

2014

INTRODUCTION

Precisely tuned to the needs of the driver, each Acura provides comfort and thrill in equal measure. This highly responsive driving experience is born of a philosophy we call Super Handling. It shapes every vehicle we make. And dares us to push further at every turn.

2015

A wide-angle, low-perspective shot of a large, empty, modern building courtyard at night. The building is a long, multi-story structure with a glass and metal facade, illuminated from within, creating a bright glow. The ground is a smooth, dark surface. In the center of the courtyard, the word "DARE" is written in large, glowing neon letters. The letters are white with a blue glow, and they are positioned in the middle ground, creating a strong focal point. The overall atmosphere is futuristic and minimalist.

DARE

TO
TWIST

In a world dominated by mimicry and the status quo, Acura's engineers imagine a different reality. One in which the vehicle is nothing less than an extension of the person, not merely reacting, but anticipating the driver's will. The result: groundbreaking technologies that redefine the state of the art.

LOGIC IN
NEW WAYS

Every innovation in an Acura delivers more than just a function. It inspires a feeling of kinship between driver and automobile. Engineering creates chemistry, sparking excitement, confidence, comfort, even flat-out delight.

THE INTANGIBLE

THE
FUTURE
BELONGS
TO THE

BRAVE

America has always been a nation of innovators. And for decades, it has been home to many of Acura's best minds. The next-generation NSX is coming to life at our Performance Manufacturing Center in Ohio.* We also build vehicles in Indiana and Alabama. Pride and craftsmanship are the American and the Acura way.

*Built with domestic and globally sourced parts.

TREAT THRESHOLDS AS DOORMATS

Innovation is not for the timid. Yet it's at the heart of every Acura. In groundbreaking direct-injection VTEC® engines that dramatically boost performance while lowering emissions and improving fuel efficiency! And beyond the powerplant, to advances like Jewel Eye™ LED headlights and lightweight, crash-absorbing body structures.

The most famous proof of Acura's dedication to innovation, the 1991 NSX stunned the car world. Its long list of signature achievements included the first-ever all-aluminum monocoque body.

DARE TO BE THE
FIRST

A HISTORY OF FIRSTS | Japanese luxury automotive brand | Variable valve timing system (VTEC) | Electric power-assisted steering | Drive-by-Wire (DBW) throttle system | Four-channel ABS system | All-aluminum-bodied production vehicle | Production use of titanium connecting rods | In-dash, satellite-linked navigation system | Import luxury brand to design, engineer, and assemble vehicles in the U.S.* | Dual-stage driver- and passenger-side airbags | XM® Radio as standard equipment² | *Bluetooth*®³ HandsFreeLink® technology as standard equipment | Advanced Compatibility Engineering™ (ACE™) body structure | Three-row luxury CUV | Acoustic glass windshield | Satellite-linked, continuously updated traffic information system⁴ | Super Handling All-Wheel Drive™ (SH-AWD®) torque-vectoring all-wheel-drive system | Brand to have all models receive 5-star NHTSA Crash Safety Ratings in a single year⁵ | Brand to have all models receive Top Safety Pick rating from IIHS in a single year⁶ | In-vehicle, continuously updated weather information system⁴ | Jewel Eye LED headlights | Precision All-Wheel Steer™ (P-AWS™) system | 8-speed DCT (Dual-Clutch Transmission) with torque converter |

A WELL-EXECUTED ESCAPE PLAN FOR EVERY CORNER

SUPER HANDLING ALL-WHEEL DRIVE (SH-AWD)

Acura's revolutionary torque-vectoring SH-AWD system continuously directs engine power to each wheel and actively varies torque side to side between the rear wheels. The result is high-performance cornering and agility unmatched by conventional all-wheel-drive systems.

