1989 CHEVY TRUCKS

THE *Heartbeat* OF AMERICA  TODAY'S CHEVY TRUCK™

## 1989 SUBURBAN

Chevrolet® Suburban™ is the towing, hauling, 9-passenger superwagon with no serious competition — on or off the road.

Over half of the people in the market for a full-size, truck-based station wagon for personal use choose a Chevy™ Suburban. They're drawn to its unique good looks, V8 power, tremendously versatile carrying capabilities, and trailering can-do far in excess of any car-type wagon. A properly equipped 3/4-ton 2500 Series Suburban can move up to 16,000 lbs., including vehicle,

trailer, people, cargo and equipment.

Suburban is a matter of choice. After choice. After choice. There are no fewer than 16 Suburban models to choose from (8 gas, 8 diesel). These include two- and four-wheel-drive models, in both a 1/2-ton 1500 Series and 3/4-ton 2500 Series. Three-passenger seating is standard, and there are 2-, 5-, 6-, 8- and 9-passenger seating options. Dual rear panel-type doors are standard, and there's an optional wagon-type rear tailgate with available power window. You also get your pick of standard Scottsdale trim or the

top-level (and most ordered) Silverado trim with new-for-'89 interior enhancements. For even more choices, see Suburban's option listings on page 3.

The standard 1989 Suburban has power steering and power brakes, a Delco 2000 Series electronically tuned AM radio, 4-spoke sport steering wheel, a newly restyled body (new grille and body-side moldings), and a more lustrous finish, thanks to an advanced base-coat/clear-coat paint process.

**Important: A Word About This Catalog.** We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details, including details on the GM warranty which covers Chevrolets.

**A Word About Engines.** Chevrolets are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

**A Word About Assembly of Chevrolets.** Chevrolets are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Chevrolets incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolets with different or differently sourced components than originally scheduled. All such components have been approved for use in Chevrolets and will provide the quality performance associated with the Chevrolet name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

**A Word About Updated Service Information.** Chevrolet regularly sends its dealers useful service bulletins about Chevrolet products. Chevrolet monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

**GMAC Financing.** At your Chevrolet dealer's, financing or leasing your new Chevy truck can be as easy as saying GMAC.
