

'82 CHEVY SUBURBAN

McNEILL MOTORS LIMITED
SUMMERSIDE, P.E.I.

SUPER NEWS: NEW DIESEL POWER FOR THE SUPERWAGON

Announcing a new diesel engine for Chevy Suburban.
For 1982 Chevy Suburban is available with a new 6.2 litre diesel engine. It's an all new engine that has been specifically designed for truck use. It features heavy-duty construction and is rated at 130 SAE net hp. Just the right size for vehicles like the Suburban. You'll like its economy. You'll like its cruising range. You'll like its maintenance savings—no spark plugs, points, coil or condenser to replace. No carburetor to worry about. If, like many automotive experts, you're convinced that diesel power is the power of the future, enjoy it today. In a 1982 Chevy Suburban.

Chevy Suburban and diesel power. A great trailering combination.

Suburban has long had the reputation as a superb trailer-hauler. And now with diesel power it's sure to become even more popular when it comes to trailering. A Series C20 Suburban with new 6.2 Litre diesel and proper equipment can move up to 12,000 lbs. including itself, passengers, cargo and the trailer. Considerably more than you could move with any ordinary wagon. A weight-distributing hitch platform for trailers up to 9,000 lbs. is available, plus a wide range of trailering equipment including optional 25.8 or 33.3 gallon fuel tanks and trailer wiring harness.

The only thing handier than the 2WD Suburban: The 4WD Suburban.

Suburban's rugged 4-wheel-drive system features automatic locking front hubs. When you shift from free-wheeling 2WD to 4WD, the hubs automatically lock up, eliminating the need to get out of the cab to set them. To revert to 2WD, simply stop the vehicle, shift into 2WD, slowly back up about ten feet and go on your way. K10 and K20 models have a lightweight aluminum transfer case with synchronized gears that allow you to shift from 2WD to 4WD at speeds under 40 km/h. The transfer case shift console is floor-mounted with lighted indicator so it's easy to see, day or night.

THE NEW CHEVY-DESIGNED 6.2 LITRE DIESEL.

This optional V8 engine is all-new and all-Chevrolet. Chevrolet started from scratch to design a diesel engine right for today's trucks. Its size is right—6.2 litres. Its power is right. And during times like these, its economy couldn't be more right.

There are two versions of this new diesel offered. One for Suburbans up to 8500 lbs. GVWR and one for Suburbans over that. Both models feature the proven Ricardo Comet V pre-combustion chamber design with its high efficiency and excellent emission control characteristics. A block heater is standard to aid in cold-weather starting. For durability, the new 6.2 litre diesel features five head bolts around each bore, four-bolt main bearing caps, roller hydraulic valve lifters and a forged steel crankshaft.

V8 gasoline engines.

Last year Chevrolet introduced a new 5.0 Litre (305 Cu. In.) V8 with electronic Spark Control and this highly efficient engine has been widely accepted. The engine is designed to run most efficiently on unleaded fuel at maximum spark advance. A sensor unit is used to detect a "knock" condition and the Electronic Spark Control unit automatically retards the spark. It's standard on the Series C10 model.

GM Financial, P.O. Box 4400, Detroit, MI 48240-0400. *Based on 1985 GM Chevrolet Suburban C10 and C1500. ©1985 GM Corp. All rights reserved. GM Corp. 1985 GM Corp. 1985 GM Corp. 1985 GM Corp.

New 4-speed automatic transmission with overdrive.

This new automatic features a fourth gear or overdrive ratio that decreases engine speed by 30% on the highway. Coupled with a higher numerical axle ratio, this improves low and intermediate performance characteristics.

This automatic overdrive transmission is standard on all C10 models and optional on K10 and C-K20 models. A 4-speed manual transmission is standard on C20 and K10-20 models with the 7.4 Litre V8.

A word about engines. Chevrolet trucks are equipped with GM-built engines produced by various divisions. See your dealer for details. Please refer to Suburban power-team information on this page.

TOUGHNESS IS SPELLED S-U-B-U-R-B-A-N.

A. Strong Truck Frame. Deep section, steel side rails for strength and durability. The side rail drop-center design allows low body mounting for easy entry and exit.

B. New Low-Drag Front Disc-Brake Calipers. Reduce constant rolling resistance from the brakes.

C. Massive Girder Beam Front Suspension. A massive structural steel girder beam is the major component of the rugged suspension on 2-wheel drive Suburbans.

D. Aluminized Muffler. Outer shell and interior baffles are heavy-gauge metal, aluminized inside and out to help fight corrosion.

E. Computer-Matched Brake System. Power-assisted front disc brakes and finned rear drum brakes are computer-matched to the gross vehicle weight rating of the Suburban you order.

F. Finned Rear Brake Drums. Cast iron-steel rear brake drums are finned to promote cooling. Outer edges are curved to help keep contaminants from lining.

