

ACURA

WE ARE NOT
A CAR COMPANY

ILX with Technology Plus and A-SPEC® Package shown.

WE ARE A
PERFORMANCE
COMPANY

BREATHING LIFE INTO
STEEL AND ALUMINUM

THIS IS OUR PASSION
AND OUR CRAFT

AN ICON DRIVES AGAIN

THE SUPERCAR.
REDEFINED.

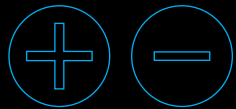

THE ALL-NEW NSX

Twenty-five years ago, the original NSX challenged all conventions of what it means to be a supercar. Today, the all-new NSX carries on that legacy full throttle. Not only does it represent the pinnacle of Acura engineering, but it also embodies the philosophy behind every model we make. Quite simply, that next-generation performance comes from a human-centric approach that puts the driver first.

It's that philosophy that defines every aspect of the NSX. Its 75-degree DOHC twin-turbocharged V-6 engine works in concert with three electric motors and Sport Hybrid Super-Handling All-Wheel Drive™ for instantaneous power on demand. That, along with its lightweight multimaterial construction and all-aluminum suspension, deliver handling that responds to your every will like nothing before.

POWER BEYOND HORSEPOWER

SPORT HYBRID TECHNOLOGY

Traditional hybrids are designed with both eyes on the fuel gauge. Sport Hybrid puts the attention back on the road by bringing exhilaration back into the mix. By mating powerful engines with three electric motors, our next-generation powertrains deliver instantaneous performance for an incomparable driving experience. The technology is available in the upcoming NSX supercar and the RLX Sport Hybrid sedan.

FOUR WHEELS. ONE MISSION.

PRECISION ALL-WHEEL STEER

How does it feel when all four tires work in concert? Enter the world's first Precision All-Wheel Steer™ (P-AWS®) system, included on select front-wheel-drive models. P-AWS allows each rear wheel to adjust its toe angle independently to optimize stability on any road, smoothing turns and simplifying parking. Together with the Agile Handling Assist® dynamic braking system, P-AWS gives you maneuverability and control you can't find anywhere else in our segment.