THE MOST POWERFUL AND TECHNOLOGICALLY ADVANCED VEHICLE WE'VE EVER MADE

The new Sport Hybrid SH-AWD (Super Handling All-Wheel Drive) system in the RLX Sport Hybrid executes the driver's will with uncanny speed and precision. Three powerful electric motors and the VTEC engine combine to deliver the acceleration of a V-8 with the fuel efficiency of a four-cylinder! Superior handling comes from the instant torque vectoring, which continuously directs positive or negative torque independently to each rear wheel to match weight distribution, traction, and road conditions.

3 ELECTRIC MOTORS

3.5 LITER V-6 ENGINE

377 COMBINED HORSE-POWER

377 COMBINED LB-FT TORQUE

30 COMBINED MPG RATING*

POWER BEYOND HORSEPOWER

*28 city/32 highway/30 combined mpg rating for RLX Sport Hybrid!

TEXT-TO-SPEECH

Reads text messages and email aloud.⁷

PANDORA® COMPATIBILITY

Acura Navigation System with 3D View. Real-Time Traffic™ including surface streets.⁹

CONNECT APP

Virtual Dashboard. Vehicle Status. Remote Services.

SIRI® EYES-FREE¹⁰

Siri functionality at the press of a button.

AHA™ COMPATIBILITY

40,000+ stations of news, entertainment, weather, and audiobooks.

24/7 LIVE LINK

Information and Concierge services.¹¹

LOCAL SEARCH

Continuously updates to let you search more than 16 million points of interest.

ACURA SERVICE CONNECT

Maintenance Minder.™ Automated Appointments.™

SAFETY ASSIST

Emergency Assist. Enhanced Roadside Assistance. Automatic Collision Notification. Stolen Vehicle Locator.¹¹

NEXT-GENERATION ACURALINK

AcuraLink® goes beyond conventional infotainment to intelligently connect you to the data and media you want. Its expansive technology keeps you more in touch with what's in the cloud, and the world below it.¹¹

A SMARTER WAY OF CONNECTING WITH YOUR CAR

Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

DIFFERENT BY

D E S I G N

Inside our state-of-the-art wind tunnels, every Acura masters both aerodynamics and aesthetics. As style is refined, performance and efficiency are optimized and optimized again. The 2014 RLX, in fact, returned more than eight hundred times.

HOT-STAMP YOUR BELIEFS IN STEEL

Choosing between strength and lightness shouldn't be a choice. Which is why we reinforce strategic areas of the car's body with ultra-high-strength steel, creating a strong and light foundation. In the MDX and TLX, a single piece of hot-stamped steel rings the driver and front-passenger door areas. The result is a stronger body better able to absorb and redirect energy in a collision.

Acura's Advanced Compatibility Engineering (ACE) body structure is a network of carefully connected structural elements designed to distribute frontal collision energy more evenly, so less force is transferred to the passenger compartment. ACE even helps disperse forces transferred to the other vehicle in the impact. So you won't be the only one happy you're driving an Acura.

OUTTHINK

THE UNTHINKABLE

NAVIGATION SYSTEM WITH 3D VIEW

Information is everywhere. The challenge is getting precisely what you need. The available Acura Navigation System does exactly that. It displays traffic information not just on the freeway but also on surface streets,⁹ while Local Search¹¹ highlights points of interest.

STREET

AT NOTHING

YOU WILL HEAR
EVERYTHING BUT
COMPROMISE

Krell® Industries, premier maker of high-end audio equipment, took on the challenge of delivering concert-quality sound in an automobile. The result is a fourteen-speaker system featuring the same output transistors the company puts in its critically acclaimed amplifiers. For those who prefer to feel like they're alongside the musicians in the recording studio, we offer the amazing ELS® system developed by renowned seven-time Grammy Award®-winning recording engineer Elliot Scheiner.

IN DEFENSE OF

Welcome to meticulously engineered silence. Acura's Active Sound Control cancels out unwanted engine noise by emitting opposing frequencies, while available acoustic glass helps keep outside disturbances at bay. The quest for quiet continues in the all-new TLX, where new acoustic spray foam creates a denser seal in the interior cabin, while the unique alloy wheels of the RLX dramatically reduce road noise.