G. Two-Stage Multi-Leaf Rear Springs. Provide good ride with light loads. Progressively firmer support as cargo weight increases. They're treated with special anti-corrosive paint.

H. Double-wall Front Fenders. One-piece inner and outer fender panels for structural rigidity. Both steel panels are Zincrometal.

• **UNDERHOOD INSULATION.** Standard on Silverado models. Helps absorb engine sounds.

• **ZINC-RICH PRIMER.** Hand-sprayed on inner surfaces of front rocker panels and inside lower surfaces of outer rear quarter panels before final printing.

• **CORROSION-RESISTANT STEEL.** Zincrometal, galvanized steel, zinc alloy steel and zinc-plated parts are used to help fight rust.

• **DOUBLE-WALL DOORS.** Add rigidity. Both steel panels are Zincrometal.

• **ELECTRICALLY CHARGED PRIMER.** Electrical charging helps draw paint into hidden seams and crevices for added corrosion protection.

• **DOUBLE WALL FENDERS.**

• **DOUBLE-PANELED HOOD.** Fabricated from two pieces of steel, welded together for torsional rigidity. Outer panel is corrosion-resistant Zincrometal.

• **ACRYLIC ENAMEL.** Two finish coats.

• **2-SIDED GALVANIZED STEEL FRONT FLOOR PANELS.** Help resist corrosion from road salts and churned up stones.

ADDED ADVANTAGES TO OWNING A SUBURBAN.

A wide range of available options lets you outfit your Suburban to your specific riding, carrying and towing requirements.

- **Trailering Special Package.** Required equipment varies depending on gross combination weight. (See chart on back cover).
- **Comfortilt steering wheel.** Select any one of six different positions for your driving comfort.
- **Dual-unit front and rear air conditioning.** Each unit can be operated independently.
- **Optional 25.8 and 33.3 gallon fuel tanks.** A fuel tank stone shield is also optional.

A word about assembly, components and optional equipment in these vehicles.

The vehicles described in this literature are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors of Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that certain optional equipment can be ordered only in conjunction with other optional equipment. Also upgrading from specified standard equipment may be necessary when certain optional equipment is ordered. Ask your sales representative for details.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your vehicle is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your vehicle includes the optional equipment you ordered or, if there are changes, that they are acceptable to you.

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost. Check with your Chevrolet dealer for complete information.

These vehicles are also available from GMC dealers under the GMC nameplate. (GMC Suburban Series C1500, C2500, K1500 and K2500)

- Silverado instrument panel includes engine gauges.
- Roof luggage rack with air deflector.
- Cruise Control engages at a touch to maintain preset speed. Includes "resumed speed" feature.
- **Styled Wheels.** Tires supplied by various manufacturers.
- **Trailer weight-distributing hitch platform.**
- **Power windows for all side doors.**
- **Below Eyeline mirrors.**
- **Delco radio options include AM/FM stereo, AM/FM stereo with 8-track player or AM/FM stereo with cassette player, AM/FM stereo with CB.**
- **New single rectangular Halogen headlamps for standard models.**

The Silverado interior. As luxurious as it is big

Here is Suburban's top-of-the-line. The full-depth foam-cushion front seat is upholstered in your choice of either cut-pile velour cloth in four colours or new leather-grain vinyl in three colours. Deep-pile carpet lies underneath. While around you are such luxury touches as the handsome instrument panel with bright-brushed instrument cluster frame and needle-type full-gauge instrumentation. On the doors, full-door-trim panels. And there's a visor mounted mirror on the passenger side. Four interior trim colours match the seat colour of your choice.

As shown, the Suburban can be equipped to carry nine adults. The second seat can be folded down easily and the third seat removed to provide a long, flat cargo area. Outside, the Silverado comes with a distinctive chrome-accented grille, dual stocked rectangular headlights, and chrome bumpers, front and rear. Also included are lower bodyside rear and wheel opening mouldings.

The Scottsdale interior. A comfortable place for a lot of people to be.

Includes full-depth foam-cushioned front seat with handsome embossed two-tone vinyl trim. Custom cut-pile velour cloth upholstery and leather-grain custom vinyl seat trim are available options. Full-length insulated headliner included. Custom vinyl trim shown. Exterior appointments include front and rear chrome bumpers, bright-trimmed black bodyside and tailgate moulding and bright window mouldings.

The Custom Deluxe interior. All this and more comes standard.

Features include full-depth foam-cushioned front seat with embossed vinyl trim, cockpit-type instrument cluster, colour-keyed plastic door two-trim trim panels, padded sun-vises, tip-out ashtray and glove box. Front compartment lamp and black full-length rubber floor mat.

Exterior trim includes chrome front and rear bumpers, grille outline mouldings, bright right and left outside mirrors, side drip mouldings and bright hubcaps.
