

The Eldorado

Custom Cabriolet

The Eldorado
Custom Cabriolet

Even in the special realm of Eldorado, this new limited-edition model stands out. The Eldorado Custom Cabriolet. Clearly, this is a very special personal car.

One look at its uniquely elegant roof styling tells why.

The backroof is crowned with a rich, padded elk grain vinyl covering. And beautifully finished with handcrafted details. There's a custom rolled edge around the back window. A French seam shapes the padded area around the glass expanse. And a unique sheer chrome strap, bordered by vinyl welts, halos the entire backroof section.

With such elegance, what more could you want in the Eldorado Custom Cabriolet?

The electrically operated sunroof. And it's available. With this great feature, you can, simply by activating a control switch on the instrument panel, automatically open a panel in the roof over the front seat. To enjoy the open sky.

The Eldorado Custom Cabriolet. With or without the electrically operated sunroof. Eldorado. More than ever the world's most elegant personal car.
