## 2012 NISSAN TITAN®

**INNOVATION THAT'S TOUGH. INNOVATION FOR ALL.** Nissan's full-size truck is powered by a standard 5.6-liter V8 churning out 317 hp and 385 lb-ft of torque, giving you the brute strength to pull up to 9,500 lbs.<sup>1</sup> of just about anything. But there's more to Titan than power. A lot more. Its available Utili-track® Channel System includes tie-down cleats you can position where you need them most. Its rugged, fully boxed all-steel frame delivers greater load-bearing ability and improved ride quality. Not to mention its Active Brake Limited Slip (ABLS) and available switch-on-demand electronic locking rear differential for more confident traction. Titan is available as a King Cab, with revolutionary Wide Open rear doors that open a full 168°, or Crew Cab.<sup>2</sup> See for yourself why size matters. Ask for a test-drive today.