A WELL-EXECUTED ESCAPE PLAN FOR EVERY CORNER

SUPER HANDLING ALL-WHEEL DRIVE

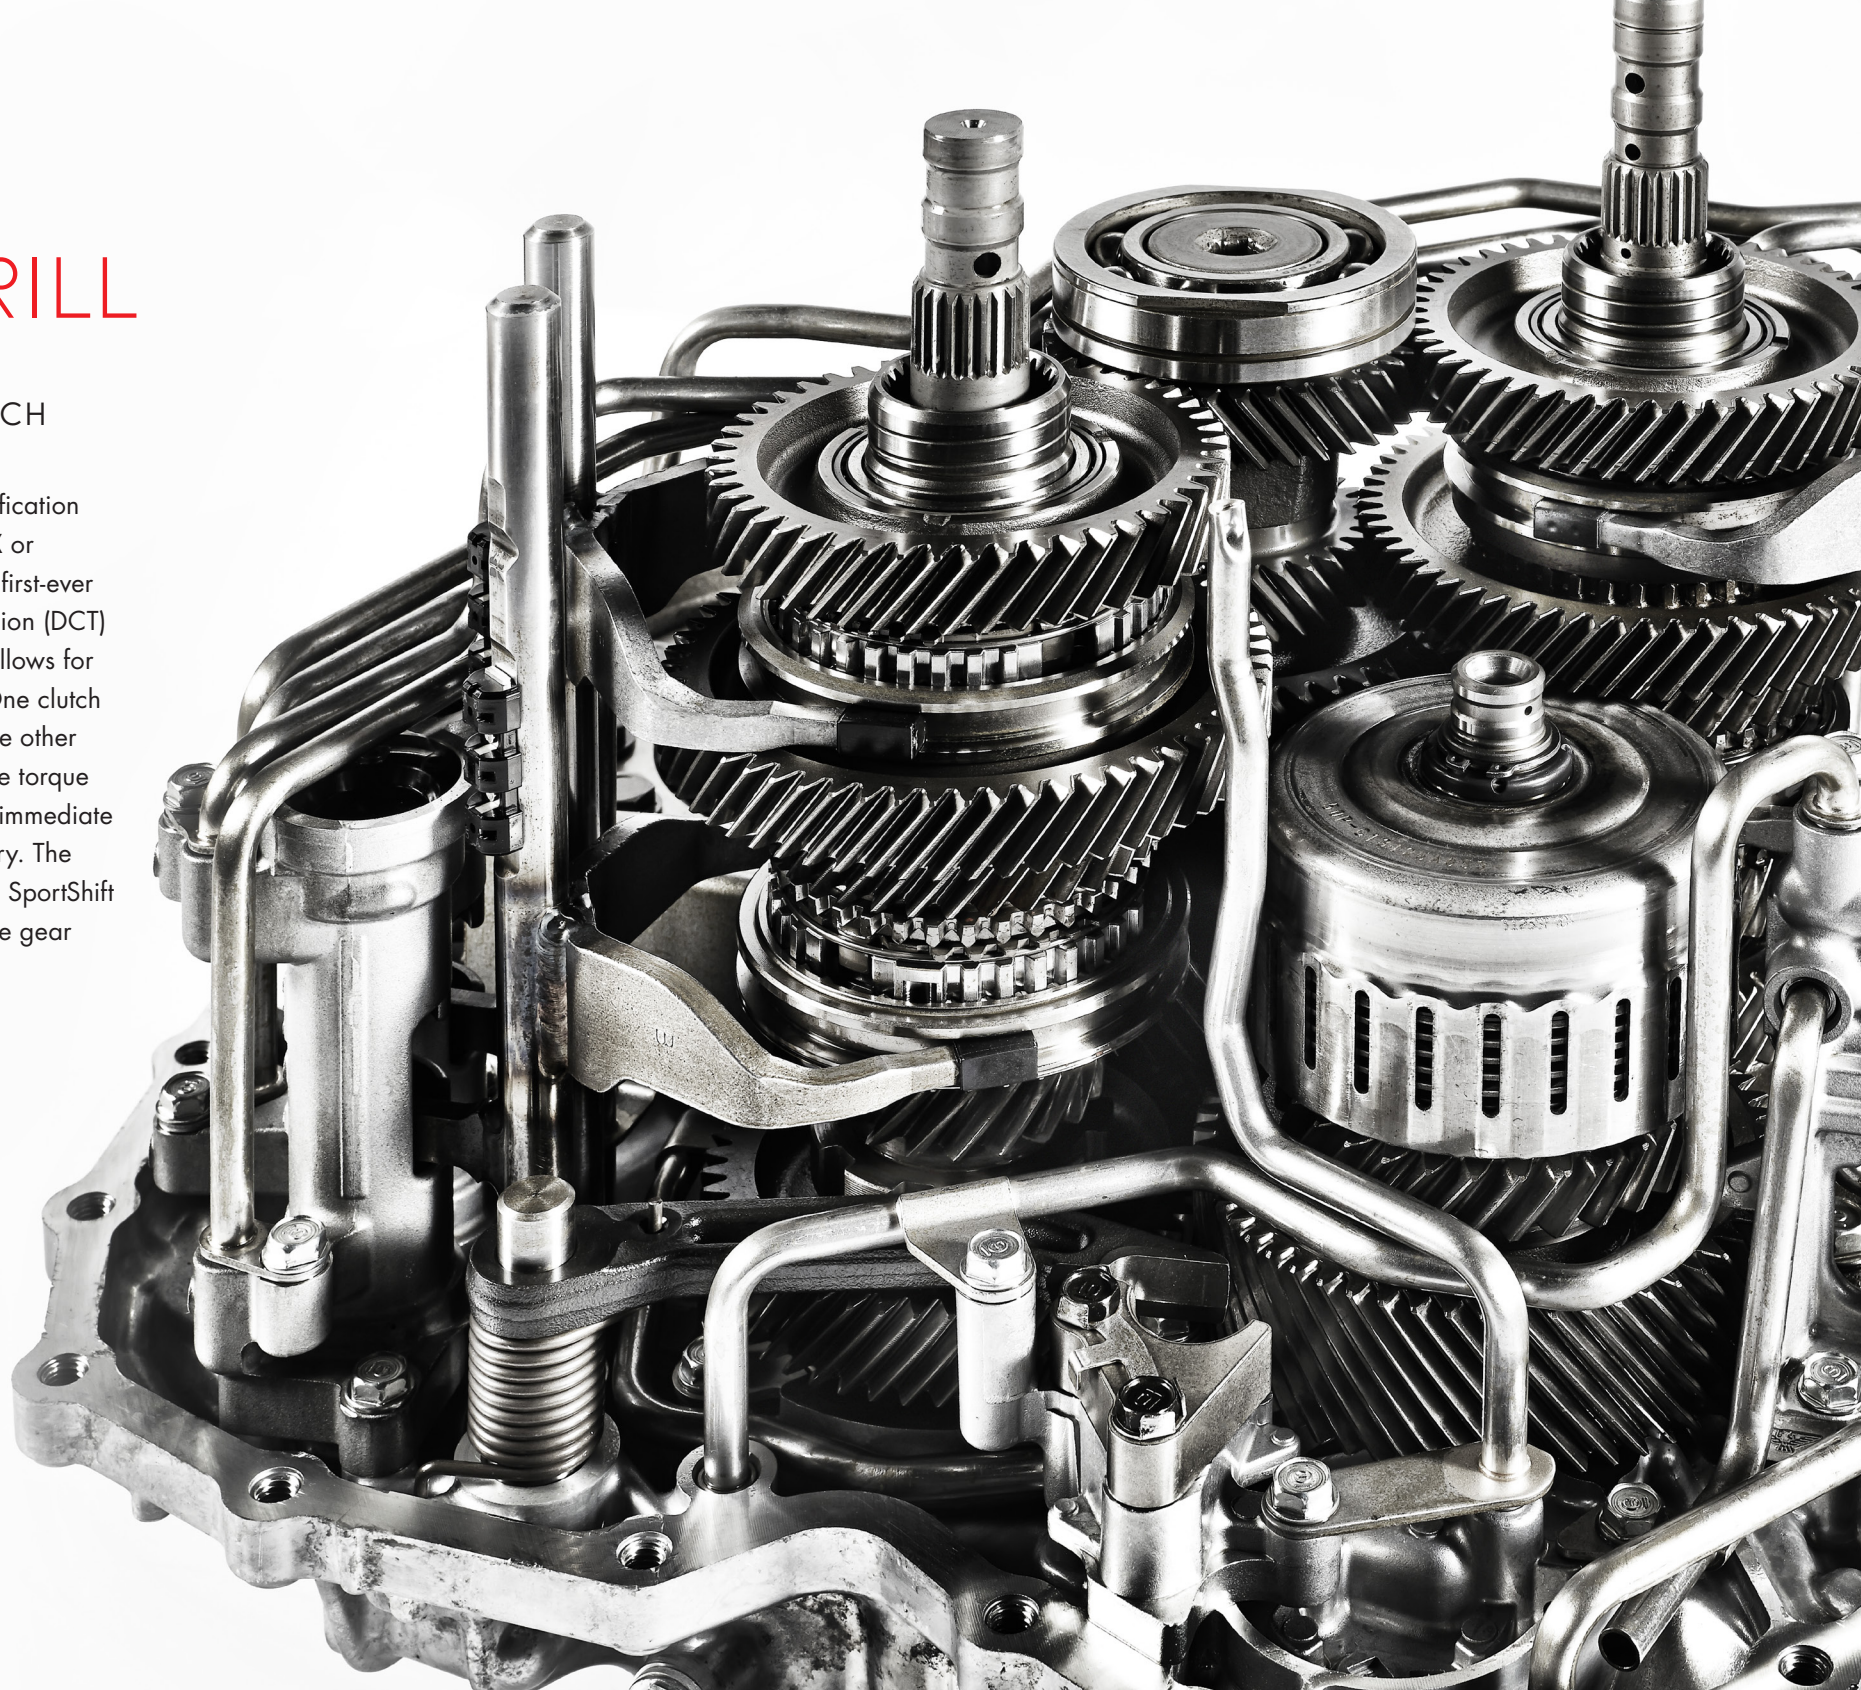

Races are won in the curves. Now curves have met their match. The available torque-vectoring Super Handling All-Wheel Drive (SH-AWD®) system was designed for superior handling under any conditions. By continuously directing engine power to match driver input, weight distribution, available traction, and other conditions, SH-AWD provides seamless power transitions and supreme control.

TLX V-6 SH-AWD® with Technology Package and LED fog lights shown.

TWICE THE THRILL

8-SPEED DUAL-CLUTCH TRANSMISSION

Enter the world of instant gratification when you climb into a new ILX or 4-cylinder TLX. Both boast the first-ever 8-speed Dual-Clutch Transmission (DCT) with a torque converter. This allows for lightning-fast gear changes. One clutch governs odd gear numbers, the other handles even