TRANQUILITY

NEVER DRIVE ALONE

Acura offers a wealth of technologies designed to help keep you informed and alert. From advanced cameras to radar and ultrasonic sensors, each monitors the surroundings and maximizes your ability to make the best decisions possible.

Lane Keeping Assist System (LKAS)

Adaptive Cruise Control (ACC) with low-speed follow

Collision Mitigation Braking System™ (CMBS™)

Blind spot information (BSI) system

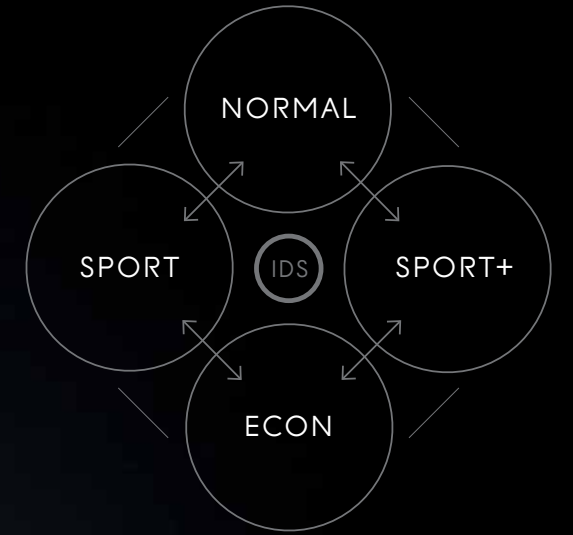

Multi-view rear camera

Our Integrated Dynamics System (IDS) offers unique drive modes depending on the experience you desire. In the TLX, the Econ setting aids fuel efficiency, while Sport mode heightens overall agility, providing sportier steering and acceleration. The all-new Sport+ mode delivers even greater response, featuring rev-matched downshifts and more aggressive shift points.

THE THRILL IS YOURS

INTEGRATED DYNAMICS SYSTEM

INNOVATE IN THE SHADOWS

The places we test our cars aren't on many lists of the Ten Best Vacation Spots. In development, Acuras prove themselves in searing Death Valley, at Germany's challenging Nürburgring, and in subzero Baudette, Minnesota, home to one of the most advanced cold-weather testing facilities on the planet. You can take comfort in knowing that for every Acura, the road to your driveway is one of the hardest journeys imaginable.

PUT THE AUTOMOTIVE WORLD ON NOTICE

The thrilling new Acura TLX was designed to challenge the world's top performance sedans. We began with all the technology we're proudest of: two innovative direct-injection powerplants, two advanced transmissions including the world's first 8-speed DCT (Dual-Clutch Transmission) with a torque converter, Precision All-Wheel Steer, Super Handling All-Wheel Drive, and much more. All in an exterior that's athletic, emotional, and uncompromising.

RDX

2014

THE 2014/15 MODEL LINE

Acura engineers vehicles that anticipate the driver's will. That exhilarate. That anticipate the pleasures of a tranquil cabin or a family's need for space. Here, daring comes in all sizes, silhouettes, and speeds. The pages that follow will reveal precisely how it comes to life in every one of our models.

2015

RLX

The RLX sedan is the ultimate expression of Acura's challenge to the automotive status quo, one of our greatest achievements in luxury, performance, and technology.

453

RLX

P-AWS

RLX

The RLX is marked by uncompromising attention to detail. You'll see it in Acura's unique Precision All-Wheel Steer (P-AWS) system that allows each rear wheel to adjust independently to optimize handling. And in the Acura Jewel Eye LED headlights, whose ten separate LED lamps mimic natural sunlight.

- Precision All-Wheel Steer (P-AWS) system
- Jewel Eye LED headlights
- LED-illuminated taillights
- Forward Collision Warning system
- Lane Departure Warning system
- On Demand Multi-Use Display™ (ODMD™)
- Available leather-trimmed interior with 38.8 inches of rear legroom
- Available Acura Navigation System with 3D View
- Multi-view rear camera with dynamic guidelines

RLX

SPORT HYBRID

Delivering instant acceleration by pairing a direct-injection VTEC engine with three powerful electric motors, the all-wheel-drive RLX Sport Hybrid is the most powerful and technologically advanced vehicle we've ever made.

