

Corvette

CHEVROLET

The Corvette: No other car has ever captured the imagination of true drivers around the world quite like the American Corvette.

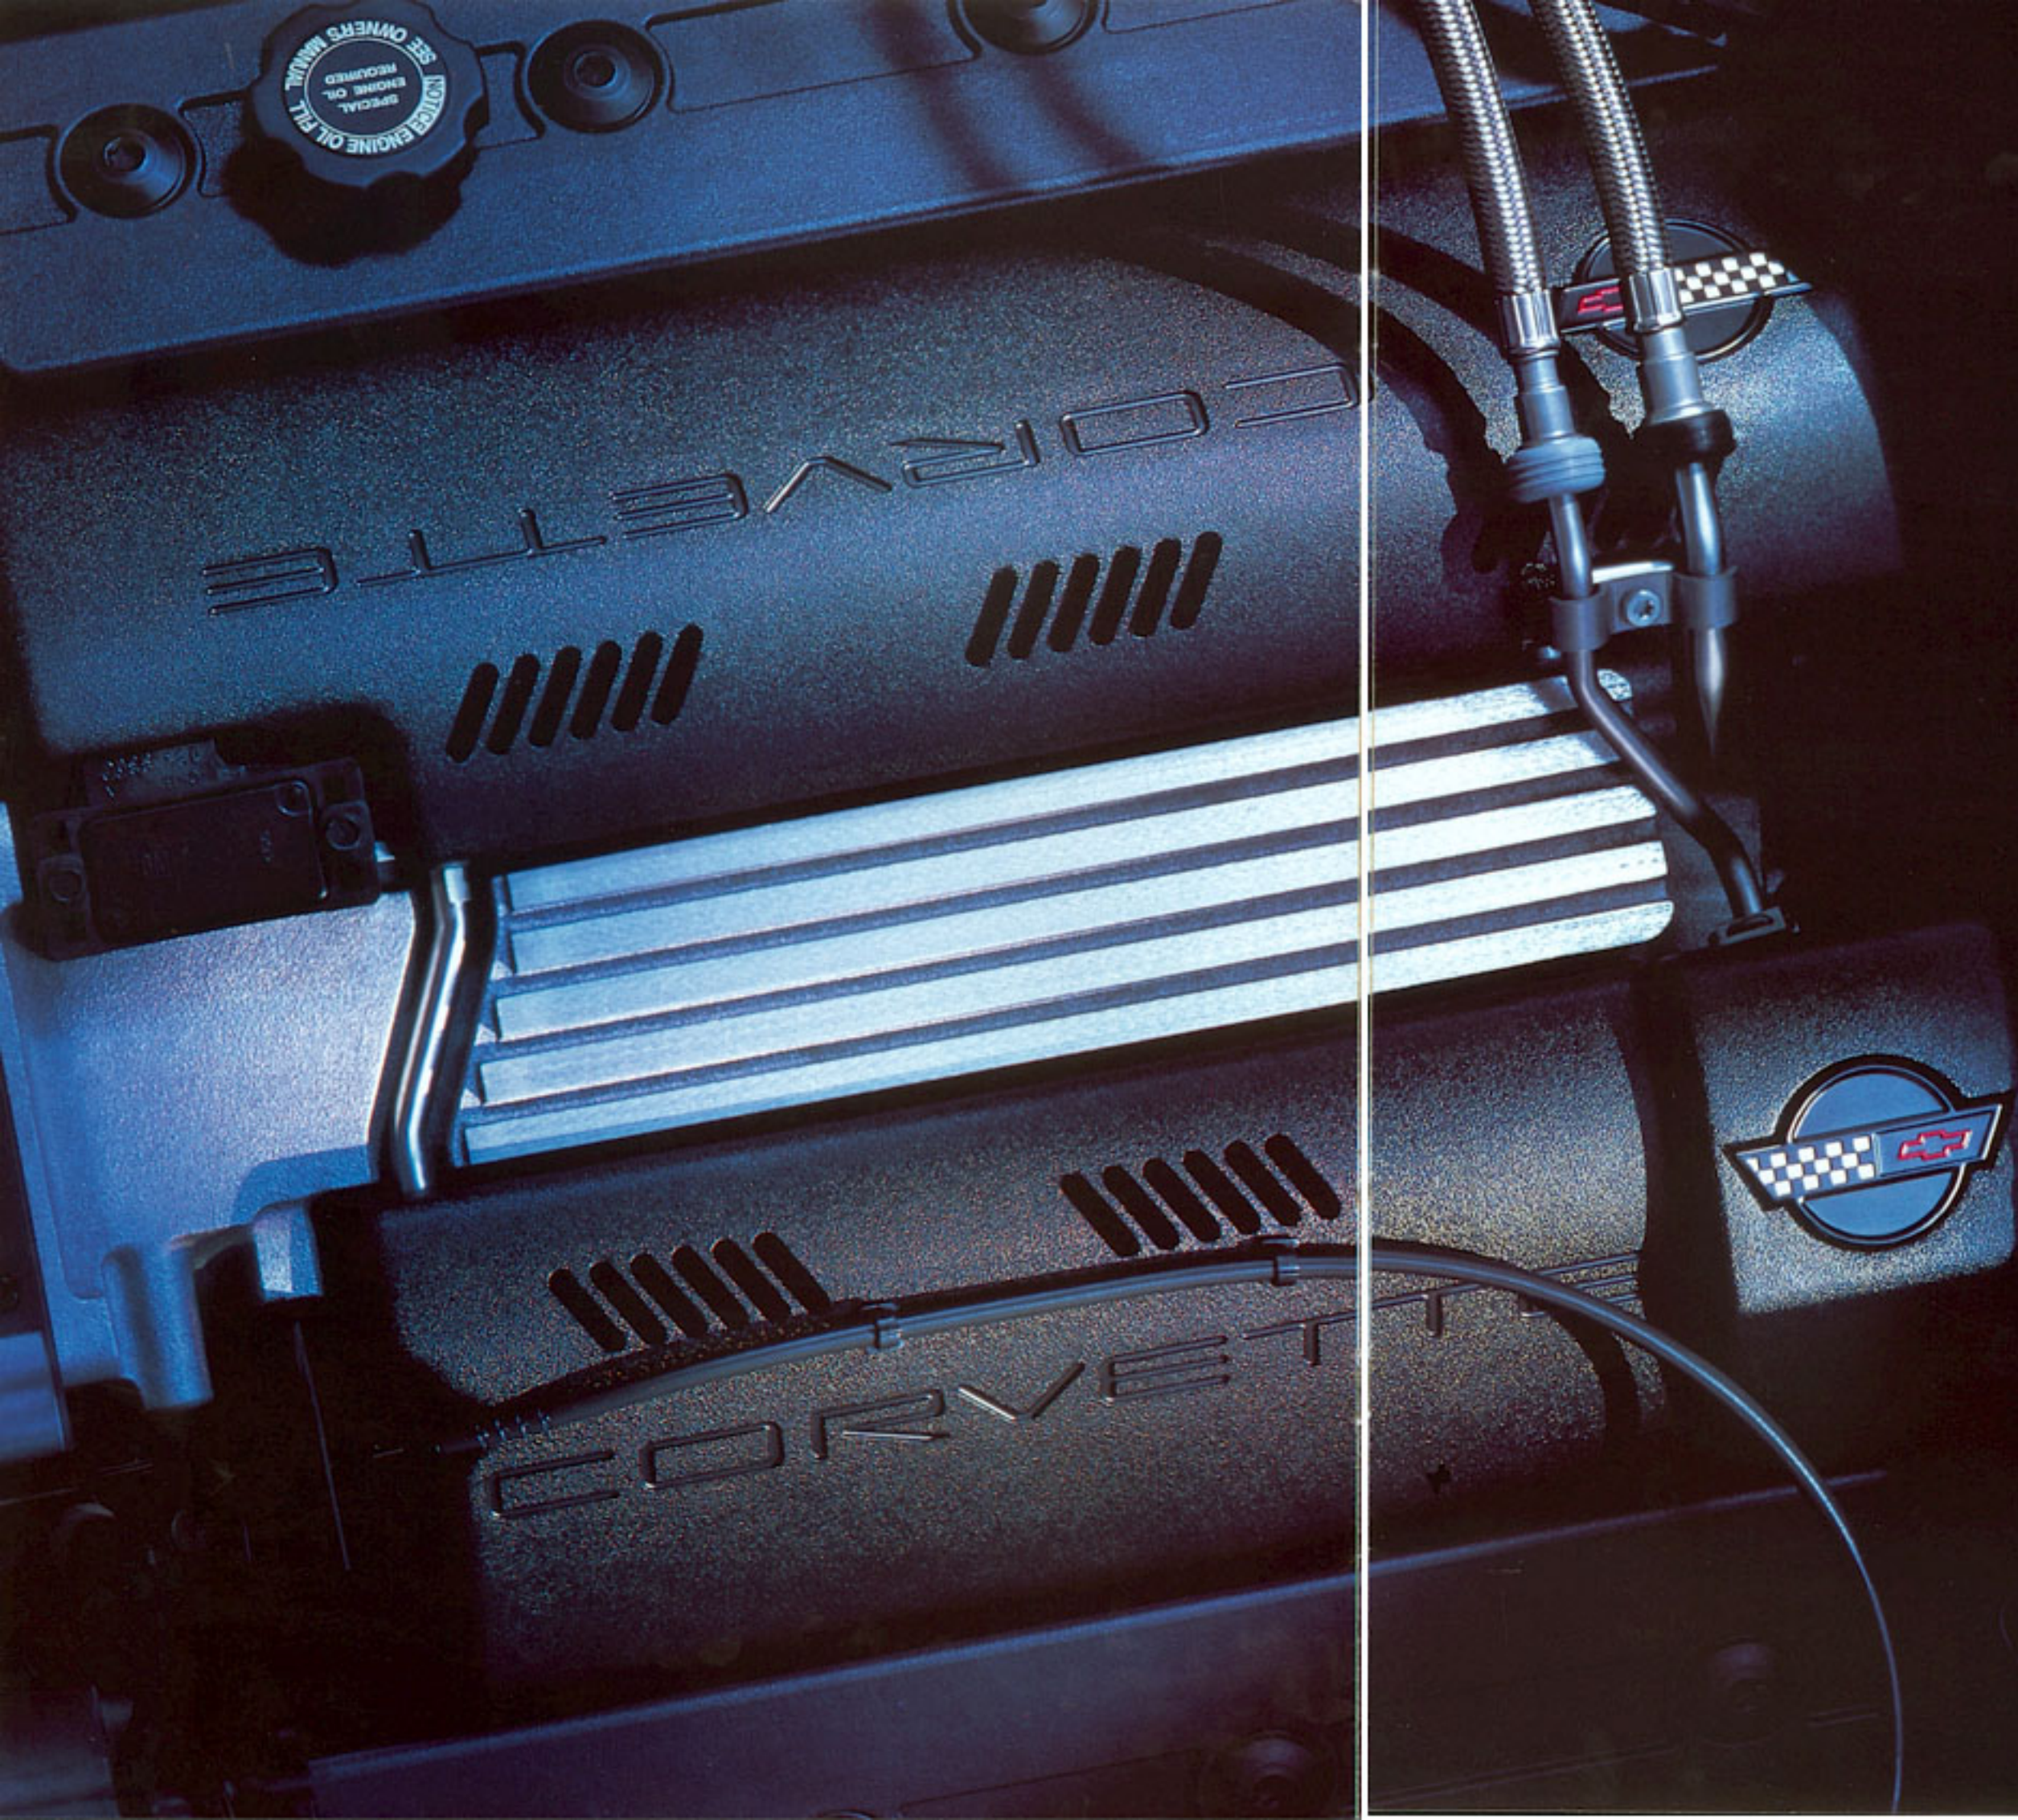

A legend among sports cars. It's a thoroughbred through and through.

It excites, it gets the adrenalin pumping. And, provided they can see it in time, it's stunning good looks and magnificent 'growl' turn heads like no other car. It is, as it has always been, the ultimate American sports car.

The 1995 Corvette does it all.

The stuff legends are made of. Just turn the ignition. The very second the Corvette roars into life you'll know you're sitting behind something classic. And awesome. The soft "burble" exhaust note from the mighty 5.7litre V-8 will tell you there's even more to the Corvette than meets the eye. Under your command will be 281 h.p./207kw and the potential for 254kph. Getting you from 0 – 100kph in 5.05 sec. manual/5.34 sec. automatic.