numbers, and the torque converter amplifies torque for immediate response and smoother delivery. The thrill is amplified by Sequential SportShift paddle shifters for manual-style gear changes.

An aerial photograph of a long, straight bridge stretching across a wide body of water. The bridge is the central focus, leading the eye from the bottom right towards the horizon. Overlaid on the image are several concentric white circles that radiate from a point on the bridge, creating a ripple effect. The sky is a clear, pale blue, and the water is a calm, light blue-grey. The overall mood is serene and futuristic.

CAR MEETS CLOUD

ACURALINK

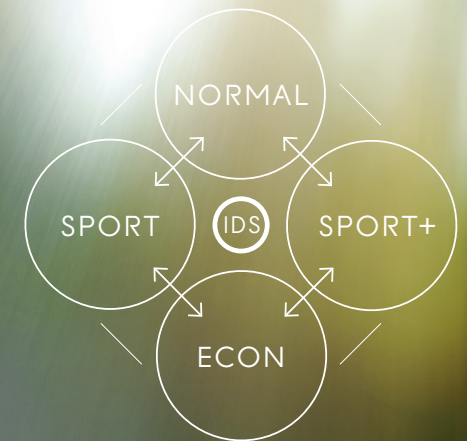

Today it isn't enough to simply be connected. You need an intelligent way to keep it all straight. Beyond conventional navigation, the available AcuraLink[®] system connects you to the data and media you want. It can reroute you based on current traffic conditions,¹ stream your favorite Web content through Aha,[™] and provide you with twenty-four-hour concierge services that help with anything from reading reviews to ordering last-minute concert tickets. Its expansive technology keeps you more in touch with everything in the cloud, and the world beneath it.²

THERE ARE ALWAYS FOUR WAYS HOME

INTEGRATED DYNAMICS SYSTEM

Select Acura models offer different driving modes to match your precise mood. In the TLX, the Econ setting can help save fuel. On more relaxed journeys, Comfort mode offers a gentler steering feel and a quieter cabin. When you crave excitement, Sport mode enhances acceleration and steering agility. And then there's Sport+ mode, which delivers even greater responsiveness and more aggressive shift points with rev-matched downshifts.

INTEGRATED
DYNAMICS SYSTEM

PERFECT SILENCE.

HEARD LOUD AND CLEAR.

