting System, front and rear parking assistance sensors, rear backup warning camera, cooled driver seat

GENESIS 4.6

INCLUDES STANDARD GENESIS 3.8 FEATURES PLUS:

- 375hp, 4.6-liter, DOHC V8 engine with dual CVVT
- ZF® 6-speed automatic transmission with SHIFTRONIC
- Power tilt-and-slide sunroof
- 18-inch Hyper Silver Euroflange alloy wheels
- Ultra-premium leather seating surfaces
- Leather-wrapped dash and door trim
- Lexicon® 14-speaker Surround Sound audio
- In-dash 6-disc CD changer
- Power rear sunshade
- Power tilt-and-telescopic steering wheel
- Integrated Memory System
- Woodgrain-trimmed leather steering wheel
- Electrochromic auto-dimming side mirrors
- Rain-sensing windshield wipers
- Auto-defogging windshield
- Lower bodyside chrome trim
- Illuminated scuff plates

OPTIONAL GENESIS 4.6 PACKAGE:

- Technology Package (T): Lexicon 7.1 Discrete 17-speaker surround sound audio, in-dash navigation system, in-dash 6-disc DVD changer, multimedia controller, Driver Information System, XM NavTraffic with 1-year complimentary subscription, HID auto-leveling headlights, Adaptive Front Lighting System, front and rear parking assistance sensors, rear backup warning camera, cooled driver seat
