

2012 FIT!

# URBAN ACCOMPLICE!

WHETHER IT'S STEERING AROUND DOUBLE-PARKED CARS, SPEEDING UP TO PASS A SLOW-MOVING BUS OR STOPPING FOR AN OBLIVIOUS TOURIST, THE FIT PERFORMS. HEAD OUT TO THE OPEN ROAD AND FIT SPORT'S AVAILABLE 5-SPEED AUTOMATIC TRANSMISSION RESPONDS LIGHTNING-FAST TO THE STEERING WHEEL-MOUNTED PADDLE SHIFTERS. SO THE NEXT TIME YOU NEED TO GET SOMEWHERE PRONTO, REMEMBER: THE FIT IS GO!

## LIVELY 117-HP i-VTEC® ENGINE

Ever wonder how Honda gets so much out of a 4-cylinder? i-VTEC technology delivers more horsepower over a broader range. Fit also keeps its edge with a Drive-by-Wire™ throttle system for smooth acceleration, all while delivering a formidable EPA-estimated 35 mpg<sup>1</sup> on the highway (Fit with AT).

## RACE-INSPIRED PADDLE SHIFTERS

Sharpen your reaction time. The Fit Sport's leather-wrapped steering wheel comes complete with paddle shifters when you opt for the available 5-speed automatic transmission. There's also a quick-shifting 5-speed manual for all you clutch-it-yourself types.

## RIDE-ENHANCING SUSPENSION

Small means nimble thanks to an independent front and torsion-beam rear suspension that's precision-tuned.

## AWESOME 16-INCH ALLOY WHEELS (FIT SPORT)

Looks good. Feels good. These lightweight, machine-polished beauties help give the Fit Sport its agile touch on the asphalt.

# MAXIMUM ACCOMMODATOR!

FRIENDS. FAMILY. STUFF. THEY ALL COME WITH YOU, SO WHY NOT GIVE THEM THEIR SPACE? FIT SEATS FIVE COMFORTABLY WITH MORE THAN 20 CUBIC FEET OF STORAGE IN BACK. AND WITH ITS SECOND-ROW MAGIC SEAT,<sup>®</sup> YOU CAN CREATE MULTIPLE SEATING CONFIGURATIONS TO ACCOMMODATE PRACTICALLY ANY SITUATION.

## TALL MODE

Flip up Fit's second-row Magic Seat cushion and presto—over 4 feet of space from floor to ceiling. (As tempting as it may be to see how many friends you can fit in a Fit, this space is reserved for non-human cargo only.)

## UTILITY MODE

Ditch the delivery truck. With 57 cubic feet of smooth, flat space, you can haul your own stuff. Just fold the Magic Seat down and start packing. A low floor height and huge rear hatch make it easy to load and unload.

Honda reminds you to properly secure items stored in the cargo area.

## LONG MODE

Fold the front passenger seat and right side of the rear seat down. Slide in your favorite surfboard, ladder, rolled-up rug or totem pole. Almost anything up to 7'9" will do. And since the rear seat is a 60/40 split, there's even room for a roadie in back.

## PEOPLE MODE

All seatbacks up. Prepare to seat five. The Fit can shuttle human cargo with the best of them. From commuting to road-tripping, the Fit will be the ride of choice among your crew.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System.<sup>TM/2</sup>

IT  
COMMANDS  
RESPECT. A 5-DOOR WONDER.  
TURN THE KEY AND 1.5 LITERS OF PENT-UP  
ENERGY SPRING INTO ACTION. CHANGE THE SEATING  
AND EVERYDAY CHALLENGES BACK DOWN. THIS IS FIT.  
THE CITY'S GREATEST CHAMPION.

POSSIBILITY IS INFINITY!!!

#### COMFORT IS PERSONAL

Power windows, mirrors and door locks are standard. Supportive seats are a given. Throw in a tilt and telescopic steering column and it's obvious; the Fit is all about adjusting to you.

#### NAVIGATE YOUR OWN PATH

With over 10 million points of interest,\* the Fit Sport's available Honda Satellite-Linked Navigation System<sup>2</sup> keeps you on track even in the thickest of urban jungles. The voice recognition feature allows your hands to stay on the wheel while the audible turn-by-turn directions means your eyes stay on the road.

\*Some roads unverified. Please see your Honda dealer for details.

#### MOBILE COMMUNICATOR

The available navigation system<sup>2</sup> can get you to the restaurant but it's up to you to make the reservation. Piece of cake. Simply call ahead using the Bluetooth<sup>®3</sup> HandsFreeLink<sup>®</sup> system and request your favorite booth.<sup>†</sup>

<sup>†</sup>Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

Fit Sport shown with Black Fabric and available Honda Satellite-Linked Navigation System<sup>2</sup>

**MUSIC METROPOLIS! USB AUDIO INTERFACE<sup>4</sup> + 160-WATT AUDIO SYSTEM**

The Fit's 160-watt audio system has MP3 and Windows Media<sup>®</sup> Audio (WMA)<sup>®</sup> playback capability, Radio Data System (RDS) and CD text display. An auxiliary input jack lets you listen to any portable music player through the Fit's speakers while the USB Audio Interface<sup>4</sup> allows you to plug in an iPod<sup>®</sup>\* or flash drive. This not only keeps the iPod\* fully charged, but it also means you can operate it using the Fit's audio-system controls, including those located on the steering wheel of the Fit Sport.

\*iPod is a registered trademark of Apple, Inc.

**THE FIT IS GO!**

Fit Sport shown in Blue Raspberry Metallic.

Airbags inflated for display purposes.

**VEHICLE STABILITY ASSIST†**

VSA® helps sense oversteer and understeer, and responds by adjusting brake pressure and/or reducing engine power.

**ACE™ BODY STRUCTURE**

The Advanced Compatibility Engineering™ (ACE) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

\*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

†VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

**ABS WITH EBD**

The anti-lock braking system (ABS) is arguably the most effective way to maintain steering control during hard braking. So naturally it's standard. As is Electronic Brake Distribution (EBD), a sensory system that monitors and calculates weight balance, and adjusts brake force accordingly.

**ACTIVE FRONT HEAD RESTRAINTS**

Designed to move up and forward in a rear collision, active front head restraints help reduce the likelihood of neck injuries in certain rear impacts.

**AUTOMATIC TENSIONING SEAT BELTS**

An automatic seat-belt tensioning system helps hold the front-seat occupants securely in a collision. The system is triggered by the same sensors that deploy the airbags.

**FRONT AIRBAGS**

The Fit is equipped with dual-stage, multiple-threshold front airbags (SRS). One or both of these airbags will be deployed only in the event of a sufficient frontal impact. If deployed, these airbags are capable of being inflated at different rates depending on crash severity, seat-belt usage and other factors.\*

**SIDE AIRBAGS WITH OPDS**

The front passenger's side airbag features our Occupant Position Detection System (OPDS) to help prevent the side airbag from deploying if its sensors detect a child or small-statured person in the airbag's path of deployment.\*

**SIDE CURTAIN AIRBAGS**

Help lessen the likelihood of head or neck injuries for outboard occupants in the chance of a sufficient side collision.