PREMIUM AUDIO + SOUNDPROOFING

Immerse yourself in a sanctuary of complete opposites. Sound versus silence. For fidelity that rivals a recording studio, we offer the ELS® system developed by seven-time Grammy Award-winning sound engineer Elliot Scheiner, while Krell® created the fourteen-speaker system in our RLX using the same output transistors found in its renowned home theater amplifiers. Should you require silence, Active Sound Control and available acoustic glass help keep exterior ambience at bay.

WE HAVE YOUR BACK. ALONG WITH YOUR FRONT AND SIDES.

ACURAWATCH

AcuraWatch™ is a network of available technologies that work together to help keep you informed and alert. From cameras to radar and ultrasonic sensors, each feature monitors your surroundings and gathers information. When necessary, available features such as Lane Keeping Assist and the Collision Mitigation Braking System allow the vehicle to assist the driver, guiding you back into your detected lane* or even braking when you get too close to the vehicle ahead! AcuraWatch features are designed to help prevent, avoid, or minimize a collision.

CONTROL (ACC)

TLX V-6 SH-AWD® with Advance Package shown.

*LDW (Lane Departure Warning), LKAS (Lane Keeping Assist System), and Road Departure Mitigation only alert drivers or operate when lane drift is detected without a turn signal in use. LDW, LKAS, and Road Departure Mitigation may not detect all lane markings or lane departures; accuracy will vary based on weather, speed, and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. †Depending on the circumstances, CMBS may not go through all the alert stages before initiating the last stage (of collision mitigation).

A CRASH COURSE IN KINETIC ENERGY

ADVANCED COMPATIBILITY ENGINEERING

Our thinking on safety extends beyond the front and back bumpers. The Advanced Compatibility Engineering™ (ACE™) body structure found in every Acura features a network of elements that help more evenly distribute frontal collision energy. This translates into less force being transferred to the passenger compartment, while also helping disperse less energy to other vehicles upon impact.

A LINEUP THAT REMINDS ENGINEERS
WHY THEY BECAME ENGINEERS

THE 2015/2016 MODEL LINE

Acura engineers vehicles that anticipate the driver's will. That exhilarate. That anticipate the pleasures of a tranquil cabin or a family's need for space. Here, daring comes in all sizes, silhouettes, and speeds. The pages that follow will reveal precisely how it comes to life in every one of our models.

MDX

RDX

RLX

SPORT HYBRID

Delivering instant acceleration by pairing a direct-injection i-VTEC® engine with three powerful electric motors, the all-wheel-drive RLX Sport Hybrid is the most powerful and technologically advanced sedan we've ever made.

RLX SPORT HYBRID

The instant you power on the RLX Sport Hybrid, you'll know you're driving a vehicle that defies convention. In place of a center-console-mounted shift lever, the RLX Sport Hybrid offers an electronic gear selector. Its efficient array of buttons lets you choose not only gears but also your driving mode.

TLX

It's the unmistakable rush of instinct taking over. With available features such as Super Handling All-Wheel Drive, a new 290-hp, direct-injection i-VTEC® V-6 engine, and a 9-speed automatic transmission, the TLX is engineered to performance standards that put the driver first and convention second. It's that kind of thrill.

TLX

The TLX is engineered to deliver an adrenaline rush like no other. Choose the 206-hp 4-cylinder with an 8-speed Dual-Clutch Transmission and Precision All-Wheel Steer (P-AWS), or the 290-hp V-6 and new 9-speed automatic transmission with a choice of P-AWS or Super Handling All-Wheel Drive.

ILX

The new, quick-to-react 2016 Acura ILX. Featuring a 201-hp, 2.4-liter, i-VTEC® engine, an 8-speed Dual-Clutch Transmission with torque converter, and one of the best power-to-weight ratios in its class. Catch it if you can.

ILX

Experience a compact luxury sedan that resets expectations. Substantial and quiet inside. Sleek and flowing outside. The ILX features performance-minded luxuries such as noise-reducing, aluminum-alloy wheels; sport seats; and stainless pedals, along with the convenience of our available On Demand Multi-Use Display.