RLX SPORT HYBRID

The instant you power on the RLX Sport Hybrid, you'll know you're driving a vehicle that defies convention. In place of a center-console-mounted shift lever, the RLX Sport Hybrid offers an electronic gear selector. Its efficient array of buttons lets you choose not only gears but also your driving mode.

- 377-hp Acura three-motor Sport Hybrid SH-AWD system
- Rear Twin-Motor Unit with torque-vectoring control
- Agile Handling Assist
- Motor-Integrated 7-speed Dual-Clutch Transmission
- Electronic gear selector
- Head-Up Display (HUD)
- Available Krell® Premium Audio System
- LED fog lights

TLX

It's the unmistakable rush of instinct taking over, of gripping the moment at nine and three. It's uncompromised design in the name of unrestrained feeling. Introducing the all-new 2015 TLX. It's that kind of thrill.

TLX

The TLX is engineered to deliver an adrenaline rush like no other. Choose the 206-hp, 4-cylinder with an 8-speed Dual-Clutch Transmission and Precision All-Wheel Steer (P-AWS), or the 290-hp V-6 and new 9-speed automatic transmission with a choice of P-AWS or Super Handling All-Wheel Drive.

Jewel Eye LED headlights

Integrated Dynamics System (IDS) with Econ, Normal, Sport, and Sport+

8-speed DCT (Dual-Clutch Transmission) with Sequential SportShift paddle shifters

Available 9-speed automatic

Available Acura Navigation System with 3D View

Precision All-Wheel Steer (P-AWS) system

Available Super Handling All-Wheel Drive (SH-AWD)

Agile Handling Assist

Available Road Departure Mitigation system

Available rear cross traffic alert

ILX

Experience a compact luxury sedan that resets expectations. Substantial and quiet inside. Sleek and flowing outside. And most surprising, loaded with standard features.

ILX

No matter how you look at it, the Acura ILX will surprise. Outside, its low roofline, long hood line, and stylized rear make a bold statement. Inside, paddle shifters and Sport mode setting cater to the driver. On the road, three different engine and transmission combinations deliver responsiveness off the line and sure handling on the curves.

Sequential SportShift paddle shifters

Available close-ratio 6-speed manual transmission

Available xenon High-Intensity Discharge (HID) headlights

Perforated, leather-trimmed sport seats

Keyless Access System with smart entry

Pushbutton ignition

5-inch color information display

SMS text message function⁷

Pandora compatibility⁸

MDX

One of the world's most intelligent sport utility vehicles, the elegant and purposeful MDX is an uncompromising reimagining of what an automobile should be.

MDX

Thoughtfully designed for maximum hospitality, the MDX very comfortably accommodates seven family members, friends, or clients. Front- and second-row passengers are treated to their own climate control, available heated seats and ultrawide entertainment screen. Even so, its surprising acceleration and superior handling make the best seat the driver's.

- Variable Cylinder Management™ (VCM®)
- Available Super Handling All-Wheel Drive (SH-AWD)
- Agile Handling Assist
- Jewel Eye LED headlights
- Seven-passenger seating with one-touch smart slide walk-in third row access
- Integrated Dynamics System (IDS) with Comfort, Normal, and Sport modes
- On Demand Multi-Use Display (ODMD)
- Available Acura Navigation System with 3D View
- Available AcuraLink advanced connectivity¹

RDX

The ingenious RDX pairs the creature comforts of a large SUV with the handling and efficiency of a small SUV. All complemented by an award-winning interior that combines virtual silence with up-to-the-minute technology like a multi-view rear camera and dual-zone, automatic climate control.

RDX

Serenity, quiet, and elegance set the RDX apart. Graceful shapes surround intuitive and easy-to-operate controls. Premium, leather-trimmed seats surround the driver, as the refined powertrain responds instantly to every command.