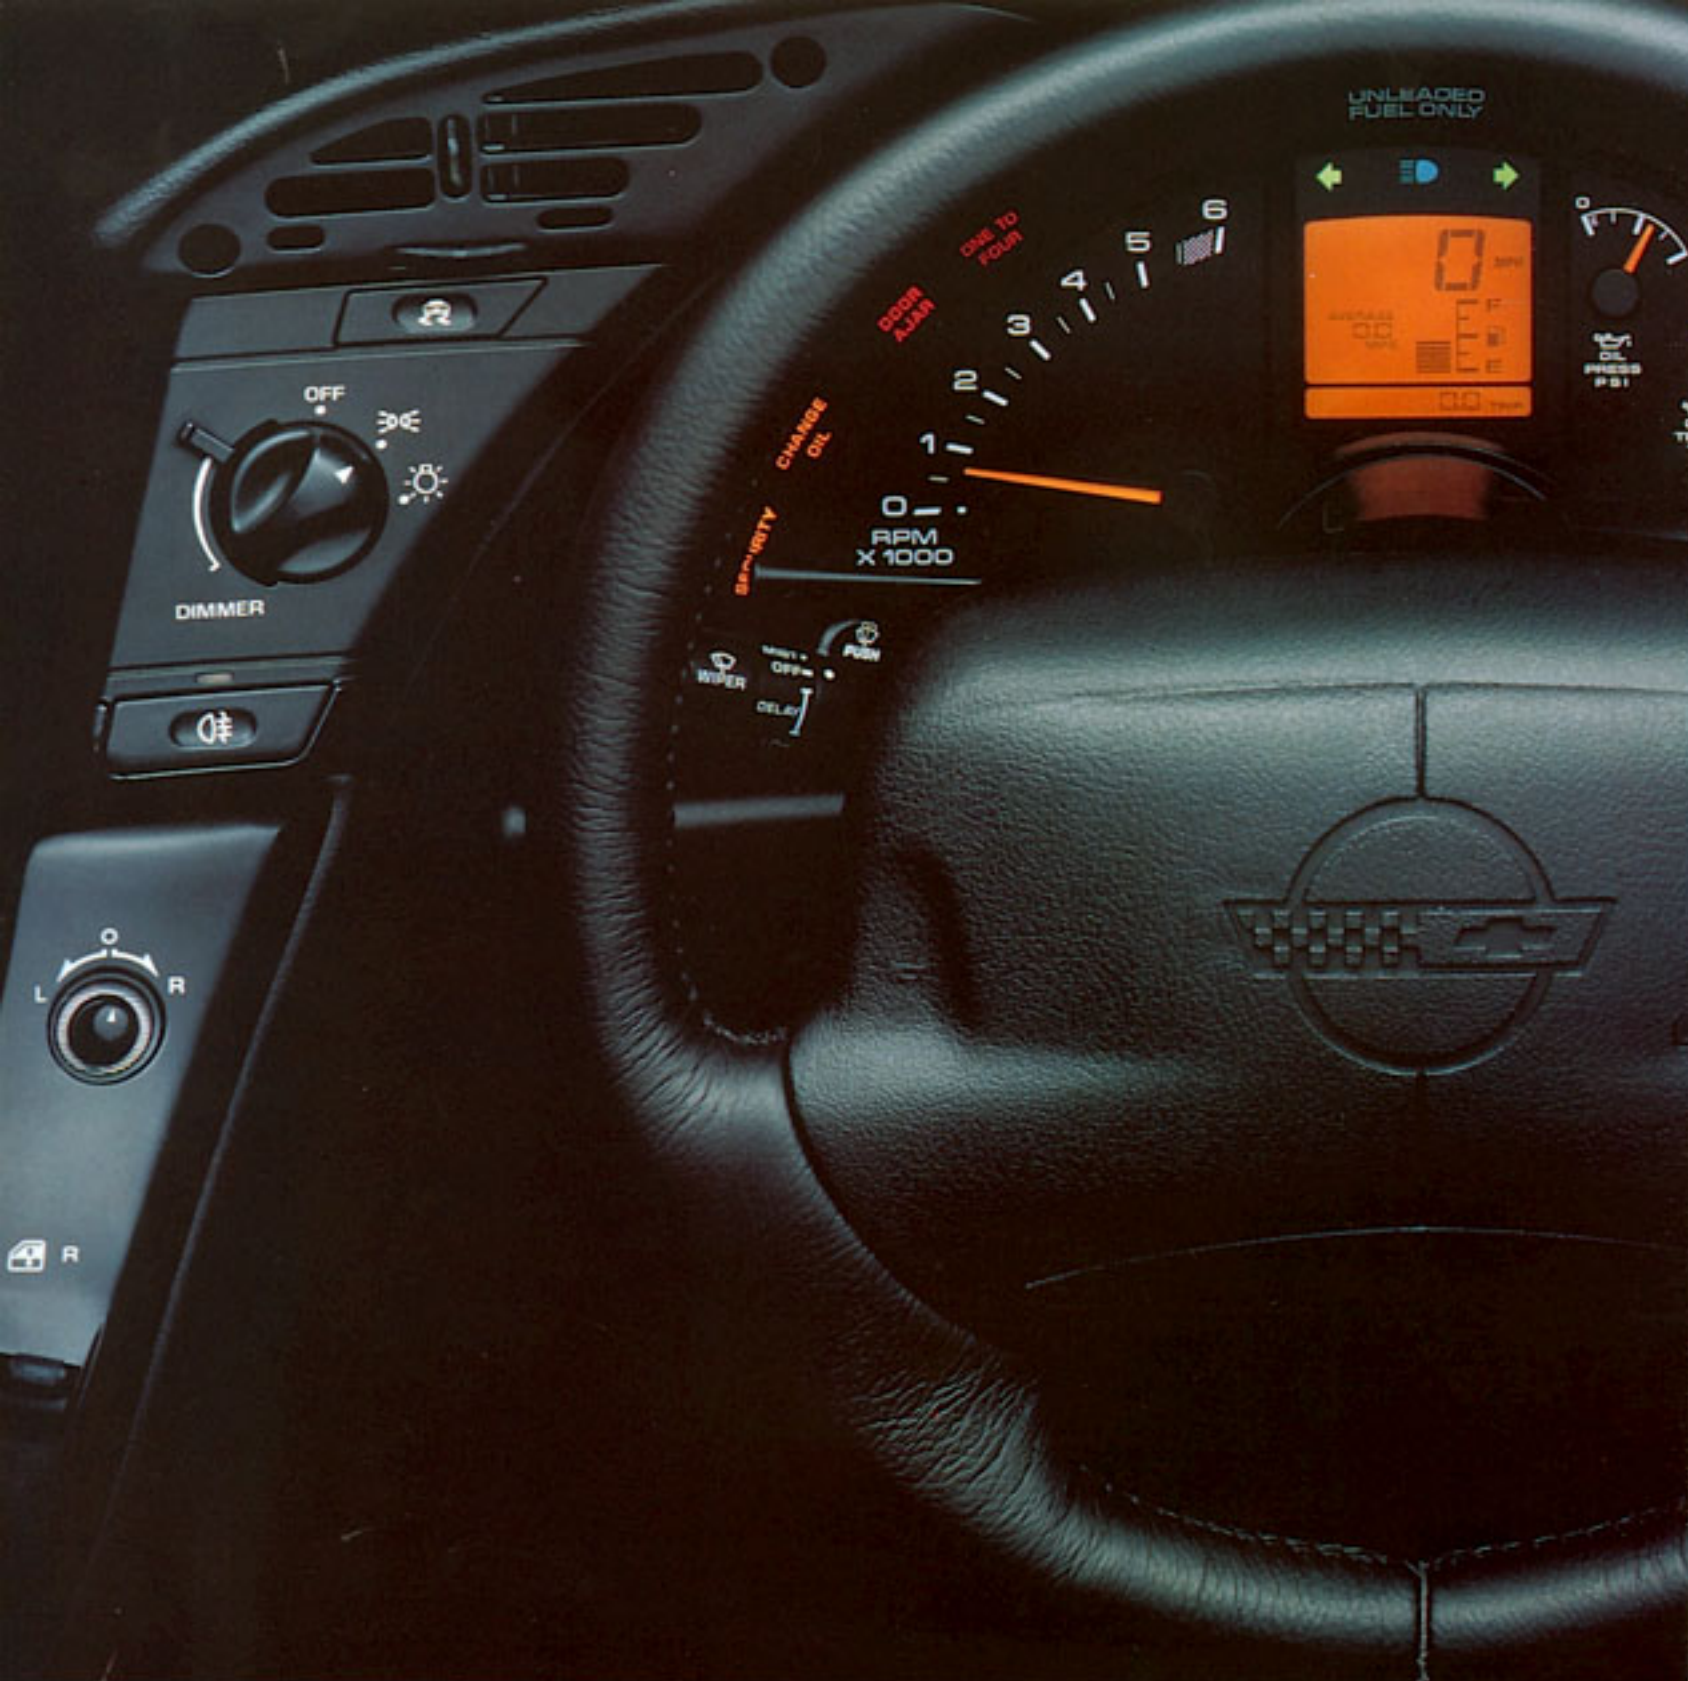

This is linked to the Bosch ASR, which is an advanced traction control system. Which effectively means you corner better and more safely than you've ever done. Naturally, all four wheels have Bosch ABS fitted. Use the Selective Ride Suspension and choose your preferred "ride" from three choices; Comfort, Touring or Sport. You also have a choice of transmission: 4-speed automatic or 6-speed ZF manual.

This really is the stuff legends are made of.

The Corvette offers comfort like no other world class sports car. The leather bucket seats (with 6-way electric adjusters) hold you firm with superb lateral support. The steering wheel adjusts to suit you perfectly. The automatic climate control will keep you comfortable and alert. The AS/FM/cassette/CD is balanced specifically for the Corvette. The on-board computer and Driver Information System constantly feeds you data on every important function – it'll even tell you if one tyre is below optimum pressure. Corvette is like nothing you've ever travelled in before.

Our position is clear; the safer and more personally secure you are, the more you'll get from the Corvette. Quite simply, everything that is technologically possible to ensure your safety and security has been fitted as standard. 4-wheel ABS, automatic electronic traction control,