2.4-liter, 16-valve, DOHC i-VTEC direct-injection engine

MDX

As athletic as it is spacious, the MDX features a full array of experience-enhancing technologies, taking driving to a whole new level. With an i-VTEC® direct-injection V-6 engine, a 9-speed automatic transmission, and seating for seven, the Acura MDX was specifically engineered to take on whatever comes your way.

MDX

Thoughtfully designed for maximum hospitality, the MDX very comfortably accommodates seven family members, friends, or clients. Front- and second-row passengers are treated to their own climate control, available heated seats, and an ultrawide entertainment screen. Even so, its surprising acceleration and superior handling make the best seat the driver's.

Variable Cylinder Management™ (VCM®)

Available Super Handling All-Wheel Drive (SH-AWD)

Agile Handling Assist

Available Acura Navigation System with 3D view

Available AcuraLink advanced connectivity

RDX

The redesigned RDX pairs the creature comforts of a large SUV with the handling and maneuverability of a small SUV. With its aggressive new stance, piercing Jewel Eye® stare, substantial power, and precision handling, the new RDX is engineered to effortlessly handle whatever you throw its way.

RDX

Thanks to its new 3.5-liter iVTEC® engine, the RDX delivers edge-of-your-leather-trimmed-seats performance without sacrificing efficiency. Within its luxurious, award-winning interior, it puts 279 horsepower at your fingertips, literally, through Sequential SportShift paddle shifters. All while managing an impressive 29 mpg on the highway.⁴

RLX

RLX WITH TECHNOLOGY PACKAGE

- 310-hp, 3.5-Liter, 24-Valve, SOHC i-VTEC® Direct-Injection V-6 Engine
- Variable Cylinder Management™ (VCM®)
- 6-Speed Sequential SportShift Automatic Transmission with Paddle Shifters
- Precision All-Wheel Steer™ (P-AWS®) System
- Agile Handling Assist®
- 18-Inch, Aluminum-Alloy, Noise-Reducing Wheels
- Advanced Compatibility Engineering™ (ACE™) Body Structure
- Jewel Eye® LED Headlights
- Perforated, Milano Leather-Trimmed Interior
- Tri-Zone, Automatic Climate Control System with Air Quality Sensor
- Power Moonroof
- On Demand Multi-Use Display™ (ODMD™)
- Acura/ELS Studio® Premium Audio System with 14 Speakers
- Forward Collision Warning (FCW) System
- Collision Mitigation Braking System™ (CMBS™) with Head-Up Warning
- Lane Departure Warning (LDW) System
- Lane Keeping Assist System (LKAS)
- Blind spot information (BSI) System
- Adaptive Cruise Control (ACC) with Low-Speed Follow
- Multi-View Rear Camera with Dynamic Guidelines

RLX SPORT HYBRID SH-AWD

- 377-hp Acura Three-Motor Sport Hybrid System
- Sport Hybrid SH-AWD® (Super Handling All-Wheel Drive™)
- Twin-Motor Unit with Torque-Vectoring Control
- Motor-Integrated 7-Speed DCT (Dual-Clutch Transmission)
- Electronic Gear Selector
- Head-Up Display (HUD)

ADVANCE PACKAGE

- Surround-View Camera System
- Remote Engine Start with Vehicle Feedback
- Krell® Premium Audio System with 14 Speakers
- Rear Door Side Sunshades and Power Rear Sunshade
- Heated Steering Wheel
- Power-Folding Side Mirrors
- Ventilated and Heated Front Seats; Heated Rear Seats

TLX

- 206-hp, 2.4-Liter, 16-Valve, DOHC i-VTEC® Direct-Injection 4-Cylinder Engine
- 8-Speed DCT (Dual-Clutch Transmission) with Sequential SportShift Paddle Shifters