driver and passenger airbags. Extended mobility tires (you can drive for 300 km at 80kph if the tire is loosing air). Automatic climate control to keep you alert. On-board computer that monitors everything important, including oil pressure and engine coolant. We consider your well-being is paramount.

And we like to think we've thought of everything to make sure it stays that way.

Genuine Chevrolet. A genuine Chevrolet is a car of undisputed quality, with all the features you want and with a comprehensive range of proven safety features, which combine to create a car that represents very real value for money.

We'll deliver you safely. Chevrolet benefits directly from the vast resources of General Motors and its commitment to every aspect of both car and people safety. No other car maker, has crash-tested more cars, invested more money, or actually given away more safety patents to the motor industry.

It's a matter of principle and pride. It is also intelligent.

For example, every Chevrolet has four-wheel ABS, driver side airbag and, to keep you alert, refreshed and relaxed, air-conditioning. All three are standard across the range.

We also regard your personal security as being important. So every automatic Chevrolet has an all-door locking system which is activated the moment you engage 'Drive'. All doors are fitted with a steel cross beam to protect you and your passengers from side impact.

Our pursuit of safety, in all its aspects, is total.

We guarantee quality.

The standard of build quality, technology and equipment is such that every Chevrolet has a 3-year, or 100,000 km, guarantee. Plus a 6-year anti-corrosion guarantee.

We believe in true value for money.

By comparison with the majority of quality car makers Chevrolet is years ahead in what we give you for your money. What we fit as standard other manufacturers frequently make a charge for. The level of driver and passenger comfort is apparent the moment you sit in a Chevrolet.

More importantly, every safety system we fit is included as standard equipment. In our opinion your safety is not an optional extra – it's of paramount importance.

Value for money is not something we just talk about. We deliver it.

We are always supportive. Everybody who buys a Chevrolet automatically receives our on-going support and loyalty. And it is considerable. We will never let you down. We give you the reassurance of our 24-hour, 365 days a year, breakdown service, which operates with 400 service points throughout

Europe. Customer care to us is not an empty expression. It's real, it's operational and it is always there, when and wherever you might need help.

We believe that if you buy a Chevrolet the very least you should expect is 100% commitment from us once you're on the road.

And we will give it you.

Now we would like to offer you a little temptation! Every GM dealer throughout Europe wants to give you the opportunity to experience for yourself the pleasure and excitement of driving one of these genuine Chevrolets.

You will, we assure you, find it a wonderful and pleasantly surprising driving experience.
